NOTICE OF ANNUAL STOCKHOLDERS' MEETING

NOTICE IS HEREBY GIVEN that the annual meeting of stockholders of **AYALA LAND, INC.** will be conducted virtually via <http://www.ayalagroupshareholders.com/> on **Wednesday, April 27, 2022 at 9:00 o'clock in the morning** with the following

A G E N D A¹

1. Call to Order
2. Certification of Notice and Quorum
3. Approval of Minutes of Previous Meeting
4. Annual Report
5. Ratification of the Acts of the Board of Directors and Officers
6. Election of Directors (Including the Independent Directors)
7. Election of External Auditor and Fixing of its Remuneration
8. Consideration of Such Other Business as May Properly Come Before the Meeting
9. Adjournment

Only stockholders of record as of **March 14, 2022** are entitled to notice of, and to vote at, this meeting.

Given the current circumstances and pursuant to the Company's By-Laws, the Board of Directors, during its meeting on November 25, 2021, resolved that the Annual Stockholders' Meeting be held in a fully virtual format, hence, stockholders may only attend the meeting by remote communication, by voting *in absentia*, or by appointing the Chairman of the meeting as their proxy.

Duly accomplished proxies shall be submitted on or before April 18, 2022 to the Office of the Corporate Secretary at 4/F Tower One and Exchange Plaza, Ayala Triangle, Ayala Avenue, Makati City or by email. Validation of proxies is set for April 20, 2022 at 9:00 o'clock in the morning.

Stockholders may vote by remote communication, or *in absentia* subject to validation procedures. Stockholders intending to participate by remote communication should notify the Company on or before April 18, 2022. The procedures for participating in the meeting through remote communication and for casting of votes *in absentia* will be set forth in the Information Statement².

Stockholders of record as of March 14, 2022 owning at least 5% of the total outstanding capital stock of the Company may submit proposals on items for inclusion in the agenda by email on or before April 20, 2022³.

All email communications should be sent to corporatesecretary@ayalaland.com.ph on or before the designated deadlines.

Makati City, February 28, 2022.

A handwritten signature in black ink, appearing to read 'Solomon M. Hermosura'.

SOLOMON M. HERMOSURA
Corporate Secretary
and Group General Counsel

¹ See next page for the explanation and rationale for each agenda item.

² Stockholders should notify the Company by email of their preference to receive hard copies of the Information Statement and other ASM materials on or before March 14, 2022.

³ The inclusion of the proposed agenda item shall be in accordance with SEC Memorandum Circular No. 14, Series of 2020, and the Company's internal guidelines.

EXPLANATION AND RATIONALE OF AGENDA ITEMS

Call to Order

The Chairman will formally open the meeting at approximately 9:00 o' clock in the morning.

Certification of Notice and Quorum (and Rules of Conduct and Procedures)

The Corporate Secretary will certify that written notice for the meeting was duly sent to stockholders and that a quorum exists for the transaction of business.

Pursuant to Sections 57 and 23 of the Revised Corporation Code which allow voting *in absentia* by the stockholders, the Company has set up a designated online web address which may be accessed by the stockholders to register and vote *in absentia* on the matters for resolution at the meeting⁴. A stockholder participating by remote communication or who votes *in absentia* shall be deemed present for purposes of quorum.

The following are the rules of conduct and procedures for the meeting to be conducted in virtual format:

- (i) Stockholders may attend the meeting remotely through the online web address (URL) provided. Questions and comments may be sent prior to or during the meeting at corporatesecretary@avalaland.com.ph and shall be limited to the items in the Agenda.
- (ii) Each of the proposed resolutions will be shown on the screen during the livestreaming as the same is taken up at the meeting.
- (iii) Stockholders must notify the Company on or before April 18, 2022 of their intention to participate in the meeting by remote communication to be included in determining the existence of a quorum, together with the stockholders who voted *in absentia* and by proxy.
- (iv) Voting shall only be allowed for stockholders registered in the Voting *in Absentia* and Shareholder (VIASH) System or through authorizing the Chairman of the meeting as proxy.
- (v) Stockholders voting *in absentia*, who have previously registered in the VIASH System, may cast their votes electronically at any time using the VIASH System prior to or during the meeting.
- (vi) All items in the agenda for the approval by the stockholders will need the affirmative vote of stockholders representing at least a majority of the issued and outstanding voting stock present at the meeting.
- (vii) Election of directors will be by plurality of votes and every stockholder will be entitled to cumulate his votes. Each outstanding share of stock entitles the registered stockholder to one (1) vote.
- (viii) The Inspectors of Proxies and Ballots Committee will tabulate all votes received and an independent third party will validate the results. The Corporate Secretary shall report the results of voting during the meeting.
- (ix) The meeting proceedings shall be recorded in audio and video format.
- (x) A link to the recorded webcast of the meeting will be posted on the Company's website after the meeting. Stockholders shall have two (2) weeks from posting to raise to the Company any issues, clarifications and concerns on the matters arising from the meeting conducted.

Approval of Minutes of Previous Meeting

The minutes of the meeting held on April 21, 2021 are available at the Company website, [ir.avalaland.com.ph \(https://ir.avalaland.com.ph/wp-content/uploads/2022/02/Avala-Land-Inc.-Minutes-Annual-Stockholders-Mtg.-21-April-2021-FZA.pdf\)](https://ir.avalaland.com.ph/wp-content/uploads/2022/02/Avala-Land-Inc.-Minutes-Annual-Stockholders-Mtg.-21-April-2021-FZA.pdf). A soft copy of the minutes will also be distributed to the stockholders after their registration for the meeting.

A resolution approving the minutes will be presented to the stockholders and approved by the vote of the stockholders representing at least a majority of the outstanding capital stock voting *in absentia* or voting through the Chairman of the meeting as proxy.

Annual Report

The Chairman will deliver the "Message From The Chairman", which provides the highlights of the performance of the Company for the year 2021 and the outlook of the Company for the year 2022 and beyond.

The President and Chief Executive Officer will deliver the "President's Report" which provides the significant operational and financial performance as well as the milestones and achievements of the Company for the year 2021. The report will also include significant events affecting the Company's performance for the year 2021.

The Company's annual report, titled the Integrated Report, will contain the "Message From The Chairman" and the "President's Report". A copy of the Integrated Report will be posted on the Company's website, ir.avalaland.com.ph.

The Audited Financial Statements (AFS) as of December 31, 2021 will be presented to the stockholders for their approval. The AFS will be embodied in the Information Statement that may be accessed by the stockholders at the Company's website, ir.avalaland.com.ph, and will also be set forth in the Integrated Report. The Audit Committee has recommended to the Board the approval of the AFS, and the Board has approved the AFS on February 24, 2022.

A resolution noting the report and approving the AFS will be presented to the stockholders for approval by the affirmative vote of the stockholders representing at least a majority of the outstanding capital stock voting *in absentia* or voting through the Chairman of the meeting as proxy.

Ratification of the Acts of the Board of Directors and Officers

The acts of the Board and its Committees were those adopted since the annual stockholders' meeting on April 21, 2021 until April 27, 2022. They include the approval of agreements, projects, investments, treasury-related matters and other matters covered by disclosures to the Securities and Exchange Commission and the Philippine Stock Exchange. The acts of the officers were those taken to implement the resolutions of the Board or its Committees or in the general conduct of business.

A resolution on this agenda item will be presented to the stockholders for approval by the vote of the stockholders representing at least a majority of the outstanding stock voting *in absentia* or voting through the Chairman of the meeting as proxy.

Election of Directors (Including the Independent Directors)

⁴ The detailed instructions pertaining to the URL and the use thereof will be provided in the Information Statement.

The Corporate Governance and Nomination Committee of the Board would have evaluated and determined that the nine (9) nominees to the Board, including the nominees for independent directors, have all the necessary qualifications to serve as directors and the expertise and competence, individually and collectively, to enable the Board to fulfill its roles and responsibilities and manage the Company to achieve its objectives.

The profiles of the candidates to the Board of Directors will be provided in the Information Statement.

Election of External Auditor and Fixing of its Remuneration

The Audit Committee of the Board will endorse to the stockholders the election of SyCip Gorres Velayo & Co. (SGV & Co.) as the external auditor for the ensuing year as well as its proposed remuneration. The external audit conducts an independent verification of the Company's financial statements and provides an objective assurance on the accuracy of its financial statements.

The profile of SGV & Co. will be provided in the Information Statement.

A resolution for the appointment of the external auditor, SGV, and the fixing of its remuneration will be presented to the stockholders for adoption by the affirmative vote of stockholders representing at least a majority of the outstanding capital stock voting *in absentia* or voting through the Chairman of the meeting as proxy.

Consideration of Such Other Business as May Properly Come Before the Meeting

The Chairman will open the floor for comments and questions by the stockholders, and take up agenda items received from stockholders on or before April 20, 2022 in accordance with existing laws, rules and regulations of the Securities and Exchange Commission and the Company's internal guidelines⁵.

⁵ SEC Memorandum Circular No. 14, series of 2020 or "Shareholders' Right to Put Items on the Agenda for Regular/Special Stockholders' Meetings": <https://www.sec.gov.ph/mc-2020/mc-no-14-s-2020shareholders-right-to-put-items-on-the-agenda-for-regular-special-stockholders-meetings/>.

PROXY

The undersigned stockholder of **AYALA LAND, INC.** (the "Company") hereby appoints the Chairman of the meeting, as *attorney-in-fact* and *proxy*, to represent and vote all shares registered in his/her/its name at the annual meeting of stockholders of the Company on **April 27, 2022 (Wednesday)** at **9:00 a.m.** by remote communication and at any of the adjournments thereof for the purpose of acting on the matters stated below.

Please place an "X" in the box below how you wish your votes to be cast in respect of the matters to be taken up during the meeting.

If no specific direction as to voting is given, the votes will be cast for the election of all nominees and for the approval of the resolutions on the matters stated below and as set out in the notice, and for such other matters as may properly come before the meeting in the manner described in the Information Statement and as recommended by the Chairman.

Item 2. **Dissenters' Right of Appraisal**

Under Section 80, Title X of the Revised Corporation Code of the Philippines (“RCC”), a stockholder shall have the right to dissent and demand payment of the fair value of his shares in the following instances:

- (a) In case any amendment to the Articles of Incorporation has the effect of changing or restricting the rights of any stockholders or class of shares, or of authorizing preferences in any respect superior to those of outstanding shares of any class, or of extending or shortening the term of corporate existence;
- (b) In case of sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the corporate property and assets as provided in the Revised Corporation Code;
- (c) In case of merger or consolidation; and
- (d) In case of investment of funds by the Company in any other corporation or business or for any purpose other than the primary purpose for which the Company was organized.

Section 81 of the Corporation Code provides:

How Right is Exercised.- The dissenting stockholder who votes against a proposed corporate action may exercise the right of appraisal by making a written demand on the corporation for the payment of the fair market value of shares held within thirty (30) days from the date on which the vote was taken: Provided, That the failure to make the demand within such period shall be deemed a waiver of the appraisal right. If the proposed corporate action is implemented, the corporation shall pay the stockholder, upon surrender of the certificate or certificates of stock representing the stockholders’ shares, or the fair value thereof as of the day before the vote was taken, excluding any appreciation or depreciation in anticipation of such corporate action.

If within sixty (60) days from the approval of the corporate action by the stockholders, the withdrawing stockholder and the corporation cannot agree on the fair value of the shares, it shall be determined and appraised by three (3) disinterested persons, one (1) of whom, shall be named by the stockholder, another by the corporation, and the third by the two (2) thus chosen. The findings of the majority of the appraisers shall be final, and their award shall be

² Please also refer to Item 20 of this DIS.

paid by the corporation within thirty (30) days after such award is made. Provided, That no payment shall be made to any dissenting stockholder unless the corporation has unrestricted retained earnings in its books to cover such payment: Provided further, That upon payment by the corporation of the agreed or awarded price, the stockholder shall forthwith transfer the share to the corporation.

No matters or actions that may give rise to a possible exercise by stockholders of their appraisal right will be taken up at the meeting.

Item 3. Interest of Certain Persons in or Opposition to Matters to be Acted Upon

- (a) No current director or officer³, or nominee for election as director or any of his associate, has any substantial interest, direct or indirect, by security holdings or otherwise, in any matter to be acted upon other than election to office.
- (b) No director has informed the Company that he intends to oppose any action to be taken at the annual stockholders' meeting.

B. CONTROL AND COMPENSATION INFORMATION

Item 4. Voting Securities and Principal Holders Thereof

(a) Number of Shares Outstanding as of February 28, 2022:

Common Shares **14,795,594,779**
Preferred Shares **13,066,494,759**

Number of Votes Entitled: one (1) vote per share

- (b) All stockholders of record as of March 14, 2022 are entitled to receive notice and to vote at the annual stockholders' meeting.

(c) Manner of Voting

Article III, Sections 6, 7 and 8 of the By-Laws of the Company (the "By-Laws") provide:

"Section 6 – Any stockholder entitled to vote may vote in person, through remote communication, *in absentia*, electronically or otherwise or be represented by proxy at any regular or special stockholders' meetings, subject to compliance with rules and regulations as may be issued by the Securities and Exchange Commission from time to time. Proxies shall be in writing and signed and in accordance with the existing laws, rules and regulations of the Securities and Exchange Commission. Duly accomplished proxies must be submitted to the office of the Corporate Secretary not later than seven (7) business days prior to the date of the stockholders' meeting. Validation of proxies shall be conducted by the Inspectors of Proxies and Ballots Committee at least five (5) business days prior to the date of the stockholders' meeting. (As amended on 26 November 2020.)

Section 7 - Each share of stock entitles the person in whose name it is registered in the books of the Corporation to one (1) vote, provided the share has not been declared delinquent. (As amended on 26 November 2020.)

Section 8 – The election of Directors shall be by ballot and each stockholder may vote such number of share for as many persons as are Directors to be elected, or he may give to one (1) candidate as many votes as the number of Directors to be elected multiplied by the number of his shares shall equal, or he may distribute them on the same principle among as many candidates as he may see fit, provided that the whole number of votes cast by him shall not exceed the number of shares owned by him multiplied by the whole number of Directors to be elected. (As amended on 26 November 2020.)

Item 5. **Directors and Executive Officers**

Article IV, Section 1 of the By-Laws provides in part:

“Section 1. xxx The Board of Directors shall have nine (9) members who shall be elected by the Corporation’s stockholders entitled to vote at the annual meeting, and shall hold office for one year and until their successors are elected and qualified in accordance with these By-laws.”

The record of attendance of the directors at the meetings of the Board of Directors (the “Board”) held in 2021 is as follows:

Directors	No. of Meetings Attended/Held⁹	Percent Present
Fernando Zobel de Ayala	6/6	100%
Jaime Augusto Zobel de Ayala	6/6	100%
Bernard Vincent O. Dy	6/6	100%
Antonino T. Aquino	6/6	100%
Arturo G. Corpuz	6/6	100%
Rizalina G. Mantaring	6/6	100%
Cesar V. Purisima	6/6	100%
Rex Ma. A. Mendoza	6/6	100%
Sherisa P. Nuesa	6/6	100%

The Management Committee members and other officers, unless removed by the Board, shall serve as such until their successors are elected or appointed.

The Board undergoes a formal assessment process annually whereby each director completes an evaluation questionnaire that is intended to provide insights on the effectiveness of the Board, its Committees, the Chairman, and the directors. The assessment criteria or metrics include board composition; board roles, functions and processes; information management; representation of shareholders; management of the Company’s performance; senior executives’ talent management and succession planning; dynamics and relationships; and corporate governance practices. The aggregated results are presented to the Board during the meeting immediately following the end of the assessment process. The performance assessment of the Board and the directors is conducted by an independent third-party consultant every three (3) years. In 2019, Aon plc was engaged by the Company to conduct the Board evaluation covering the fiscal year 2019.

(a) **Information required of Directors and Executive Officers**

i. **Directors and Executive Officers**

The following persons, who constitute the final list of candidates presented and approved by the Corporate Governance and Nomination Committee (composed of Sherisa P. Nuesa, Chairman, and Cesar V. Purisima and Rizalina G. Mantaring, members), have been nominated to the Board for the ensuing year and have accepted their nomination:

Fernando Zobel de Ayala
Jaime Augusto Zobel de Ayala
Bernard Vincent O. Dy
Antonino T. Aquino
Arturo G. Corpuz
Rizalina G. Mantaring
Rex Ma. A. Mendoza
Sherisa P. Nuesa
Cesar V. Purisima

The nominees were formally nominated by a shareholder of the Company, Dolores E. Danila, who owns 1,516 voting preferred shares or 0.000005% of the total voting shares of the Company and who is not related to any of the nominees for independent directors. Mesdames Rizalina G. Mantaring and Sherisa P. Nuesa, and Messrs. Rex Ma. A.

⁹ In 2020 and during the incumbency of the director.

Mendoza and Cesar V. Purisima are nominated as independent directors. All nominees are incumbent directors of the Company.

The Corporate Governance and Nomination Committee evaluated the qualifications of the nominees and prepared the final list of nominees in accordance with SRC Rule 38 (Requirements on Nomination and Election of Independent Directors), and the By-Laws of the Company.

Only nominees whose names appear in the final list of candidates are eligible for election as directors. No nominations will be entertained or allowed on the floor during the annual stockholders' meeting.

Ms. Mantaring and Mr. Purisima have served as directors of the Company for eight (8) years and four (4) years, respectively, while Mr. Mendoza and Ms. Nuesa have served as independent directors of the Company for two (2) years. The other nominees for directors have served as such for more than five (5) years. None of the independent directors have served for more than nine (9) years.

A summary of the qualifications of the incumbent directors, who are also nominees for directors for election at the annual stockholders' meeting, and of the incumbent officers is set forth in Annex "B". The certifications on the qualifications of independent directors are attached hereto as Annex "B-1".

The officers of the Company are elected annually by the Board during its organizational meeting.

ii. Significant employees

The Company considers its human resources working as a team as a key element for its continued success. But the Company has no employee who is expected to make individually on his own a significant contribution to the business.

iii. Family Relationships

Fernando Zobel de Ayala, the Chairman, and Jaime Augusto Zobel de Ayala, the Vice Chairman, are brothers.

iv. Involvement in Certain Legal Proceedings

None of the directors or executive officers is involved in any material pending legal proceedings in any court or administrative agency.

As of December 31, 2021, ALI, its subsidiaries, and its affiliates, are not involved in any litigation regarding an event which occurred during the past five (5) years that they consider material.

However, there are certain ongoing and unresolved litigations ALI is involved in which it considers material although the events giving rise to the said litigation occurred beyond the five (5) year period. These include:

Las Piñas Properties

Certain individuals and entities have claimed an interest in ALI's properties located in Las Piñas, Metro Manila.

Prior to purchasing the aforesaid properties, ALI conducted an investigation of titles to the properties and had no notice of any title or claim that was superior to the titles purchased by ALI. ALI traced its titles to their original certificates of title and ALI believes that it has established its superior ownership position over said parcels of land. ALI has assessed these adverse claims and believes that its titles are in general superior to the purported titles or other evidence of alleged ownership of these claimants. On this basis, beginning October 1993, ALI filed petitions in the Regional Trial Court of Makati and Las Piñas for quieting of title to nullify the purported titles or claims of these adverse

claimants. These cases are at various stages of trial and appeal. Some of these cases have been decided by the Supreme Court (“SC”). These include decisions affirming the title of ALI to some of these properties, which have been developed and offered for sale to the public as Sonera, Ayala Southvale. The SC issued a decision adverse to ALI’s title over some of these properties dated 26 July 2017 and denied ALI’s motions for reconsideration.

ALI has made no allowance in respect of such actual or threatened litigation expenses.

The Company is a respondent to a case for Declaratory Relief with Prayer for Temporary Restraining Order and Writ of Preliminary Injunction,¹⁰ filed by the petitioner, former Cebu City Mayor Tomas R. Osmena, seeking among others, to nullify the Consortium, the Company, Cebu Holdings, Inc. (CHI) and SM Prime Holdings, Inc.’s purchase of the 26-hectare property located in South Road Properties 2, Cebu City, from the Local Government Unit of Cebu City. In an Order dated January 13, 2021, the Regional Trial Court has ordered the dismissal of the case, subject of a motion for reconsideration filed by the petitioner pending in the same court.

In view of the merger of CHI with the Company, the Company is currently a respondent in a Petition for Declaration of Nullity of Contract before the Regional Trial Court. A locator at Cebu I.T. Park violated its Deed of Restrictions. To avoid the consequence of nullification of the sale, the locator entered into a Memorandum of Agreement with Cebu Property Ventures Development Corporation¹¹ to pay fines, pending the rectification of the cited violation. Two (2) years after the MOA was executed and honored by both parties, the locator sought its nullification. The case is currently pending.

(b) Certain Relationships and Related Transactions

The Company and its subsidiaries (the “Group”), in their regular conduct of business, have entered into transactions with associates and other related parties principally consisting of advances and reimbursement of expenses, purchase and sale of real estate properties, construction contracts, and development, management, underwriting, marketing, leasing and administrative service agreements. Sales and purchases of goods and services to and from related parties are made on an arm’s length basis and at current market prices at the time of the transactions. Material related party transactions are reviewed and approved by the Related Party Transactions Review Committee and approved by the Board of Directors in accordance with the Company’s Related Party Transactions Policy.

However, no other transaction, without proper disclosure, was undertaken by the Group in which any director or executive officer, any nominee for election as director, any beneficial owner of more than 5% of the Company’s outstanding shares (direct or indirect) or any member of his immediate family was involved or had a direct or indirect material interest.

ALI directors and employees are required to promptly disclose any business and family-related transactions with the Company to ensure that potential conflicts of interest are surfaced and brought to the attention of management. None of the Company’s directors have entered into self-dealing and related party transactions with or involving the Company in 2021.

The table below sets out principal ongoing transactions of the Company with related parties as of end December 31, 2021. Additional information on Ayala Land’s Related Party Transactions can be found on Note 25 of the Audited Financial Statements.

Property-for-share swap between Ayala Corporation and Ayala Land, Inc.

On January 19, 2022, the Related Party Transactions Review Committee of the Company, approved and endorsed the subscription of Ayala Corporation (AC) and Mermac, Inc. (Mermac) to 309,597,711 and 1,982,289 primary common shares of ALI, respectively, in

exchange for the transfer to the Company of identified assets valued at P17,386,164,000.00 under a property-for-share swap transaction at a final transaction price of 55.80 per share (ALI Asset-for-Share Swap Transaction”), as validated by the third-party Fairness Opinion issued by FTI Consulting Philippines, Inc., an independent fairness opinion provider accredited by both the SEC and PSE. The Board of Directors of the Company, by unanimous vote likewise approved the transaction on January 20, 2022.

Under the ALI Asset-for-Share Swap Transaction, AC and Mermac shall transfer to the Company the following properties valued at Seventeen Billion Three Hundred Eighty-Six Million One Hundred Sixty Four Thousand Pesos (P17,386,164,000.00):

Asset	Registered Owner	Transaction Value (in Php)
50% ownership in Ayala Hotels, Inc. (Owner of the Manila Peninsula property and ALI partner in Ayalaland Premier's Park Central Towers Project)	AC	13,198,623,695.00
100% ownership in Darong Agricultural and Development Corp (an operating company with land assets)	AC	1,722,601,620.00
Office units and parking slots at Tower One 32nd to 35th floors (One floor is 62.65% owned by AC, 37.35% Mermac)	AC and Mermac	1,283,128,273.80 110,611,726.20
Honda Pasig Property	AC	993,135,000.00
Calauan Property	AC	78,063,685.00
Total		17,386,164,000.00

The properties to be infused have been appraised by Cuervo Appraisers, Inc. (Cuervo). The Assets will be used as AC and Mermac’s payment for the total 311,580,000 primary common shares of the Company. A copy of the Fairness Opinion and the Valuation Reports may be accessed through the link <https://ir.ayalaland.com.ph/wp-content/uploads/2022/04/AC-ALI-Property-for-Share-Swap-Fairness-Opinion-Appraisal-and-Valuation-Reports.pdf>

The primary common shares to be issued by the Company to AC and Mermac will come from the unissued shares in the 1-Billion Common Shares Carve Out approved by ALI shareholders in 2014. The said shares are not subject to pre-emptive rights and do not require stockholders' approval under the Seventh Article of the Articles of Incorporation of Ayala Land, Inc. The exchange of shares for the Assets will qualify as a tax-free exchange under Section 40(C)(2) of the Tax Code, as amended, which provides:

(2) Exception. - * * *

No gain or loss shall also be recognized on a corporation or on its stock or securities if such corporation is a party to a reorganization and exchanges property in pursuance to a plan of reorganization solely for stock or securities in another corporation that is a party to the reorganization. A reorganization is defined as: XXX

No gain or loss shall also be recognized if property is transferred to a corporation by a person alone or together with others, not exceeding four (4) persons, in exchange for stock or unit of participation in such a corporation of which as a result of such exchange the transferor or transferors, collectively, gains or maintains control of said corporation: Provided, That stocks issued for services shall not be considered as issued in return for property. XXX”

Section 40 (C) (2) of the Tax Code, as amended, has been interpreted by the Supreme Court in the case of Commissioner of Internal Revenue vs. Filinvest Development Corporation (G.R. No. 167689, 9 July 2011), to mean that a tax-free exchange applies when the controlling person gains “further control” or transfers where the exchanger already has control

of the corporation at the time of the exchange. Even prior to the Transaction, AC (directly) and Mermac (indirectly) already have control of ALI.

The Company executed the Deed of Exchange on January 31, 2022 and filed the application for confirmation of the valuation of the properties which will be the consideration for its original issuance of shares, with the SEC on February 3, 2022. After SEC approves the Transaction, applications for Certificates Authorizing Registration (CAR) to be issued by BIR will be made. The Company shall likewise apply for the additional listing of shares with the Exchange upon CAR issuance.

Property-for-share swap between Ayala Land, Inc. and AREIT, Inc.

On March 9, 2022, the Related Party Transactions Review Committee of the Company, approved and endorsed the subscription of ALI to 252,136,383 primary common shares of AREIT, Inc. in exchange for the transfer to AREIT, Inc. of identified key commercial properties valued at P11,257,889,535.91 under a property-for-share swap transaction at a final transaction price of P44.65 per share ("AREIT Property-for-Share Swap Transaction"), as validated by the third-party Fairness Opinion issued by Isla Lipana & Co. ("Isla Lipana"), an independent fairness opinion provider accredited by both the SEC and PSE. The Executive Committee of the Company, by unanimous vote likewise approved the transaction on even date. A copy of the Fairness Opinion and the Valuation Reports may be accessed through the link <https://ir.ayalaland.com.ph/wp-content/uploads/2022/03/ALI-AREIT-Fairness-Opinion-and-Valuation-Report.pdf>.

Under the AREIT Property-for-Share Swap Transaction, the Company shall transfer to AREIT, Inc. the following properties valued at Eleven Billion Two Hundred Fifty-Seven Million Eight Hundred Eighty-Nine Thousand Five Hundred Thirty-Five and 91/100 Pesos (P11,257,889,535.91):

Property	Registered Owner	Transaction Value (in Php)
eBloc 1	Ayala Land, Inc.	2,120,348,829.91
eBloc 2	Ayala Land, Inc.	2,659,373,160.10
eBloc 3	Ayala Land, Inc.	1,384,962,336.23
eBloc 4	Ayala Land, Inc.	1,748,801,500.40

Tech Tower	Ayala Land, Inc.	1,158,602,353.92
Total		11,257,889,535.91

The properties to be infused have been evaluated by AREIT Fund Managers, Inc., and have been appraised by Asian Appraisal Company, Inc. ("Asian Appraisal"). The Properties will be used as the Company's payment for the 252,136,383 primary common shares of AREIT, Inc.

The AREIT Property-for-Share Swap is subject to the approval of AREIT, Inc.'s stockholders at its annual stockholders' meeting on April 21, 2022. The exchange of shares for the Properties will qualify as a tax-free exchange under Section 40(C)(2) of the Tax Code, as amended, which provides:

(2) Exception. - * * *

No gain or loss shall also be recognized on a corporation or on its stock or securities if such corporation is a party to a reorganization and exchanges property in pursuance to a plan of reorganization solely for stock or securities in another corporation that is a party to the reorganization. A reorganization is defined as: XXX

No gain or loss shall also be recognized if property is transferred to a corporation by a person alone or together with others, not exceeding four (4) persons, in exchange for stock or unit of participation in such a corporation of which as a result of such exchange the transferor or transferors, collectively, gains or maintains control of said corporation: Provided, That stocks issued for services shall not be considered as issued in return for property. XXX"

Section 40 (C) (2) of the Tax Code, as amended, has been interpreted by the Supreme Court in the case of Commissioner of Internal Revenue vs. Filinvest Development Corporation (G.R. No. 167689, 9 July 2011), to mean that a tax-free exchange applies when the controlling person gains “further control” or transfers where the exchanger already has control of the corporation at the time of the exchange.

AREIT expects to execute the Deed of Exchange and file the application for approval of the original issuance of shares with the SEC within May 2022, and the issuance of CAR with the relevant Revenue District Office of the Bureau of Internal Revenue (“BIR”) within the fourth quarter of 2022. The SEC’s approval of the Transaction and the BIR’s issuance of a CAR are expected to be issued within the year. AREIT shall likewise apply for the additional listing of shares with the Exchange by the first quarter of 2023. The indicative timetable for implementation of the Transaction is as follows:

Indicative Timetable for Implementation

AREIT Annual Stockholders’ Meeting	April 21, 2022
Deed of Exchange Execution	May 2022
SEC Approval (Issuance of Shares, and Transaction)	Q2 to Q3 2022
Issuance of CAR	Q4 2022
PSE Listing of Additional Shares	Q1 2023

(b) **Compensation of Directors**

Article IV, Section 12 of the By-Laws provides:

“Section 12 – Each director of the Corporation shall be entitled to receive from the Corporation, pursuant to a resolution of the Board of Directors, fees and other compensation for his services as Director. In no case shall the total yearly compensation of directors exceed one percent (1%) of the net income before income tax of the Corporation during the preceding year. *(Old Sections 12 to 15 transferred to Article VI; Old Section 17 renumbered as Section 12, as amended 26 November 2020.)*

The Personnel and Compensation Committee of the Board of Directors shall have the responsibility for recommending to the Board of Directors the fees and other compensation for Directors. In discharging this duty, the committee shall be guided by the objective of ensuring that the level of compensation should fairly pay Directors for work required in a company of the Corporation's size and scope. No Director shall be involved in deciding his own remuneration during his incumbent term. *(As amended 26 November 2020.)*”

i. **Standard Arrangement (Current Compensation)**

During the 2011 annual stockholders' meeting, the stockholders approved a resolution fixing the current remuneration of non-executive directors as follows:

Retainer Fee	₱ 1,000,000.00
Board Meeting Fee per meeting attended	₱ 200,000.00
Committee Meeting Fee per meeting attended	₱ 100,000.00

Directors who hold executive or management positions do not receive directors' fees.

ii. **Other Arrangement**

None of the non-executive directors has been engaged and compensated by the Company for services other than those provided as a director.

The Company has no other arrangement with regard to the remuneration of its non-executive directors aside from the compensation received as herein stated.

In 2021, the non-executive directors and independent directors of the Company received remuneration, inclusive of tax, as follows:

Sherisa P. Nuesa	3,200,000.00
Total	25,300,000.00

(c) **Employment Contracts and Termination of Employment and Change-in-Control Arrangements**

The above-named executive officers are covered by letters of appointment stating their respective job functionalities, among others.

(d) **Warrants and Options Outstanding: Repricing**

Since 1998, the Company has offered its officers options to acquire common shares under its Executive Stock Option Plan (ESOP).

There has been no ESOP shares available since end-December 2015.

Item 7. Independent Public Accountants

(a) The principal accountant and external auditor of the Company is SyCip Gorres Velayo & Co. (SGV & Co.). The same accounting firm is being recommended for re-election at the annual stockholders' meeting.

(b) Representatives of SGV & Co. for the current year and for the most recently completed fiscal year are expected to participate at the annual stockholders' meeting. They will have the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions.

Pursuant to the General Requirements of SRC Rule 68, Par. 3 (Qualifications and Reports of Independent Auditors), the Company has engaged SGV & Co. as external auditor, and Mr. Michael C. Sabado is the Partner-in-Charge for the audit years 2021, 2020 and 2019 while Ms. Lucy L. Chan served as such for the audit years 2017 to 2018.

(c) **Changes in and Disagreements with Accountants on Accounting and Financial Disclosure**

The Company has engaged the services of SGV & Co. during the three (3) most recent fiscal years. There were no disagreements with the SGV & Co. on any matter of accounting and financial disclosure.

(d) **Audit and Audit-Related Fees**

ALI and its subsidiaries paid its external auditor the following fees in the past two (2) years: (in Php million; with VAT)

Year	Audit & Audit-related Fees	Tax Fees	Other Fees

* Pertains to audit fees.

**SGV fees for the validation of stockholders' votes during the annual stockholders' meeting and other assurance fees.

(e) **Tax Fees**

Tax consultancy services are secured from entities other than the external auditor.

Under paragraph 3.3 (a) of the ALI Audit Committee Charter, the Audit Committee (composed of Cesar V. Purisima, Chairman, and Rex Ma. A. Mendoza, and Antonino T. Aquino, members) recommends to the Board the election of the external auditor and the audit fees.

Item 8. **Compensation Plans**

No matters or actions with respect to any compensation plan pursuant to which cash or non-cash compensation may be paid or distributed will be taken up during the meeting

C. ISSUANCE AND EXCHANGE OF SECURITIES

Item 9. **Authorization or Issuance of Securities Other than for Exchange**

No matters or actions concerning authorization or issuance of securities will be taken up during the meeting.

Item 10. **Modification or Exchange of Securities**

Article VII of the Articles of Incorporation provides the following features of the outstanding voting preferred shares ("VPS") of the Company:

"xxx

- c) Convertibility. Shareholders have the option to convert one (1) voting preferred share to one (1) common share commencing on the 10th year after the issuance of the Voting Preferred Shares xxx
- e) Redemption. These shares shall be redeemable at par at the sole option of the Corporation under terms and conditions approved by the Board of Directors. Xxx"

In view of the foregoing, the Board of Directors, at its regular meeting on February 24, 2022, approved the redemption of the 13,066,494,759 outstanding VPS held by stockholders of record as of March 11, 2022 and the guidelines for the conversion of the VPS into common shares. This will be presented as part of the acts of the Board and Management for ratification by the stockholders during the meeting.

The Notice of Redemption and Conversion Guidelines, as summarized below, have been distributed to the stockholders on March 18, 2022.

Redemption of VPS

Stockholders of record may tender in whole or in part from March 24, 2022 to May 24, 2022 (the "Redemption Offer Period"). The Company will pay the corresponding redemption price of ₱0.10 per share and the further sum of ₱0.00474786 per share representing the accrued cash dividends on June 24, 2022 (the "Redemption Date" or "Settlement Date").

From and after the Redemption Date, the number of voting preferred shares tendered during the Offer Period and accepted by the Company through its stock transfer agent, BPI Stock Transfer Office, shall cease to be outstanding and will be retired by the Company. The stockholders thereof shall cease to possess VPS stockholders' rights, except only the right to receive the redemption price and accrued dividends.

Conversion of VPS to Common Share

VPS stockholders have the right to convert one (1) VPS to one (1) common share. The conversion option will be available for exercise only by those remaining stockholders of the outstanding VPS any time commencing on June 29, 2022. Stockholders participating in the redemption offer shall no longer have the conversion option since the shares tendered during the Redemption Offer Period will be retired.

The stockholders should notify in writing the BPI Stock Transfer Office (the "Conversion Agent") of the intention to exercise the conversion option, indicating the number of VPS to be converted into common shares and surrender the original VPS stock certificate for conversion.

After reviewing the relevant documents from the stockholders, the Conversion Agent will accept the conversion request. Such acceptance date shall be the relevant conversion date which will

be the basis for computing the conversion price, which is the higher of (i) the average closing price for 30 trading days immediately preceding the conversion date less the par value of P0.10 per share or (ii) the closing price immediately preceding the conversion date less the par value of P0.10 per share. Any taxes, such as but not limited to documentary stamp tax, and fees relating to the issuance of the common shares shall be for the account of the stockholder exercising the conversion option.

The common shares to be issued from this exercise will be listed with the Philippine Stock Exchange.

Article Seventh of the Articles of Incorporation sets forth the features of the common shares and VPS. The Articles of Incorporation is available at the Company website, https://ir.ayalaland.com.ph/wp-content/uploads/2021/09/ALI-Amended-AOI_8.22.14.pdf.

Item 11. Financial and Other Information

The audited financial statements as of December 31, 2021, Management's Discussion and Analysis, Market Price of Shares and Dividends and other data related to the Company's financial information are attached hereto as Annex "C". The Schedules required under Part IV(c) of Rule 68 will be included in the Annual Report (SEC Form 17-A).

Item 12. Mergers, Consolidations, Acquisitions and Similar Matters

There is no proposed merger, consolidation, acquisition by, sale or liquidation of the Company that will be presented during the meeting.

Item 13. Acquisition or Disposition of Property

There are no matters or actions to be taken up in the annual stockholders' meeting with respect to acquisition or disposition of any property by the Company requiring stockholders' approval under the Revised Corporation Code.

Item 14. Restatement of Accounts

As used herein and in other sections of this Information Statement, unless the context otherwise requires, the Group refers to the Company and its subsidiaries where the Company has a control pursuant to SRC Rule 68, Par. 6 (Consolidated Financial Statements).

The accounting policies adopted are consistent with those of the previous financial year except for the adoption of the new and amended Philippine Financial Reporting Standards (PFRS) and the Philippine Interpretations of International Financial Reporting Interpretation Committee (IFRIC) which became effective beginning January 1, 2021. The Group will also adopt several amended and revised standards and interpretations in 2022 and onwards.

Please refer to Note 2 of the attached Company's audited financial statements on the Summary of Significant Accounting Policies for the accounting of the new PFRS and IFRIC which became effective in 2021 and new PFRS and IFRIC that will be effective in 2022 and onwards.

Adoption of PIC Q&A 2018-12-E

In 2021, the Ayala Land Group adopted the provisions of PFRS 15 covered by PIC Q&A 2018-12-E on the treatment of land in the calculation of POC. The Group applied the modified retrospective approach to recognize the impact of the change with a reduction in the beginning retained earnings by P2,838 million and beginning NCI of P16.3 million, please refer to Note 19 of the audited financial statements.

As disclosed in note 2 to the financial statements, the PIC issued PIC Q&A 2018-12 on February 14, 2018 which provides guidance on some PFRS 15 implementation issues affecting the real estate industry. On October 25, 2018 and February 08, 2019, the Philippine Securities and Exchange Commission (SEC) issued SEC MC No. 14-2018 and SEC MC No. 3-2019, respectively, providing relief to the real estate industry by deferring the application of certain provisions of this PIC Q&A for a period of three years until December 31, 2020. On December 15, 2020, the Philippine SEC issued SEC MC No. 34-2020 which further extended the deferral

of certain provisions of this PIC Q&A until December 31, 2023 which included the exclusion of land in the calculation of the percentage of completion (POC).

While the Group is allowed under the SEC MC No. 34-2020 to avail of a further deferral until December 31, 2023, the Group opted to adopt on January 1, 2021 PIC Q&A 2018-12 specifically the exclusion of land in the POC calculation.

As discussed under Changes in Accounting Policies in Note 2 to the financial statements, the Group adopted the provision of PFRS 15 that covered its treatment of land in the determination of POC as discussed in PIC Q&A 2018-12-E. As allowed under SEC MC No. 34, the Group adopted the change under the modified retrospective approach. The impact was recognized as a reduction in the beginning retained earnings by ₱2,838 million and beginning NCI of ₱16.3 million. Further disclosure is provided in note 19 to the financial statements.

The adoption of PIC Q&A 2018-12-E which excluded the land from the calculation of the POC decreased the POC. As a result, the retained earnings decreased to the extent of the amount of ₱2,838 million. The POC method reports revenues over time during the construction period. And while revenues fluctuate over time during the construction period as a result of the application of the POC, the revenue to which the POC is applied will remain the same until the completion of the projects.

Capitalization of borrowing costs in property and equipment and investment properties

In 2021, the Group started capitalizing borrowing costs to its property and equipment and investment properties under construction. The Group recognized the impact of the change against the beginning retained earnings in 2021 amounting ₱1,993 million. The impact to the comparative accounts and amounts are increase in noncurrent assets and equity, and net income by ₱635 million and ₱354 million in 2020 and 2019, respectively.

IAS 23 requires that borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset form part of the cost of that asset. Previously, the Group did not capitalize borrowing costs and it started capitalizing the borrowing costs to qualifying assets starting January 01, 2021. The impact of the change in accounting policy has been recognized against the opening balance of the retained earnings account. Prior years financial statements have not been retrospectively adjusted as the amounts involved are not material. However, the amounts of the impact to the comparative periods have been disclosed in the notes to the financial statements.

The capitalization of borrowing costs increased the retained earnings to the extent of the amount capitalized (₱ 1,993 million). However, in subsequent periods, the related depreciation on the related capitalized borrowing costs will decrease the retained earnings over the estimated useful lives of the assets.

D. OTHER MATTERS

Item 19. Voting Procedures

- (a) **Vote required:** The affirmative vote of at least a majority of the issued and outstanding capital stock entitled to vote and represented at the annual stockholders' meeting is required for the approval of all matters presented to the stockholders for decision. The election of directors is by plurality of votes.
- (b) **Method of Voting:** Straight and Cumulative Voting

In all items for approval, each voting share of stock entitles its registered owner as of the Record Date to one (1) vote. As explained in Item 20 below, stockholders will only be allowed to vote by appointing the Chairman of the meeting as their proxy or electronically *in absentia*.

In the case of the election of directors, each stockholder may vote such number of shares for as many persons as there are directors to be elected, or he may cumulate the aforesaid shares and give one nominee as many votes as the number of directors to be elected multiplied by the number of his shares, or he may distribute them on the same principle among as many nominees as he shall see fit; provided that, the whole number of votes cast by him shall not exceed the number of shares owned by him multiplied by the total number of directors to be elected.

A stockholder may vote electronically *in absentia* using the online web address, <http://www.ayalagroupshareholders.com/>, subject to validation procedures. A stockholder voting electronically *in absentia* shall be deemed present for purposes of quorum.

Proxies shall be in writing, signed and filed, by the stockholders, in the form provided in this DIS, and shall be received by the Corporate Secretary at corporatesecretary@ayalaland.com.ph on or before April 18, 2022.

All votes will be counted and tabulated by the Inspectors of Proxies and Ballots Committee and the results will be validated by an independent third party.

Item 20. Participation of Shareholders by Remote Communication

To ensure the safety and welfare of our stockholders given the current circumstances the Board of Directors, pursuant to the Company's By-Laws, approved the holding of the Meeting in a fully virtual format. Stockholders may only attend the meeting by remote communication, as

set forth below, and by voting *in absentia*, as provided in Item 4(c) and Item 19 above, or voting through the Chairman of the meeting as proxy.

To enable the Company to identify the shareholders participating by remote communication and record their presence for purposes of quorum, the shareholders shall inform the Company by email to corporatesecretary@ayalaland.com.ph on or before April 18, 2022, of their participation in the meeting by remote communication. Further, stockholders may participate by remote communication by clicking on the Meeting livestreaming access button which will be available on the Stockholder's dashboard in the VIASH System on the date set for the meeting as indicated in the Company's Notice of Meeting.

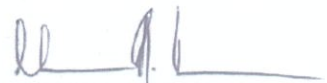

Stockholders may email questions or comments prior to or during the meeting at the following email address: corporatesecretary@ayalaland.com.ph. The detailed instructions for participation through remote communication are set forth in Annex A (II).

Item 21. Acceptance of Stockholder Proposals on Agenda Item

Stockholders of record as of March 14, 2022 owning at least 5% of the total outstanding capital stock of the Company may submit proposals on items for inclusion in the agenda on or before April 20, 2022.¹²

After reasonable inquiry and to the best of my knowledge and belief, I certify that the information set forth in this report is true, complete and correct. This report is signed in the City of Makati on the 1st day of April 2022.

AYALA LAND, INC.

SOLOMON M. HERMOSURA
Corporate Secretary

¹² The inclusion of the proposed agenda item shall be in accordance with SEC Memorandum Circular No. 14, Series of 2020, and the Company's internal guidelines.

Important Notes:

- Stockholders who, as of record date, are also Stockholders of the other publicly listed corporations in the Ayala group only need to register one account in the VIASH System and may "Add another company" in their respective profiles, as applicable. The digital absentee ballot for each corporation shall be separately accessed from the Stockholder's Dashboard in the VIASH System and votes shall be cast per corporation.
 - Considering the prevailing extraordinary circumstances in relation to COVID-19, the Company shall allow electronic signature for the required documents, as applicable. Notarization requirement shall also be dispensed with at this time. However, the Company reserves the right to request additional information, and original signed and notarized copies of these documents at a later time.
 - Incomplete or inconsistent information may result in an unsuccessful registration. As a result, Stockholders will not be allowed access to vote electronically *in absentia*, but may still vote through the Chairman of the Meeting as proxy, by submitting a duly accomplished proxy form, on or before April 18, 2022.
6. The validation process in the VIASH System will be completed by the Company no later than three (3) business days from the date of the Stockholder's complete registration. The Stockholder's Dashboard in the VIASH System will indicate the status of registration.
- Once validated, the Stockholder will receive an e-mail confirmation on their successful registration. Registered Stockholders have until the end of the Meeting to cast their votes *in absentia*.
7. All agenda items indicated in the Notice of the Meeting will be set out in the digital absentee ballot in the VIASH System and the registered Stockholder may vote as follows:
- 7.1. For items other than the Election of Directors, the registered Stockholder has the option to vote: For, Against, or Abstain. The vote is considered cast for all the registered Stockholder's shares.
 - 7.2. For the Election of Directors, the registered Stockholder may either: (1) vote for all nominees, (2) not vote for any of the nominees, or (3) vote for some nominees only, in such number of shares as preferred by the Stockholder, provided that the total number of votes cast shall not exceed the number of shares owned, multiplied by the number of directors to be elected.

Once voting on the agenda items is finished, the registered Stockholder can proceed to submit the accomplished ballot by clicking the 'Submit' button.

The VIASH System will prompt the Stockholder to confirm the submission of the ballot. The votes cast *in absentia* will have equal effect as votes cast by proxy.

After the ballot has been submitted, Stockholders may no longer change their votes except by submitting a duly accomplished proxy form within the set deadline.

8. The Office of the Corporate Secretary will tabulate all votes cast *in absentia* together with the votes cast by proxy, and a firm selected for this purpose will validate the results.

B. PARTICIPATION BY REMOTE COMMUNICATION

1. Stockholders as of March 14, 2022 ("Stockholders") are required to register in the VIASH System to participate in the Meeting on April 27, 2022 by remote communication. A Meeting livestreaming access button will be available in the Stockholder's dashboard in the VIASH System on the Meeting date as indicated in the Company's Notice of the Meeting.
2. The procedure and requirements for registration in the VIASH System are found in the Electronic Voting *in Absentia* section in this Annex. The deadline for registration to participate by remote communication is on April 18, 2022.
3. In addition to registration in the VIASH System, Stockholders are requested to notify the Company by e-mail to corporatesecretary@ayalaland.com.ph by April 18, 2022 of their intention to participate in the Meeting by remote communication.
4. Only the Stockholders who have notified the Company of their intention to participate in the Meeting by remote communication, together with the Stockholders who voted *in absentia* and by proxy, will be included in the determination of quorum at the Meeting.
5. Stockholders participating by remote communication may vote anytime until the end of the Meeting using the digital ballot in the VIASH System.
6. Stockholders may send their questions and/or remarks prior to or during the Meeting by e-mail to corporatesecretary@ayalaland.com.ph.
7. A link to the recorded webcast of the Meeting will be posted on the Company's website after the Meeting. Stockholders shall have two weeks from posting to raise to the Company any issues, clarifications and concerns on the Meeting conducted by e-mail to corporatesecretary@ayalaland.com.ph.

For any clarifications, please contact our Office of the Corporate Secretary through corporatesecretary@ayalaland.com.ph.

³Includes Cash and Cash Equivalents, Short-term Investments, financial assets at FVPL for 2020 and 2019

Ayala Land posted total revenues of P106.14 billion and net income of P12.23 billion, a year-on-year growth of 10% and 40%, respectively, on account of resilient operations, supported by relaxed quarantine restrictions in the 4th quarter of 2021.

Real Estate revenues (composed of Property Development, Commercial Leasing, and Services) totaled P96.15 billion, 12% higher than P85.97 billion in 2020, driven by construction progress and higher bookings that compensated for limited commercial leasing operations most of the year due to quarantine measures.

Capital expenditures amounted to P63.98 billion, supporting the buildup of residential and commercial projects.

The Company closed the year with a net gearing ratio of 0.77:1, an average borrowing cost of 4.4%, and maturity of 5.3 years.

Business Segments

The details of the performance of each business segment are as follows:

Property Development. This segment includes the sale of residential lots and units, office spaces, commercial and industrial lots, and operations of MCT Bhd, Ayala Land's consolidated subsidiary based in Malaysia. Due to construction progress and higher bookings, property development revenues grew 19% to P69.14 billion from P57.86 billion.

Residential. Revenues from the sale of residential lots and units and MCT Bhd's operations totaled P57.05 billion, 19% higher from P47.79 billion last year owing to higher bookings and project completion.

AyalaLand Premier (ALP) recorded revenues of P20.85 billion, 39% higher than P15.01 in 2020, driven by higher project bookings from Ayala Greenfield Estates in Laguna, Cerilo in Nuvali, Laguna, Anvaya Cove in Bataan, and the Enclaves in Cebu. In addition, incremental percentage-of-completion (POC) of Andacillo in Nuvali, The Courtyards in Vermosa, Cavite, West Gallery Place in BGC, and Park Central North and South Towers in Makati City contributed to revenue growth.

ALVEO posted revenues of P13.12 billion, a 63% growth from P8.05 billion, on higher bookings from Hillside Ridge in Cavite and Corvia in Alviara, Pampanga, and incremental POC of Ardia Phase 3 in Vermosa, Cavite, The Greenways in Alviara, Pampanga, and The Residences at Evo City Phase 2 in Cavite.

Avida totaled P13.51 billion in revenues, 6% lower than P14.42 billion due to lower bookings from Avida Towers Sola in Vertis North Quezon City, Vireo in Arca South, Taguig, Riala in Cebu IT Park, Cebu City, Abreeza Tower 2 in Davao City and Avida Towers Prime Taft Tower 2 in Pasay City.

Amaia generated P4.55 billion in revenues, a 3% decrease from P4.69 billion on lower bookings from projects with high POC such as Steps Alabang Delecia in Las Pinas, Series Bulacan S3A, and Series Nova in Quezon City.

BellaVita recognized revenues of P1.15 billion, a 45% jump from P0.79 million on higher bookings and incremental POC from projects in Tayabas Quezon, Porac, Pampanga, and Alaminos, Laguna.

MCT Bhd posted revenues of P3.88 billion, 20% less than P4.85 billion last year, as revenues from projects under its middle-income brand, Market Homes, and new projects, Aetas, Casa Bayu Townhouse and Apartment, and Park Place were lower than the revenues generated by completed and sold-out projects in 2020.

Office for Sale. Revenues from the sale of office units rose 10% to P3.85 billion from P3.51 billion, on higher completion of ALVEO's Stiles and Tryne Enterprise Plazas in Circuit Makati and Arca South, respectively, and ALP's One Vertis Plaza in Vertis North.

Commercial and Industrial Lots. Revenues from the sale of commercial and industrial increased by 26% to P8.24 billion from P6.56 billion on take-up of commercial lots at South Coast City, Nuvali, and Veramosa and industrial lots at Pampanga Technopark.

Sales Reservations. For the full year of 2021, sales reservations amounted to P92.21 billion, 13% higher year-on-year, primarily due to the strong demand for horizontal products in Southern Luzon by ALP and ALVEO. Take-up from our horizontal products alone jumped 36% to P41.49 billion. Sales reservation in the 4th quarter reached P22.14 billion, 5% better than the same quarter last year.

Local and overseas Filipinos accounted for 90% of total sales, with a balance of 10% from other nationalities. Sales from local Filipinos, which comprise 74%, amounted to P69.84 billion, 13% higher, while sales from overseas Filipinos, which represented 16% of the total, amounted to P14.52 billion, a 15% uplift year-on-year. Meanwhile, sales to other nationalities amounted to P9.31 billion, up 3% from last year.

Project Launches. Reflective of confidence in the residential market, Ayala Land launched 22 projects worth P75.26 billion during the year. This figure was more than seven times the launch value in 2020. 48% are horizontal projects, while the rest are vertical projects. Launches in the fourth quarter include ALP's Ciela Heights Phase 1 in Carmona, Cavite; ALVEO's Sentrove Tower 1 in Cloverleaf, Quezon City; and Amaia's Scapes Bulacan S4B in Santa Maria, Bulacan and Steps Two Capitol Tower 1 in Capitol Central, Bacolod City.

Commercial Leasing. This segment includes the operation of Shopping Centers, Office Buildings, and Hotels and Resorts. Total revenues from commercial leasing amounted to P20.63 billion, a 6% decline from a P21.86 billion year ago as given restricted operations for most of the year.

Shopping Centers. Revenues from shopping centers declined 13% to P7.92 billion. With improved mobility in the fourth quarter, revenues reached P3.0 billion, double the level generated in the same quarter in 2020. The average occupancy rate for all malls is 81% and 84% for stable malls. Total Malls GLA stands at 2.12 million square meters.

Offices. Revenues from office leasing grew 5% from last year to P9.87 billion as BPO and HQ office operations remained stable throughout the period. The average occupancy rate for all offices is 81% and 86% for stable offices. Total office leasing GLA increased to 1.32 million square meters with the completion of One Ayala Tower 1 in December 2021.

Hotels and Resorts. Revenues from hotels and resorts ended 17% lower to P2.83 billion from P3.39 billion, an improvement from the first nine months as resort operations were able to host 35 travel bubbles in the fourth quarter, partially cushioning travel restrictions and lower hotel occupancy earlier in the year. The average occupancy for all hotels and stable hotels was 53%. Meanwhile,

the average occupancy for all resorts is 17% and 15% for stable resorts. In close coordination with the Department of Tourism and the Local government, 120 travel bubbles were held during the year at El Nido Resorts and Lio estate. The hotels and resorts segment ended in 2021 with 4,030 rooms in its portfolio.

The hotels and resorts business manages 660 hotel rooms in its international brand segment—312 from Fairmont Hotel and Raffles Residences and 348 from Holiday Inn & Suites, both in the Ayala Center, Makati CBD.

There are 11 Seda Hotels, operating 2,712 rooms—Atria, Iloilo (152 rooms); BGC, Taguig (521); Centrio, Cagayan de Oro (150); Abreeza, Davao (186); Nuvali, Santa Rosa, Laguna (150); Vertis North, Quezon City (438); Capitol Central, Bacolod (154); Lio, Palawan (153); Ayala Center Cebu (301); Seda Residences Ayala North Exchange (293) and Seda Central Bloc (214); and Circuit Corporate Residences (255).

El Nido Resorts operates 193 rooms from its four island resorts—Pangulasian, Lagen, Miniloc, and Apulit. The Lio Tourism Estate currently has 132 rooms under its Bed and Breakfast (B&B) and Dormitel offerings, while the Sicogon Tourism Estate in Iloilo currently has 78 B&B rooms.

Services. This segment is composed mainly of the construction business through Makati Development Corporation (MDC), property management, through Ayala Property Management Corporation (APMC), and businesses engaged in power services such as Direct Power Services, Inc. (DPSI), Ecozone Power Management, Inc. (EPMI), and Philippine Integrated Energy Solutions, Inc. (PhilEnergy) and AirSWIFT, the airline for the hotels and resorts in Palawan and Sicogon. Total revenues amounted to P6.38 billion, 2% higher mainly due to MDC's completion progress of projects with unconsolidated JVs and external clients.

Construction. Net construction revenues rose 19% to P3.91 billion from P3.28 billion last year as construction activities continued despite the lockdowns.

Property Management and Others. APMC, power services companies, and AirSWIFT registered revenues of P2.47 billion, a 17% decline from P2.97 billion due to lower power consumption of customers and limited AirSWIFT operations.

Equity in Net Earnings of Investees, Interest, Fees, Investment and Other Income

Equity in net earnings of associates and JV companies rose 44% to P842.56 million from P586.50 million on higher contributions from Ortigas Land's projects The Galleon and Empress, and ALVEO-Federal joint ventures Aveia and Venido.

Interest income from real estate sales declined 21% to P6.80 billion from P8.60 billion due to lower accretion income recognized. Meanwhile, interest and investment income declined by 36% to P253.11 million from P394.70 million on lower interest income, yield, and average daily balance on cash and short-term investments.

Other income, composed mainly of marketing and management fees from joint ventures, among others, nearly tripled to P2.10 billion from P0.72 billion, recording a P1.37 billion gain from the sale of Ayala Land's 39.2% economic interest in Qualimed and its hospital buildings last February

Expenses

Total expenses registered at P85.86 billion, 6% higher than last year, driven by real estate expenses which increased by 14% to P64.64 billion as operations continued to ramp up this year.

Due to reduced corporate operations and cost-saving initiatives, general and administrative expenses declined 18% to P6.54 billion from P8.01 billion. It resulted in a GAE ratio of 6.2% and an EBIT margin of 28.2%.

Interest, other financing charges, and other expenses (including interest expense related to PFRS 16 (Leases)) totaled P14.68 billion, 11% less than P16.54 billion last year due to the lower average

borrowing rate and debt balance. The average cost of debt registered at 4.4%, 30 basis points lower than 4.7% at the end of December 2020. Of the total, 91% is locked in fixed rates, while 92% is contracted long-term.

Capital Expenditures

Capital expenditures reached P63.98 billion for the entire year of 2021, mainly to support the buildout of our residential and commercial leasing assets. 52% was spent on residential projects, 17% for land acquisition, 15% for commercial leasing, and 14% for estate development.

Financial Condition

The Company's balance sheet stands strong with a net gearing ratio of 0.77:1.

Cash and cash equivalents, including short-term and UITF investments classified as FVPL, stood at P15.00 billion, resulting in a current ratio of 1.58:1.

The total borrowings registered at P223.10 billion. Debt-to-equity ratio is at 0.82:1, and net debt-to-equity ratio is at 0.77:1.

Return on equity was at 5.37% as of December 31, 2021.

The Group has various contingent liabilities arising in the ordinary conduct of business including a case related to property restriction violation. The estimate of the probable cost for the resolution of the claim has been developed in consultation with outside counsel handling the defense in this matter and is based upon an analysis of potential results. In the opinion of management and its legal counsel the eventual liability under these lawsuits or claims, if any, will not have a material or adverse effect on the Group's financial position and results of operations. Accordingly, no provision for any liability has been made in the consolidated financial statements. Further, the company has no off-balance sheet transactions, arrangements or obligations for the full-year 2021.

There are no known trends, events, uncertainties or seasonalities that are expected to affect the Company's continuing operations apart from the impact of the ongoing COVID-19 pandemic. ³Includes Cash and Cash Equivalents, Short-term Investments, financial assets at FVPL for 2020 and 2019

Ayala Land endured the severe impact of COVID-19 in 2020 recording a 43% decline in consolidated revenues to P96.27 billion from P168.79 billion and a 74% drop in net income to P8.73 billion from P33.19 billion. Key indicators improved steadily from the third quarter to the fourth quarter reflecting a 49% growth in total revenues to P32.95 billion and a 28% jump in net income to P2.36 billion, sustaining the momentum for recovery.

Real Estate revenues, composed of Property Development, Commercial Leasing, and Services registered at P85.97 billion, a 46% decline from P157.85 billion due to construction restrictions, lower bookings, and restrained mall and hotel operations.

Capital expenditures amounted to P63.67 billion, within the revised full-year budget of P69.82 billion and financial sustainability initiatives strengthened the balance sheet with the net gearing ratio improving to 0.74:1 from 0.78:1 in FY 2019.

Business Segments

The details of the individual performance of each business segment are discussed as follows:

Property Development. This includes the sale of residential lots and units, office spaces, and commercial and industrial lots, and operations of MCT Bhd, Ayala Land's consolidated subsidiary based in Malaysia. The Property Development business generated revenues of P57.86 billion, a 47% dip from P109.69 billion due to construction restrictions and lower bookings.

Residential. Revenues from the sale of residential lots and units and MCT Bhd's operations declined 44% to P47.79 billion from P86.09 billion, however, in the fourth quarter, this amounted to P21.6 billion, a 54% improvement from the third quarter.

AyalaLand Premier (ALP) posted revenues of P15.01 billion, 39% lower than P24.45 billion, due to the lower percentage-of-completion (POC) of West Gallery Place in BGC, Park Central South Tower and Garden Tower 2 in Makati CBD and Arbor Lanes in Arca South and lower bookings from Park Central North Tower in Makati CBD and combined lower bookings and POC of The Alcoves in Cebu and Cerilo in Nuvali.

ALVEO recorded revenues of P8.05 billion, a decline of 58% from P19.00 billion owing to lower POC of High Park 2 in Vertis North and Park Triangle Residences in BGC, lower bookings from Orian Place 1 & 2 in Vertis North, The Residences at Evo City 1, Venido in Biñan Laguna, and combined lower bookings and POC of Travertine in Portico.

Avida meanwhile registered revenues of P14.42 billion, a 47% decrease from P27.36 billion, attributed to lower bookings from The Montane in BGC, Avida Towers Asten 3 in Makati, Avida Towers Sola 1 and 2 in Vertis North, Avida Northdale Settings in Nuvali, Avida Towers Vireo 1 in Arca South and Avida Towers Prime Taft 3 in Manila.

Amaia reached P4.69 billion in revenues, a 36% reduction from P7.37 billion relating to lower bookings from Skies Cubao Tower 2, Skies Shaw Tower 1, Skies Sta. Mesa and Skies Avenida Tower 1. **BellaVita** meanwhile recognized revenues of P790.65 million, 34% less than P1.20 billion because of lower bookings from projects in Cagayan de Oro, Batangas and Laguna.

MCT Bhd contributed P4.85 billion in revenues, a 28% decline from P6.71 billion as the inventory of projects in Lakefront and Cybersouth are almost sold-out and construction activities in the 2nd quarter and 4th quarters were limited under Malaysia's movement control order (MCO). These factors offset the contribution from projects under Market Homes, its affordable housing segment.

Office for Sale. Revenues from the sale of office units came down by 72% to P3.51 billion from P12.34 billion, owing to limited inventory and lower incremental completion of remaining projects such as ALVEO Financial Tower in Makati CBD, Park Triangle Corporate Plaza, Park Triangle Tower and High Street South Corporate Plaza 2, all in BGC.

Commercial and Industrial Lots. Revenues from the sale of commercial and industrial decelerated by 42% to P6.56 billion from P11.27 billion mainly due to slower take-up of inventory in Broadfield and limited inventory in Altaraza, Evo City and Nuvali.

Sales Reservations. Despite limited sales mobility, sales reservations registered at P81.90 billion, 56% of the level in 2019. This translates to an average of P6.8 billion in monthly sales. Fourth quarter sales reservations reached 55-75% of pre-COVID levels due to sustained property demand, totaling P21.08 billion, equivalent to an average of P7.0 billion in monthly sales.

Local and overseas Filipinos accounted for 89% of total sales with the balance of 11% from other nationalities. Sales from local Filipinos which comprise 74%, amounted to P60.4 billion, 42% lower year-on-year, while sales from overseas Filipinos which represented 15% of the total, amounted to P12.6 billion, a decline of 35% year-on-year. Meanwhile, sales to other nationalities amounted to P8.9 billion, a 60% drop, primarily as sales to mainland Chinese buyers which comprise 28% decreased by 70% to only P2.5 billion.

Project Launches. A total of 13 projects totaling P10.59 billion were launched in 2020. In the first quarter, Ayala Land was able to launch five (5) projects with a total value of P4.99 billion. These are

Avida Greendale Settings at Alviera in Pampanga, Amaia Steps Aria at The Junction Place in Quezon City, Amaia Scapes Cabuyao Series 3 area 2, and Bellavita Alaminos 2, both in Laguna. No new residential projects were launched in the second quarter of 2020. However, with improving demand in the third quarter, three (3) sequel projects were launched amounting to P2.19 billion. These are Andacillo Phase 3A in Nuvali, Laguna, Amaia Scapes Series 4A in Sta. Maria, Bulacan and Bellavita Alaminos 2. Meanwhile, five (5) sequel projects amounting to P3.41 billion were launched in the fourth quarter. These are Andacillo Phase 4 in Nuvali, Laguna, Amaia Scapes Gen. Trias S3 and S4 in Cavite, and two tranches of additional units in Bellavita Alaminos 2 in Laguna.

Commercial Leasing. This includes the operation of Shopping Centers, Office Buildings and Hotels and Resorts. Total revenues from commercial leasing declined 44% to P21.86 billion from P39.31 billion given restrained mall and hotel operations.

Shopping Centers. Revenues from shopping centers dropped 59% to P9.06 billion from P22.02 billion. Operating GLA and foot traffic as a percentage of pre-COVID levels improved towards the end of 2020. In the fourth quarter, operating GLA reached 64% from 62% in the third quarter. Likewise, foot traffic reached 35-45% in the fourth quarter from 30-35% in the third quarter as the less strict general community quarantine restriction was maintained, boosted by the holiday season. These improvements resulted in P1.69 billion in mall revenues in the fourth quarter, a 10% recovery from the third quarter of 2020. Average tenant sales also improved quarter on quarter reaching 53% in the fourth quarter from 41% in the third quarter. The average occupancy rate for all malls is 85% and 90% for stable malls. Total Malls GLA stands at 2.12 million square meters.

Offices. Revenues from office leasing was sustained at P9.41 billion from P9.67 billion on account of continuing BPO and HQ office operations. The average occupancy rate for all offices is 88% and 94% for stable offices. Total office leasing GLA increased to 1.23 million square meters with the completion of BGC Corporate Center 2 and Central Bloc Corporate Center 2 in October and December, respectively.

Hotels and Resorts. Revenues from hotels and resorts ended 56% lower to P3.39 billion from P7.62 billion. The average occupancy for all hotels was 41% and 44% for stable hotels. Meanwhile, the average occupancy for all and stable resorts stood at 16%. In the fourth quarter, El Nido Resorts and the Lio Estate were able to host more travel bubbles to the public, in close coordination with the Department of Tourism and the Local government. From only four (4) in the third quarter, a total of 37 travel bubbles were launched in the fourth quarter, driving a 52% increase in revenues to P787 million from the third quarter. The hotels and resorts segment ended 2020 with a total of 4,030 rooms in its portfolio with the completion of 345 rooms in the first half as it opened Seda Central Bloc in Cebu and additional rooms in Seda Residences Ayala North Exchange and Seda BGC.

The hotels and resorts business manages 660 hotel rooms in its international brand segment—312 from Fairmont Hotel and Raffles Residences and 348 from Holiday Inn & Suites, both of which are in the Ayala Center, Makati CBD.

There are 11 Seda Hotels, operating 2,712 rooms—Atria, Iloilo (152 rooms); BGC, Taguig (521); Centrio, Cagayan de Oro (150); Abreeza, Davao (186); Nuvali, Santa Rosa, Laguna (150); Vertis North, Quezon City (438); Capitol Central, Bacolod (154); Lio, Palawan (153); Ayala Center Cebu (301); Seda Residences Ayala North Exchange (293) and Seda Central Bloc (214); and Circuit Corporate Residences (255).

El Nido Resorts operates 193 rooms from its four island resorts—Pangulasian, Lagen, Miniloc, and Apulit. The Lio Tourism Estate currently has 132 rooms under its Bed and Breakfast (B&B) and Dormitel offerings, while the Sicogon Tourism Estate in Iloilo currently has 78 B&B rooms.

Services. This is composed mainly of the construction business through Makati Development Corporation (MDC), property management, through Ayala Property Management Corporation (APMC), and businesses engaged in power services such as Direct Power Services, Inc. (DPSI), Ecozone Power Management, Inc. (EPMI), and Philippine Integrated Energy Solutions, Inc. (PhilEnergy) and AirSWIFT, the airline for the hotels and resorts in Palawan and Sicogon. Total revenues amounted to P6.25 billion, 29% lower than P8.85 billion due to the restricted construction activity of MDC, lower power consumption of power subsidiary customers during the lock down, and very limited operations of AirSWIFT.

Construction. Net construction revenues totaled P3.28 billion, only 3% lower than P3.40 billion last year.

Property Management and Others. APMC, power services companies and AirSWIFT registered revenues of P2.97 billion, 46% less than P5.45 billion.

Blended EBITDA margins of the Services segment stood at 7%, lower than 10% in 2019 owing to COVID-19 related expenses.

Equity in Net Earnings of Investees, Interest, Fees, Investment and Other Income

Equity in net earnings of associates and JV companies, particularly Ortigas and FBDC companies, declined 39% to P586.50 million from P965.79 million.

Interest income from real estate sales increased 9% to P8.60 billion from P7.89 billion in 2019 driven by increased sale of real estate receivables. Meanwhile, Interest and investment income registered a 58% drop to P394.70 million from P930.45 million owing to lower balances and yields from short term investments.

Other income, composed mainly of marketing and management fees from joint ventures, among others, decreased 38% to P723.27 million from P1,157.94 million. This decline was largely due to the higher base in 2019 given the gain recognized from the sale of Vertex One office building in Santa Cruz Manila to Manila Jockey Club, Inc.

Expenses

Total expenses stood at P81.22 billion, 31% lower than P117.96 billion as real estate expenses decreased by 40% to P56.67 billion from P94.75 billion.

General and administrative expenses declined 14% to P8.01 billion from P9.37 billion on account of a lower topline. This resulted in a GAE ratio of 8.3% and an EBIT margin of 25.9%.

Interest, other financing charges and other expenses, which includes interest expense related to PFRS 16 (Leases) totaled P16.53 billion. This was a 19% increase from P13.84 billion due the higher discounting cost related to the sale of accounts receivables, interest expense from the higher average loan balance and bank charges related to loan prepayments. The average cost of debt registered at 4.7%, 50 basis points lower than 5.2% at the end of December 2019. Of the total, 95% is locked in fixed rates, while 96% is contracted for a long-term basis.

Capital Expenditures

Capital expenditures reached P63.67 billion for the full-year of 2020. These were mainly spent for the completion of residential and commercial leasing assets. 45% was spent on residential projects, 23% on commercial projects, 15% for land acquisition and 14% for the development of estates. The full year capex estimate was reduced to P70.0 billion from the original estimate of P110.0 billion.

Financial Condition

Financial sustainability initiatives strengthened the balance sheet with the net gearing ratio improving to 0.74:1 from 0.78:1 in FY 2019. Total borrowings registered at P211.95 billion which translated to a debt-to-equity ratio of 0.81:1 from 0.87:1.

Cash and cash equivalents, including short-term investments and financial assets at fair value through profit or loss stood at P18.36 billion resulting in a current ratio of 1.62:1.

Return on equity was at 4.03% as of December 31, 2020.

Income Statement items – For the year ended December 31, 2020 and 2019

Real estate and hotel revenues decreased by 46% due to construction restrictions, lower bookings, and restrained mall and hotel operations.

Equity in net earnings decreased by 39% mainly due to lower income contributions from Ortigas Land Corporation (OLC) and Fort Bonifacio Development Corp. (FBDC).

Interest income from real estate sales increased by 9% owing to higher sale of real estate receivables.

Interest and investment income decreased by 58% driven by lower balance and lower yield from short-term investments.

Other Income decreased by 38% due to higher gain recognized in 2019 from sale of Vertex One building in Santa Cruz Manila.

Cost of real estate sales decreased by 40% due to lower real estate and hotel revenues.

General administrative expenses decreased by 14% mainly from manpower costs including security and janitorial, rent and dues and fees, transportation and travel, and other overhead expenses.

Interest, other financing charges and other expenses increased by 19% due to higher discounting cost related to sale of trade receivables, interest expense from higher average loan balance, and bank charges related to loan repayments.

Provision for income tax decreased by 70% due to lower taxable income.

Balance Sheet items - As at December 2020 versus 2019

Cash and cash equivalents - decreased by 17% mainly due to lower collection from customers, payments of capital expenditures, interest expense from borrowings, and cash dividends, partially offset by proceeds from initial public offering of AREIT, Inc, sale of trade receivables, and loan availments.

Short-term investments decreased by 42% due to reallocation to investments with higher yield.

Financial asset at fair value through profit and loss increased by 99% attributable to increase in investments in UITF and treasury bills.

Real Estate Inventories increased by 22% as a driven by land acquisitions, incremental POC, reclassification from investment property, partially offset by lower real estate sales.

Other current assets increased by 19% mainly due to payment of advances to contractors and suppliers, payment of CWT, and building classified as held for sale.

Investments in associates and joint ventures increased by 5% owing to the increase in investments in joint ventures, and equity in net earnings for the period net of dividend received.

Investment properties decreased by 8% due to reclassification of land to inventory, and depreciation expense for the period.

Deferred tax assets increased by 5% coming from accrued expenses, allowances for probable losses, and NOLCO.

Other noncurrent assets decreased by 9% mainly from recoupment of advances to contractors and suppliers, partially offset by increase in deferred input VAT.

Short-term debt decreased by 49% due to various payments during the year.

Account and other payables decreased by 11% due to payments of accounts payable and accrued operating expenses, lower taxes payables and interest payable, and other accrued expenses.

Income tax payable decreased by 31% due to lower taxable income.

Current portion of lease liabilities decreased by 36% due to payments to lessors.

Current portion of long-term debt increased by 9% attributable to maturing bonds and bank loans within 12 months.

Long-term debt – net of current portion increased by 5% due to increase in bonds issuance and bank loans.

Pension liabilities increased by 52% mainly due to increase in benefit obligation and remeasurement loss for the current period.

Deferred tax liabilities higher by 17% mainly due to timing difference between tax and book basis of accounting for real estate transactions and right-of-use assets.

Deposit and other noncurrent liabilities increased by 14% mainly coming from unrealized revenues from collected receivables and security deposits from tenants, partially offset by payment for contractors payable, purchased land and collected output VAT.

Stock options outstanding decreased by 49% attributable to the exercise of stock options.

Remeasurement loss on defined benefit plans increased by 143% due to actuarial loss from change in pension liability assumptions.

Fair value reserve of financial assets at FVOCI increased by 64% attributable to unrealized fair value loss from cash flow hedging of loans bearing interest at floating rate.

Cumulative translation adjustments decreased by 33% mainly due to translation loss on financial statements of MCT Bhd.

Equity reserves increased by 108% attributable to gain on sale ownership in AREIT, Inc. to Non-controlling Interest (NCI).

Treasury Stock increased by 14% as a result of share buy-backs during the year.

Non-controlling interests increased by 19% as a result of public listing of AREIT, Inc.

³Includes Cash and Cash Equivalents, Short-term Investments, financial assets at FVPL for 2019 and 2018

In 2019, net income after tax (attributable to equity holders) of Ayala Land, Inc. (ALI or "the company") grew by 13% to PHP33.19 billion from PHP29.24 billion in 2018.

Total revenues (which includes real estate sales, interest income from real estate sales, equity in net earnings, and interest and investment income, and other income) increased by 2% to PHP168.79 billion from PHP166.25 billion the previous year, mainly driven by real estate revenues which grew by 1% to PHP157.85 billion from PHP155.95 billion in 2018. Revenues were also supported by office and commercial and industrial lot sales and higher contribution of new leasing assets.

The company introduced three new estates and successfully launched PHP158.96-billion worth of projects, surpassing its initial estimate of PHP130 billion. Its leasing portfolio continued to expand to 2.1 million and 1.2 million sq. meters of gross leasing area for malls and offices, respectively, and to 3,705 rooms for hotels and resorts.

Capital expenditure reached PHP108.72 billion to support the buildup of residential and leasing projects.

Business Segments

The details of the individual performance of each business segment are discussed as follows:

Property Development. This segment includes the sale of residential lots and units, office spaces, and commercial and industrial lots, and the operations of the Malaysia-based consolidated subsidiary MCT Bhd.

Property development revenues amounted to PHP109.69 billion, a 3% dip from 2018's PHP113.36 billion.

Residential. Revenues from the sale of residential lots and units and MCT Bhd's operations were lower by 9% at PHP86.09 billion from PHP94.63 billion in 2018. The decline was due to the lower contribution of AyalaLand Premier (13% drop from PHP28.00 billion in 2018 to PHP24.45 billion in 2019) and ALVEO (28% decrease from 26.28 billion in 2018 to PHP19.00 billion last year). Most of their vertical projects recognized in 2019 were booked in previous periods and are now nearing completion.

Contributions from new **AyalaLand Premier** (ALP) projects and higher completion progress of Park Central South Tower in Makati City, One Vertis Plaza in Vertis North, Quezon City and West Gallery Place in Bonifacio Global City (BGC) were offset by lower incremental percentage of completion (POC) from East Gallery Place and The Suites in BGC and Garden Towers in Makati City as they near completion.

ALVEO's revenues were primarily affected by lower incremental POC of Verve Residences 1 and 2 in BGC and Ardia Phase 3 in Veramosa, Cavite.

On the other hand, **Avida's** revenues grew by 13% to PHP27.36 billion in 2019 from previous year's PHP24.22 billion, with completion progress of Avida Towers Sola 2 in Vertis North, Quezon City and new bookings and incremental POC of Avida Verra Settings Veramosa Phase 1 in Veramosa, Cavite and Avida Towers Vireo Tower 1 in Arca South, Taguig City.

Amaia's revenues remained flat, at PHP7.37 billion from previous year's PHP7.36 billion with lower bookings and higher incremental POC of Amaia Steps Alabang Delicia in Muntinlupa City; Amaia Steps Capitol Central South in Bacolod City, Negros Occidental; and Amaia Steps Nuvali Parkway in Sta. Rosa, Laguna. Meanwhile,

BellaVita's revenues rose by 4% to PHP1.20 billion from PHP1.15 billion in 2018, due to bookings from projects in Alaminos and Pila, both in Laguna, and in Iloilo.

The average GP (gross profit) of vertical projects improved to 39% from 34% due to ALP's Park Central South Tower, Garden Towers 2, and East Gallery Place; ALVEO's Olean Place Tower 1, Celadon, and Travertine; and Avida Towers Sola Tower 2. The average GP of horizontal projects slightly rose to 45% from 44%.

MCT Bhd recognized revenues of PHP6.71 billion in 2019, 12% lower than previous year's PHP7.60 billion, due to the sellout of projects in CyberSouth in Klang Valley, Malaysia.

Office for Sale. Revenues from the sale of office spaces grew by 12% to PHP12.34 billion from PHP11.0 billion in 2018 due to completion progress and new bookings from ALVEO High Street South Corporate Plaza, Park Triangle Corporate Plaza, and ALVEO Financial Tower. Improved margins of ALVEO High Street South Corporate Plaza, ALVEO Park Triangle Towers, and ALVEO Financial Tower significantly improved the average GP of offices for sale to 43%.

Commercial and Industrial Lots. Revenues from the sale of commercial and industrial lots increased by 46% to PHP11.27 billion from PHP7.73 billion, due to lot sales from Altaraza, Vermosa, Nuvali, and Broadfield. GP margins of commercial and industrial lots substantially increased to 62% from 50%, due to higher margins of commercial lots sold in Nuvali, Arca South, Altaraza, and Broadfield.

Total sales reservations grew by 3% to PHP145.9 billion from PHP141.9 billion in 2018. ALVEO and Avida fueled the growth, even as ALP tempered the same with few launches during the period.

Sales reservations by Philippines-based Filipinos also grew by 3% and accounted for 71% (valued at PHP104.2 billion) of all reservations, while those by Filipinos based abroad grew by 24%, accounting for 13% (valued at PHP19.4 billion) of the total.

Sales to other nationals, accounting for 16%, dipped by 10% to PHP22.2 billion from previous year's PHP24.8 billion. Participation of mainland Chinese buyers, who dominate sales to non-Filipinos, declined by 22% to PHP8.3 billion from PHP10.7 billion in 2018, resulting in a drop in their share in sales to other nationals to 38% from previous year's 49%.

ALI launched PHP158.96-billion worth of property development projects in 2019, surpassing the initial estimate of PHP130 billion.

Commercial Leasing. Total revenues from commercial leasing, consisting of the operations of shopping centers, office buildings, and hotels and resorts, increased by 13% to PHP39.31 billion from P34.91 billion in 2018, driven by the higher contribution of new leasing assets.

Shopping Centers. Revenues from shopping centers grew by 11% to PHP22.02 billion from PHP19.91 billion, supported by same-mall revenue growth of 8%, with increased contribution of new malls such as Ayala Malls Feliz, Capitol Central, and Circuit Makati. EBITDA (earnings before interest, taxes, depreciation, and amortization) margin was sustained at 66%. The average occupancy rate of all malls was 88%, with the occupancy rate of stable malls at 93%. The GLA of all malls now stands at 2.12 million sq. meters with the addition of 213,000 sq. meters from the opening of Ayala North Exchange Retail, Ayala Malls Manila Bay, and Ayala Malls Central Bloc Cebu.

Offices. Revenues from office leasing increased by 12% to PHP9.67 billion from previous year's PHP8.61 billion, with the new offices in Ayala North Exchange, Vertis North, and Circuit Makati improving the segment's performance. It registered a slightly lower EBITDA margin of 90% from 91% in 2018. The average occupancy rate of all offices was 96%, with the occupancy rate of stable offices at 97%. Total office leasing GLA is now 1.17 million sq. meters, with 70,000 sq. meters added by the completion of Ayala North Exchange BPO, Manila Bay BPO Tower, and Central Bloc Corporate Center Tower 1 in Cebu.

Hotels and Resorts. Revenues from this segment grew by 19% to PHP7.62 billion from PHP6.39 billion in 2018 on strong patronage of Seda Ayala Center Cebu and Seda Lio. Higher occupancy and revenues per available room (REVPAR) at these two hotels were also

responsible for increasing the overall EBITDA margin of hotels and resorts by 32% from previous year's 29%.

The average occupancy rate remains at healthy levels—70% for all hotels, 63% for all resorts, 78% for stable hotels, and 63% for stable resorts. The addition of 129 rooms—57 from SEDA BGC and 72 from SEDA Residences Ayala North Exchange—brings the total to 3,705 rooms.

The hotels and resorts business manages 660 hotel rooms in its international brand segment—312 from Fairmont Hotel and Raffles Residences and 348 from Holiday Inn & Suites, both of which are in the Ayala Center, Makati CBD.

There are now have 11 Seda Hotels, operating 2,367 rooms—Atria, Iloilo (152 rooms); BGC, Taguig (468); Centrio, Cagayan de Oro (150); Abreeza, Davao (186); Nuvali, Santa Rosa, Laguna (150); Vertis North, Quezon City (438); Capitol Central, Bacolod (154); Lio, Palawan (153); Ayala Center Cebu (301); Seda Residences Ayala North Exchange (215); and Circuit Corporate Residences (255). El Nido Resorts operates 193 rooms from its four island resorts—Pangulasian, Lagen, Miniloc, and Apulit. The Lio Tourism Estate currently has 152 rooms under its Bed and Breakfast (B&B) and Dormitel offerings, while the Sicogon Tourism Estate in Iloilo currently has 78 B&B rooms.

Services. This segment consists of ALL's construction business through Makati Development Corporation (MDC); property management through Ayala Property Management Corporation (APMC); and other companies engaged in power services (Direct Power Services, Inc.; Ecozone Power Management, Inc.; and Philippine Integrated Energy Solutions, Inc.) and airline services for the hotels and resorts business (AirSWIFT). Total revenues from the services business amounted to PHP8.85 billion, 15% higher than previous year's PHP7.69 billion.

Net construction revenues reached PHP3.40 billion, 42% higher than previous year's PHP2.39 billion, gained from higher revenues from external contracts.

APMC and the power services companies posted revenues of P5.45 billion, 3% higher than previous year's PHP5.30 billion.

Blended EBITDA margins of the services business stayed relatively flat to 10% from 9% in 2018.

Equity in Net Earnings of Investees, Interest, Fees, Investment and Other Income

Equity in net earnings of associates and joint ventures totaled PHP965.79 million, 29% higher than the PHP749.92 million posted in 2018. FBDC companies more than doubled their revenues due to commercial lot sales and to leasing assets in BGC (One Bonifacio High Street and ALVEO High Street South Corporate Plaza Retail). Meanwhile, Ortigas Holdings grew its revenues from property sales and leasing by 29%.

Interest and investment income, consisting of interest income on real estate sales and accretion, amounted to P8.82 billion, 10% higher than previous year's PHP8.00 billion, despite lower interest income from short-term investments.

Other income, mostly from marketing and management fees from joint ventures, amounted to PHP1.16 billion, 25% lower than previous year's PHP1.54 billion which included the one-time sale transaction of assets by MCT Bhd.

Expenses

Total expenses were lower by 3% at PHP117.96 billion from previous year's PHP121.04 billion, as real estate expenses decreased by 6% to PHP94.75 billion from PHP101.08 billion in 2018.

General and administrative expenses (GAE) reached PHP9.37 billion, 3% higher than 2018's PHP9.10 billion as overhead costs rose in line with inflation. This resulted in a GAE ratio of 5.5% and improved EBIT margin of 34.25% from 30.37% the previous year.

Interest, other financing charges and other expenses rose by 27% increase to PHP13.84 billion from PHP10.86 billion the previous year billion as a result of higher interest expense on a higher average daily loan balance.

Project and Capital Expenditure

ALI's capital expenditure amounted to PHP108.72 billion in 2019, mainly in support of the buildup of residential and leasing projects. Forty percent (40%) of the amount was spent on residential projects, 26% on commercial leasing, 17% on land acquisition, 14% on estate development, and 5% on other investments.

Financial Condition

As in previous years, the company's balance sheet is solidly positioned to support its growth plans.

Cash and cash equivalents, including short-term investments and financial assets at fair value through profit or loss, stood at PHP21.52 billion resulting in a current ratio of 1.30:1.

Total borrowings registered at PHP211.10 billion, translating to a debt-to-equity ratio of 0.87:1 and a net debt-to-equity ratio of 0.78:1.

Return on equity was at 16.66% as of December 31, 2019.

Income Statement items – December 2019 versus December 2018

Interest income from real estate sales and interest & investment income higher by 10% due to higher yield from residential business.

Equity in net earnings of associates and joint ventures grew by 29% mainly coming from increased performance of FBDC companies, OHI's property sales, malls and offices, partially offset by negative equity pick-up of Rize Ayala (RWIL).

Other Income lower by 25% due to recognition of Gain on sale of MCT Bhd's subsidiaries (One City Properties SDN BHD and Ecity Hotel SDN BHD) P237M and P265M respectively in 2018, partially offset by Gain on sale of Vertex One Bldg. amounted to P177M.

Interest and other financing charges and other charges grew by 27% mainly due to increase in interest expense due higher ADB and this year's recognition of Interest expense-PFRS 16.

Provision for income tax increased by 11% due to higher taxable income mainly coming from real estate.

Balance Sheet items – December 2019 versus December 2018

Cash and cash equivalents decreased by 15% due to capital expenditures from Residential, Leasing and Land acquisitions.

Short-term investments went down by 80% due to capital expenditures from Residential, Leasing and Land acquisitions.

Real estate Inventories increased by 15% mainly from new launches from residential projects.

Other current assets higher by 10% mostly due to presentation of Advances to Contractors from Accounts and Notes Receivable to Other current assets, and also due to the increase in CWT and Input VAT mainly from residential projects.

Non-current Accounts and Notes Receivable increased by 17% primarily due to higher bookings of AR.

Investments in associates and jointly controlled entities grew by 8% attributable to additional investments to AKL and ALI Eton.

Investment properties up by 8% due to completion of investment properties from leasing and resorts.

Property and equipment improved by 20% mainly coming from the increase in Hotel PPE and MCT Bhd.

Other noncurrent assets higher by 22% mainly due increase in bookings of leasehold rights and deposits.

Short-term debt grew by 25% due to increase in borrowing to support property development, mall operations and land acquisitions.

Account and other payables decreased by 5% due to capital expenditures from Residential, Leasing and Land acquisitions.

Current portion of long-term debt lower by 26% due to settlement of matured long-term loans.

Deposit and other current liabilities increased by 11% primarily due to the increase in deposits and reservation fees from various residential projects and offices group's one year advance rental income from tenants.

Long-term debt up by 18% mainly from availment of new long-term loans.

Deposit and other noncurrent liabilities lower by 14% primarily driven by leasing group's decrease in security deposits, reservations and advance rental deposits.

Risks

Ayala Land is subject to significant competition in each of its principal businesses of property development, commercial leasing and services. In property development, Ayala Land competes with other developers to attract condominium and house and lot buyers. In commercial leasing, it competes for shopping center and office space tenants, as well as customers of the retail outlets, restaurants, and hotels and resorts across the country.

However, Ayala Land believes that, at present, there is no single property company that has a significant presence in all sectors of the property market.

High-End, Middle-Income, Affordable Residential, and Economic and Socialized Housing Developments

With respect to high-end and middle-income land and condominium sales, Ayala Land competes for buyers primarily on the basis of reputation, reliability, price, quality, and the location of the community in which the relevant site is located. For the affordable, economic and socialized housing markets, Ayala Land competes for buyers based on quality of projects, affordability of units and availability of financing. Ayala Land is also actively tapping the overseas Filipino market. In addition, it has seen demand from foreign buyers both residing in the country and abroad.

Shopping Center, Office Space and Land Rental

For its shopping centers, Ayala Land competes for tenants primarily based on the ability of the shopping center to attract customers. This is typically hinged on the location and the tenant-mix of the retail center, the reputation of the retail center owner, as well as rental and other charges. The market for shopping centers has become competitive and with the growing number of pipeline and new shopping center openings across the country. Some competing shopping centers are located within relatively close proximity of Ayala Land's commercial centers.

With respect to its office rental properties, Ayala Land competes for tenants primarily based on the quality and location of the relevant building, reputation of the building's owner, quality of support services provided by the property manager, and rental and other charges. The Company is addressing the continuing demand from BPOs and corporate by providing fully integrated and well-maintained developments (high rise or campus facility) in key locations in the country.

Hotel and Resort Operations

The local hotel and resort sector is largely driven by foreign and local travel for leisure or business purposes. Any slowdown in tourism and business activity due to global financial and local political turmoil and security concerns could potentially limit growth of the Company's hotels and resorts.

Construction

Ayala Land's construction business, Makati Development Corporation (MDC), is benefiting from the improved performance of the construction industry, particularly from an uptick in development activities mostly from the residential and retail sector. With booming construction across the country, Ayala Land must manage the risk of providing enough skilled workers to deploy to its various projects. Any slowdown in the construction business could potentially cap growth of the Company's construction arm.

Property Management

Ayala Land directly manages its properties as well as other third-party properties through Ayala Property Management Corporation (APMC). Its employees directly interface with customers and must ensure that Ayala Land's brand, quality and reputation are upheld in the regular upkeep of managed properties. Employees must continuously be trained to be able to provide high-quality service in order to preserve Ayala Land's brand equity.

Other risks that the company may be exposed to are the following:

- Changes in Philippine and international interest rates
- Changes in the value of the Peso versus other currencies
- Changes in construction material and labor costs, power rates and other costs
- Changes in laws and regulations that apply to the Philippine real estate industry
- Changes in the country's political and economic conditions
- Changes in the country's liquidity and credit exposures

To mitigate the above-mentioned risks, Ayala Land shall continue to adopt appropriate risk management tools as well as conservative financial and operational controls and policies to manage the various business risks it faces.

AREIT Reinvestment Plan

Pursuant to the REIT Law, the Company is required to submit a Reinvestment Plan with the SEC with a firm undertaking to reinvest (a) any proceeds realized by the Company from the sale of its shares in AREIT, Inc. or issued in exchange for income-generating real estate transferred to AREIT, and (b) any money raised by the Company from the sale of its income-generating real estate to the REIT, in any real estate, including any redevelopment thereof, and/or infrastructure projects in the Philippines. The reinvestment shall be made within one (1) year from date of receipts of proceeds or money by the Company.

Since AREIT's initial public offering, ALI has raised a total of P18.77 billion from the secondary offering of its shares in AREIT during the initial public offering, sale of assets Teleperformance Cebu and The 30th Commercial Development, and the sale of ALI's 44million shares in AREIT last May 2021. As of 31 January 2022, ALI has already reinvested 92%, equivalent to P17.36 billion, of the proceeds in various real estate investments in the Philippines. The balance of P1.4 billion remain to be reinvested until May 4, 2022. To date, ALI has been compliant with the requirement to reinvest the proceeds within one year from date of receipt.

Dividend policy

Dividends declared by the Company on its shares of stocks are payable in cash or in additional shares of stock. The payment of dividends in the future will depend upon the earnings, cash flow and financial condition of the Company and other factors.

Special cash dividends are declared depending on the availability of cash, taking into account the Company's CAPEX and project requirements and the progress of its ongoing asset rationalization program.

Cash dividends are subject to approval by the Company's Board but no stockholder approval is required. Property dividends which may come in the form of additional shares of stock are subject to approval by both the Company's Board of Directors and the Company's stockholders. In addition, the payment of stock dividends is likewise subject to the approval of the SEC and PSE.

D) Recent Sale of Securities

For the past three years, common shares were issued representing the subscription to the common shares under the Executive Stock Ownership Plan (ESOWN) as follows:

<u>Year</u>	<u>ESOWN</u> (subscribed)
2019	10.5 million
2020	14.8 million
2021	11.4 million

The aforesaid issuance of shares was covered by the Commission's approval of the Company's Stock Option Plan on July 1991 and subsequently on March 2006 and September 2017 for a total of 500,000,000 shares. This confirms the issuance of shares under the Company's stock option plan as exempt transaction pursuant to Section 10.2 of the Securities Regulation Code.

E) Corporate Governance

- i. The evaluation system which was established to measure or determine the level of compliance of the Board and top-level management with its Revised Manual of Corporate Governance consists of a Customer Satisfaction Survey which is filled up by the various functional groups indicating the compliance rating of certain institutional units and their activities. The evaluation process also includes a Board Performance Assessment which is accomplished by the Board indicating the compliance ratings. The above are submitted to the Compliance Officer who issues the Integrated Annual Corporate Governance Report to the Securities and Exchange Commission.
- ii. To ensure good governance, the Board establishes the vision, strategic objectives, key policies, and procedures for the management of the Company, as well as the mechanism for monitoring and evaluating Management's performance. The Board also ensures the presence and adequacy of internal control mechanisms for good governance.
- iii. There were no deviations from the Company's Revised Manual of Corporate Governance. The Company has adopted in the Manual of Corporate Governance the leading practices and principles of good corporate governance, and full compliance therewith has been made since the adoption of the Revised Manual.
- iv. The Company is taking further steps to enhance adherence to principles and practices of good corporate governance.

ANNEX “D”

NATURE AND SCOPE OF BUSINESS

Ayala Land is the largest property developer in the Philippines engaged in the planning and development of large scale, integrated estates having a mix of use for the sale of residential lots and buildings, office buildings and commercial and industrial lots, leasing of commercial and office spaces and the development, operation and management of hotels and resorts. The Company also develops commercial and industrial parks and is also engaged in property management, construction and other businesses like retail and healthcare.

To carry on its business in an organized and efficient manner, Ayala Land structured its operations into key strategic business lines such as Property Development, Commercial Leasing, Hotels and Resorts and Services.

Property Development

Property Development includes Strategic Land Bank Management, Visayas-Mindanao Group, Residential Business Group and MCT Bhd, Ayala Land's listed subsidiary in Malaysia.

Strategic Land Bank Management handles the acquisition, development and sale of large scale, mixed-use, master-planned communities, the sale of Ayala Land's share in properties made available to subsidiaries for development and the lease of gas station sites and carparks outside Ayala Center in Makati City. Visayas-Mindanao Group handles the development, sale and lease of the Company and its subsidiaries' product offerings in key cities in the Visayas and Mindanao regions.

The Residential Business Group handles the sale of high-end residential lots and units (including leisure community developments), office spaces, commercial and industrial lots, middle-income residential lots and units, affordable lot units and house and lot packages, economic housing units and house and lot packages, and socialized housing packages, and the lease of residential units and marketing of residential developments. The products developed and sold are further classified into the following brands: AyalaLand Premier (“ALP”) for high-end village lots, condominium and office units, Alveo Land Corp. (“Alveo”) for upscale village lots, condominium and office units, Avida Land Corp. (“Avida”) for middle-income village lots, house and lot packages and condominium and office units, Amaia Land Corp. (“Amaia”) for economic house and lot packages, and BellaVita Land Corp. (“BellaVita”) for the socialized house and lot packages.

MCT Bhd. is Ayala Land's listed subsidiary in Malaysia which specializes in the affordable housing segment. MCT has a land bank of 286 acres spread across the areas of Subang Jaya, Cyberjaya and Petaling Jaya.

Commercial Leasing

Commercial Leasing includes the development and lease of Shopping Center and Office spaces and Hotels and Resorts operations. Shopping Centers include the development of shopping centers and lease to third parties of retail space and land, the operation of movie theaters, food courts, entertainment facilities and carparks in these shopping centers and the management and operations of malls which are co-owned with partners.

Office Leasing includes the development and lease of office buildings.

Hotels and Resorts include the development, operation and management of branded and owner-operated hotels, operation and management of eco-resorts.

Services

Services include Construction, Property Management and Air Transport.

Construction of Ayala Land and third-party projects and land development is done through Makati Development Corporation (“MDC”).

Property Management which involves facilities management of Ayala Land and third-party projects, operation of water and sewage treatment facilities in some Ayala Land projects, distribution of district

cooling systems and the bulk purchase and supply of electricity for energy solutions are done through Ayala Property Management Corporation ("APMC").

Airline service to Ayala Land's tourism estates in Lio, Palawan and Sicogon Island resort is provided by "AirSWIFT" through its fleet of four modern turbo-prop aircrafts.

Distribution Methods of Products

The Company's residential products are distributed to a wide range of clients through various sales groups.

Ayala Land has its own in-house sales team for ALP projects. In addition, it has a wholly-owned subsidiary, Ayala Land Sales, Inc. ("ALSI"), which employs commission-based sales people. Ayala Land uses a sales force of about 15,000 brokers and sales agents guided by a strict Code of Ethics. Separate sales groups have also been formed for Alveo, Avida, Amaia and BellaVita. Ayala Land and its subsidiaries also tap external brokers to complement these sales groups.

Marketing to the Overseas Filipino ("OF") market is handled by Ayala Land International Sales, Inc. ("ALISI"). Created in March 2005, ALISI leads the marketing, sales and channel development activities and marketing initiatives of the brands abroad through project websites, permanent sales offices or broker networks, and regular roadshows with strong follow-through marketing support in key cities abroad. ALISI has marketing offices in North America (Milpitas and San Francisco), Hong Kong, Singapore, Dubai, Rome, and London. ALISI likewise assumed operations of AyalaLand Int'l. Marketing in Italy and London, in 2014.

In addition, the Ayala Group also developed "One Ayala," a program which bundles the products and services of Ayala Land, BPI, and Globe Telecom, Inc. and gives access to potential Ayala Land clients overseas through BPI's 17 overseas offices and 81 tie-ups. An Ayala Land-BPI Dream Deals program was also created to generate additional sales from the local market.

Since 2008, all residential sales support transactions are undertaken by the shared services company Amicassa Process Solutions, Inc. ("APSI") while all transactional accounting processes across the Ayala Land Group are handled by Aprisa Business Solutions, Inc. ("APRISA") since 2010.

**STATEMENT OF MANAGEMENT'S RESPONSIBILITY
FOR FINANCIAL STATEMENTS**

The management of Ayala Land, Inc. (the Company) is responsible for the preparation and fair presentation of the consolidated financial statements including the schedules attached therein for the years ended December 31, 2021, 2020 and 2019, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's financial reporting process.

The Board of Directors reviews and approves the consolidated financial statements including the schedules attached therein, and submits the same to the stockholders.

SyCip Gorres Velayo & Co., the independent auditor appointed by the stockholders, has audited the consolidated financial statements of the Company and its subsidiaries in accordance with Philippine Standards on Auditing, and in its report to the stockholders, has expressed its opinion on the fairness of presentation upon completion of such audit.

INDEPENDENT AUDITOR'S REPORT

The Stockholders and the Board of Directors
Ayala Land, Inc.
31st Floor, Tower One and Exchange Plaza, Ayala Triangle
Ayala Avenue, Makati City

Opinion

We have audited the accompanying consolidated financial statements of Ayala Land, Inc. and its subsidiaries (the Group), which comprise the consolidated statements of financial position as at December 31, 2021 and 2020, and the consolidated statements of income, consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2021, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the Group as of December 31, 2021 and 2020 and for each of the three years in the period ended December 31, 2021 are prepared in all material respects, in accordance with the Philippine Financial Reporting Standards (PFRSs), as modified by the application of the financial reporting reliefs issued and approved by the Securities and Exchange Commission, as described in Note 2 to the consolidated financial statements.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 2 to the consolidated financial statements which indicates that the consolidated financial statements have been prepared in accordance with PFRSs, as modified by the application of the financial reporting reliefs issued and approved by the Securities and Exchange Commission in response to the COVID-19 pandemic. The impact of the application of the financial reporting reliefs on the 2021 consolidated financial statements are discussed in detail in Note 2. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Real Estate Revenue Recognition

The Group's revenue recognition process, policies and procedures are significant to our audit because these involve the application of significant judgment and estimation on the following: (1) assessment of the probability that the entity will collect the consideration from the buyer; (2) application of the output method as the measure of progress in determining real estate revenue; (3) determination of the actual costs incurred as cost of sales; and (4) recognition of cost to obtain a contract.

In evaluating whether collectability of the amount of consideration is probable, the Group considers the significance of the buyer's initial payments (buyer's equity) in relation to the total contract price. Collectability is also assessed by considering factors such as past history with buyers, age of residential and office development receivables and pricing of the property. Management regularly evaluates the historical sales cancellations and back-outs, after considering the impact of coronavirus pandemic, if it would still support its current threshold of buyers' equity before commencing revenue recognition.

In measuring the progress of its performance obligation over time, the Group uses the output method. This method measures progress based on physical proportion of work done on the real estate project which requires technical determination by the Group's specialists (project engineers). This is based on the monthly project accomplishment report prepared by the third party surveyor as approved by the construction manager which integrates the surveys of performance to date of the construction activities for both sub-contracted and those that are fulfilled by the Group itself.

In determining the actual costs incurred to be recognized as cost of sales, the Group estimates costs incurred on materials, labor and overhead which have not yet been billed by the contractor.

The Group identifies sales commission after contract inception as the cost of obtaining the contract. For contracts which qualified for revenue recognition, the Group capitalizes the total sales commission due to sales agent as cost to obtain contract and recognizes the related commission payable. The Group uses percentage of completion (POC) method in amortizing sales commission consistent with the Group's revenue recognition policy.

In 2021, the Group adopted the provisions of PFRS 15 covered by Philippine Interpretations Committee (PIC) Q&A 2018-12-E on the treatment of land in the calculation of POC. The Group applied the modified retrospective approach decreasing the beginning retained earnings and non-controlling interests by ₱2.84 billion and ₱16 million, respectively.

The disclosures related to real estate revenue are included in Notes 2 and 3 to the consolidated financial statements.

Audit Response

We obtained an understanding of the Group's real estate revenue recognition process, policies and procedures.

For the buyers' equity, we evaluated management's basis of the buyer's equity by comparing this to the historical analysis of sales cancellations from buyers with accumulated payments above the collection threshold. We also considered the impact of the coronavirus pandemic to the level of cancellations during the year. We traced the analysis to supporting documents such as deed of cancellations.

For the application of the output method, in determining real estate revenue, we obtained an understanding of the Group's processes for determining the POC, and performed tests of the relevant controls. We obtained the certified POC reports prepared by the project engineers and assessed their competence and objectivity by reference to their qualifications, experience and reporting responsibilities. For selected projects, we conducted ocular inspections, made relevant inquiries, including inquiries on how the coronavirus pandemic affected the POC during the period and obtained the supporting details of POC reports showing the completion of the major activities of project construction.

For the cost of real estate sales, we obtained an understanding of the Group's cost accumulation process and performed tests of the relevant controls. For selected projects, we traced costs accumulated, including those incurred but not yet billed, to supporting documents such as invoices and accomplishment reports from the contractors and official receipts.

For the recognition of cost to obtain a contract, we obtained an understanding of the sales commission process. For selected contracts, we agreed the basis for calculating the sales commission capitalized and the portion recognized in profit or loss, particularly the following: (a) the percentage of commission due against contracts with sales agents, (b) the total commissionable amount (i.e., net contract price) against the related contract to sell, and, (c) the POC against the POC used in recognizing the related revenue from real estate sales.

On the adoption of PIC Q&A 2018-12-E, we obtained and reviewed the computation and supporting documents consisting primarily of the reserves memo, contracts, billings and incurred costs. We recomputed the impact of the change in POC.

Impairment Testing of Property and Equipment and Right-of-Use Assets of Hotels and Resorts Segment

In view of the continuing community quarantines and restricted travel, the Group's hotels and resorts segment continues to be adversely affected by the lower number of guests and reduced room rates, both of which have significantly impacted the revenues reported for this segment. Also, many restaurants remain closed or allowed limited operations which impacted the food and beverage revenues of the segment. These events and conditions are impairment indicators requiring the assessment of the recoverable amount of the property and equipment and right-of-use assets, which involves significant judgment, estimation and assumptions about occupancy rates, average room rates, gross margin, as well as external inputs such as discount rates. In addition, because of the coronavirus pandemic, there is the heightened level of uncertainty on the future economic outlook and market forecast. Accordingly, such impairment assessment and testing is a key audit matter in our audit.

The disclosures in relation to property and equipment and right-of-use assets are included in Note 3 to the consolidated financial statements.

Audit Response

We involved our internal specialist in evaluating the methodologies and the assumptions used in estimating the recoverable amount. These assumptions include occupancy rates, average room rates, gross margin as well as external inputs such as discount rate. We compared the key assumptions used such as occupancy rates, average room rates and gross margin against industry forecasts and with historical information, adjusted to take into consideration the impact associated with the coronavirus pandemic. We tested the discount rate by comparing against market data. We also reviewed the Group's disclosures about these assumptions to which the outcome of the impairment test is most sensitive; specifically, those that have the most significant effect on the determination of the recoverable amount of property and equipment and right-of-use assets.

Consolidation Process

The consolidated financial statements of the Group represents the consolidation of the financial statements of Ayala Land, Inc. and its various direct and indirect subsidiaries. We consider the Group's consolidation process as a key audit matter because of the complexity arising from the numerous component entities within the Group requiring layers of consolidation, voluminous intercompany transactions within the Group that require elimination, monitoring of fair value adjustments arising from business combinations, and adjustments to non-controlling interests. Note 1 to the consolidated financial statements provides the relevant information on the Group's subsidiaries.

Audit Response

We obtained an understanding of the Group's consolidation process and the Group's process for identifying related parties and related party transactions and the reconciliation of intercompany balances. We tested significant consolidation adjustments, including elimination, deferral and realization of profit or recoveries from intercompany transactions and balances, amortization/depreciation/reversal of fair value adjustments arising from business combinations, the currency translation adjustments, movements in non-controlling interests and other equity adjustments. We evaluated whether the accounting policies of the Group has been consistently applied.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2021, but does not include the consolidated financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2021 are expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRSs, as modified by the application of financial reporting relief issued and approved by the SEC as described in Note 2 to the consolidated financial statements, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in accordance with PFRSs, as modified by the application of financial reporting relief issued and approved by the SEC as described in Note 2 to the consolidated financial statements.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Michael C. Sabado.

Ayala Land, Inc. (the Parent Company or ALI) is domiciled and was incorporated on June 30, 1988 in the Republic of the Philippines with corporate life of fifty years. The Parent Company's parent is Ayala Corporation (AC). AC is a publicly listed company which is 47.87%-owned by Mermac, Inc. and the rest by the public as of December 31, 2021. The Parent Company's registered office and principal place of business is 31st Floor, Tower One and Exchange Plaza, Ayala Triangle, Ayala Avenue, Makati City.

The Parent Company and its Subsidiaries (the Group) are incorporated to hold, develop, manage, administer, sell, convey, encumber, purchase, acquire, rent or otherwise deal in and dispose of, for itself or for others, residential including, but not limited to, all kinds of housing projects, commercial, industrial, urban or other kinds of real property; to acquire, purchase, hold, manage, develop and sell subdivision lots, with or without buildings or improvements; to erect, construct, alter, manage, operate, lease, in whole or in part, buildings and tenements of the Group or of other persons; and to engage or act as real estate broker. The Group is also involved in hotels and resorts operations.

The consolidated financial statements of Ayala Land, Inc. and Subsidiaries as of December 31, 2021 and 2020, and for each of the three years in the period ended December 31, 2021 were endorsed for approval by the Audit Committee on February 18, 2022 and were approved and authorized for issue by the Board of Directors (BOD) on February 24, 2022.

The consolidated financial statements represent the consolidation of the financial statements of the Parent Company and the following domestic and foreign subsidiaries:

*represents the Group's percentage and effective ownership

The above companies are domiciled in the Philippines except for the foreign entities which are domiciled and incorporated in the country as mentioned above.

AC owns the other 50.0% of AHI. The Parent Company exercises control over AHI. Likewise, the Parent Company, through its 50.0% effective ownership and by virtue of a management contract or shareholders' agreement, exercises control over the operations and management of ACC, BGWest, BGNorth, BGSouth, RLC, ALI-CII and LAIP. Accordingly, the accounts of AHI, ACC, BGWest, BGNorth, BGSouth, RLC, ALI-CII and LAIP are consolidated to the accounts of the Parent Company (see Note 3).

The following were the changes in the group structure during 2021:

On March 16, 2021, AREIT's Board of Directors approved the increase of its authorized capital stock from ₱11,740 million to ₱29,500 million and the subscription of ALI and its subsidiaries to 483,254,375 primary common shares of AREIT in exchange for identified commercial properties valued at ₱15,464 million.

On October 8, 2021, Ayala Land, Inc. and AREIT, Inc. received the approval from the SEC of the property-for-share swap, specifically the subscription of ALI and its subsidiaries namely, Westview Commercial Ventures Corp. and Glensworth Development, Inc. (collectively referred to as Subsidiaries) to 483,254,375 shares of AREIT in exchange for identified properties owned by ALI and the Subsidiaries, under the Deed of Exchange dated June 8, 2021. This resulted in ALI's interest in AREIT from 54% to 66%.

Ayalaland-Tagle Properties, Inc. was incorporated with the SEC on August 27, 2021. The Company is 55% owned by ALI, 35% owned by Griffinstone, Inc. and 10% owned by CTM Management Corp. The primary purpose of the Company is to deal and engage in land or real estate business in all its branches and ramifications.

On December 16, 2021, the SEC approved the merger of CHI, AiO, ASCVC and CBDI with and into ALI, with ALI as the surviving entity (the "Merger"). ALI shall be the surviving entity in the Merger and shall possess all the rights, privileges and immunities of CHI, AiO, ASCVC and CBDI (the "Absorbed Corporations"), and all properties and liabilities, and all and every other interest of or belonging to the Absorbed Corporations shall be taken and deemed transferred to ALI without further act or deed.

As a result of the above merger, ALL's direct ownership on the seven companies also increased namely Southportal Properties, Inc. (from 85% to 100%), Cebu Leisure Company, Inc. (from 71% to 100%), CBP Theatre Management Inc. (from 71% to 100%), Taft Punta Engaño Property Inc. (from 39% to 55%), Cebu Insular Hotel Company, Inc. (from 26% to 37%), Solinea, Inc (from 25% to 35%), Amaia Southern Properties, Inc. (from 25% to 35%).

2. Summary of Significant Accounting Policies

Basis of Preparation

The consolidated financial statements of the Group have been prepared using the historical cost basis, except for financial assets at fair value through profit or loss (FVPL) and financial assets at fair value through other comprehensive income (FVOCI) that have been measured at fair value. The consolidated financial statements are presented in Philippine Peso (₱), which is also the Parent Company's functional currency and all values are rounded to the nearest thousand (₱000), except when otherwise indicated.

The consolidated financial statements provide comparative information in respect of the previous period. While there are recent signs of increased market activity with the easing of quarantine measures in key areas in the Philippines, management believes that the impact of COVID-19 situation remains fluid and evolving and the pace of recovery remains uncertain.

Statement of Compliance

The consolidated financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards (PFRSs), as modified by the application of the financial reporting relief on the accounting for significant financing components as issued and approved by the SEC in response to the COVID-19 pandemic.

The Group has availed of the relief granted by the SEC under Memorandum Circular (MC) No. 34-2020 which further extended the deferral of PIC Q&A 2018-12-D (assessment if the transaction price includes a significant financing component) until December 31, 2023.

SEC MC No. 4-2020 deferring the adoption of IFRIC Agenda Decision on Over Time Transfers of Constructed Goods under PAS 23, *Borrowing Cost* (the IFRIC Agenda Decision on Borrowing Cost) and is not applicable to the Group as it is already in full compliance with the requirements of the IFRIC Agenda Decision.

The details and the impact of the adoption of the above financial reporting reliefs are discussed in the Adoption of New and Amended Accounting Standards and Interpretations section of Note 2.

PFRSs include Philippine Financial Reporting Standards, Philippine Accounting Standards and Interpretations issued by the Philippine Interpretations Committee (PIC).

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Group as of December 31, 2021 and 2020 and for each of the three years in the period ended December 31, 2021.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect that return through its power over the investee.

Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee),
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included or excluded in the consolidated financial statements from the date the Group gains control or until the date the Group ceases to control the subsidiary.

The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company, using consistent accounting policies. All intra-group balances, transactions, unrealized gains and losses resulting from intra-group transactions and dividends are eliminated in full.

Non-controlling interests pertain to the equity in a subsidiary not attributable, directly or indirectly to the Parent Company. Any equity instruments issued by a subsidiary that are not owned by the Parent Company are non-controlling interests including preferred shares and options under share-based transactions. The portion of profit or loss and net assets in subsidiaries not wholly-owned are presented separately in the consolidated statement of income, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of financial position, separately from the Parent Company's equity. Non-controlling interests are net of any outstanding subscription receivable.

A change in the ownership interest of a subsidiary, without loss of control, is accounted for as an equity transaction and recognized as equity reserves in the consolidated statement of changes in equity. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary, the carrying amount of any non-controlling interest and the cumulative translation differences recorded in equity.
- Recognizes the fair value of the consideration received, the fair value of any investment retained and any surplus or deficit in profit or loss.
- Reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss or retained earnings, as appropriate.

Changes in Accounting Policies

- Adoption of PIC Q&A 2018-12-E

In 2021, the Group adopted the provision of PFRS 15 covered by PIC Q&A 2018-12-E on the treatment of land in the calculation of POC. The Group applied the modified retrospective approach to recognize the impact of the change with a reduction in the beginning retained earnings by ₱2,838 million and beginning NCI of ₱16.3 million (see Note 19).

- Capitalization of borrowing costs in property and equipment and investment properties

In 2021, the Group started capitalizing borrowing costs to its property and equipment and investment properties under construction. The Group recognized the impact of the change against the beginning retained earnings in 2021 amounting to ₱1,993 million. The impact to the comparative accounts and amounts are increase in noncurrent assets and equity, and net income by ₱635 million and ₱354 million in 2020 and 2019, respectively.

The changes above did not have any significant impact on the consolidated statement of cash flows of the Group.

Adoption of New and Amended Accounting Standards and Interpretations

The accounting policies adopted in the preparation of the Group's consolidated financial statements are consistent with those of the previous financial year except for the adoption of the following new accounting pronouncements which became effective January 1, 2021. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards did not have an impact on the consolidated financial statements of the Group.

- **Amendment to PFRS 16, *COVID-19-related Rent Concessions beyond 30 June 2021***

The amendment provides relief to lessees from applying the PFRS 16 requirement on lease modifications to rent concessions arising as a direct consequence of the COVID-19 pandemic. A lessee may elect not to assess whether a rent concession from a lessor is a lease modification if it meets all of the following criteria:

- The rent concession is a direct consequence of COVID-19;
- The change in lease payments results in a revised lease consideration that is substantially the same as, or less than, the lease consideration immediately preceding the change;
- Any reduction in lease payments affects only payments originally due on or before June 30, 2022; and
- There is no substantive change to other terms and conditions of the lease.

A lessee that applies this practical expedient will account for any change in lease payments resulting from the COVID-19 related rent concession in the same way it would account for a change that is not a lease modification, i.e., as a variable lease payment.

The amendment is effective for annual reporting periods beginning on or after April 1, 2021. Early adoption is permitted.

This amendment is not applicable to the Group as there are no rent concessions granted to the Group as a lessee.

- **Amendments to PFRS 9, PAS 39, PFRS 7, PFRS 4 and PFRS 16, *Interest Rate Benchmark Reform – Phase 2***

The amendments provide the following temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR):

- Practical expedient for changes in the basis for determining the contractual cash flows as a result of IBOR reform
- Relief from discontinuing hedging relationships
- Relief from the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component

The Group shall also disclose information about:

- The nature and extent of risks to which the entity is exposed arising from financial instruments subject to IBOR reform, and how the entity manages those risks; and
- Their progress in completing the transition to alternative benchmark rates, and how the entity is managing that transition

The Group adopted the amendments beginning January 1, 2021.

- Adoption of PIC Q&A 2018-14, *Accounting for Cancellation of Real Estate Sales* (as amended by PIC Q&A 2020-05)

On June 27, 2018, PIC Q&A 2018-14 was issued providing guidance on accounting for cancellation of real estate sales. Under SEC MC No. 3-2019, the adoption of PIC Q&A No. 2018-14 was deferred until December 31, 2020. After the deferral period, real estate companies will adopt PIC Q&A No. 2018-14 and any subsequent amendments thereto retrospectively or as the SEC will later prescribe.

On November 11, 2020, PIC Q&A 2020-05 was issued which supersedes PIC Q&A 2018-14. This PIC Q&A adds a new approach where the cancellation is accounted for as a modification of the contract (i.e., from non-cancellable to being cancellable). Under this approach, revenues and related costs previously recognized shall be reversed in the period of cancellation and the inventory shall be reinstated at cost. PIC Q&A 2020-05 will have to be applied prospectively from approval date of the Financial Reporting Standards Council which was November 11, 2020.

The adoption of this PIC Q&A did not impact the consolidated financial statements of the Group since it has previously adopted approach 3 in its accounting for sales cancellation which records the repossessed inventory at cost.

Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Group does not expect that the future adoption of the said pronouncements will have a significant impact on its consolidated financial statements. The Group intends to adopt the following pronouncements when they become effective.

Effective beginning on or after January 1, 2022

- Amendments to PFRS 3, *Reference to the Conceptual Framework*
The amendments are intended to replace a reference to the Framework for the Preparation and Presentation of Financial Statements, issued in 1989, with a reference to the Conceptual Framework for Financial Reporting issued in March 2018 without significantly changing its requirements. The amendments added an exception to the recognition principle of PFRS 3, *Business Combinations* to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of PAS 37, *Provisions, Contingent Liabilities and Contingent Assets* or Philippine-IFRIC 21, *Levies*, if incurred separately.

At the same time, the amendments add a new paragraph to PFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022 and apply prospectively.

- Amendments to PAS 16, *Plant and Equipment: Proceeds before Intended Use*
The amendments prohibit entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment.

The amendments are not expected to have a material impact on the Group.

- Amendments to PAS 37, *Onerous Contracts – Costs of Fulfilling a Contract*

The amendments specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making. The amendments apply a “directly related cost approach”. The costs that relate directly to a contract to provide goods or services include both incremental costs and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022. The Group will apply these amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments.

- *Annual Improvements to PFRSs 2018-2020 Cycle*

- Amendments to PFRS 1, *First-time Adoption of Philippines Financial Reporting Standards, Subsidiary as a first-time adopter*

The amendment permits a subsidiary that elects to apply paragraph D16(a) of PFRS 1 to measure cumulative translation differences using the amounts reported by the parent, based on the parent’s date of transition to PFRS. This amendment is also applied to an associate or joint venture that elects to apply paragraph D16(a) of PFRS 1.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted. The amendments are not expected to have a material impact on the Group.

- Amendments to PFRS 9, *Financial Instruments, Fees in the ‘10 per cent’ test for derecognition of financial liabilities*

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other’s behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted. The Group will apply the amendments to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendments are not expected to have a material impact on the Group.

- Amendments to PAS 41, *Agriculture, Taxation in fair value measurements*

The amendment removes the requirement in paragraph 22 of PAS 41 that entities exclude cash flows for taxation when measuring the fair value of assets within the scope of PAS 41.

An entity applies the amendment prospectively to fair value measurements on or after the beginning of the first annual reporting period beginning on or after January 1, 2022 with earlier adoption permitted. The amendments are not expected to have a material impact on the Group.

Effective beginning on or after January 1, 2023

- Amendments to PAS 12, *Deferred Tax related to Assets and Liabilities arising from a Single Transaction*

The amendments narrow the scope of the initial recognition exception under PAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences.

The amendments also clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognized in the financial statements (and interest expense) or to the related asset component (and interest expense).

An entity applies the amendments to transactions that occur on or after the beginning of the earliest comparative period presented for annual reporting periods on or after January 1, 2023.

- Amendments to PAS 8, *Definition of Accounting Estimates*

The amendments introduce a new definition of accounting estimates and clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, the amendments clarify that the effects on an accounting estimate of a change in an input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors.

An entity applies the amendments to changes in accounting policies and changes in accounting estimates that occur on or after January 1, 2023 with earlier adoption permitted. The amendments are not expected to have a material impact on the Group.

- Amendments to PAS 1 and PFRS Practice Statement 2, *Disclosure of Accounting Policies*

The amendments provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by:

- Replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies, and
- Adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures

The amendments to the Practice Statement provide non-mandatory guidance. Meanwhile, the amendments to PAS 1 are effective for annual periods beginning on or after January 1, 2023. Early application is permitted as long as this fact is disclosed. The amendments are not expected to have a material impact on the Group.

Effective beginning on or after January 1, 2024

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*
The amendments clarify paragraphs 69 to 76 of PAS 1, *Presentation of Financial Statements*, to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:
 - o What is meant by a right to defer settlement
 - o That a right to defer must exist at the end of the reporting period
 - o That classification is unaffected by the likelihood that an entity will exercise its deferral right
 - o That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and must be applied retrospectively. However, in November 2021, the International Accounting Standards Board (IASB) tentatively decided to defer the effective date to no earlier than January 1, 2024. The Group is currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation.

Effective beginning on or after January 1, 2025

- **PFRS 17, *Insurance Contracts***

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

On December 15, 2021, the FRSC amended the mandatory effective date of PFRS 17 from January 1, 2023 to January 1, 2025. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two (2) years after its effective date as decided by the IASB.

PFRS 17 is effective for reporting periods beginning on or after January 1, 2023, with comparative figures required. Early application is permitted.

The new standard is not applicable to the Group since none of the entities within the Group have activities that are predominantly connected with insurance or issue insurance contracts.

Deferred Effectivity

- **Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture***

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the International Accounting Standards Board (IASB) completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

The Group is currently assessing the impact of adopting these amendments.

- Deferral of Certain Provisions of PIC Q&A 2018-12, PFRS 15 Implementation Issues Affecting the Real Estate Industry (as amended by PIC Q&As 2020-02 and 2020-04)

On February 14, 2018, the PIC issued PIC Q&A 2018-12 which provides guidance on some PFRS 15 implementation issues affecting the real estate industry. On October 25, 2018 and February 08, 2019, the Philippine Securities and Exchange Commission (SEC) issued SEC MC No. 14-2018 and SEC MC No. 3-2019, respectively, providing relief to the real estate industry by deferring the application of certain provisions of this PIC Q&A for a period of three years until December 31, 2020. On December 15, 2020, the Philippine SEC issued SEC MC No. 34-2020 which further extended the deferral of certain provisions of this PIC Q&A until December 31, 2023. The PIC Q&A provisions covered by the SEC deferral that the Group availed in 2021 follows:

	Deferral Period
Assessing if the transaction price includes a significant financing component as discussed in PIC Q&A 2018-12-D (as amended by PIC Q&A 2020-04)	Until December 31, 2023

As discussed under Changes in Accounting Policies, the Group adopted the provision of PFRS 15 that covered its treatment of land in the determination of POC as discussed in PIC Q&A 2018-12-E. As allowed under SEC MC No. 34, the Group adopted the change under the modified retrospective approach.

The SEC Memorandum Circulars also provided the mandatory disclosure requirements should an entity decide to avail of any relief. Disclosures should include:

- The accounting policies applied.
- Discussion of the deferral of the subject implementation issues in the PIC Q&A.
- Qualitative discussion of the impact on the financial statements had the concerned application guidelines in the PIC Q&A been adopted.
- Should any of the deferral options result into a change in accounting policy (e.g., when an entity excludes land and/or uninstalled materials in the POC calculation under the previous standard but opted to include such components under the relief provided by the circular), such accounting change will have to be accounted for under PAS 8, i.e., retrospectively, together with the corresponding required quantitative disclosures.

After the deferral period, real estate companies would have to adopt PIC Q&A No. 2018-12 and any subsequent amendments thereto retrospectively or as the SEC will later prescribe.

The Group availed of the SEC relief on the accounting for significant financing component of PIC Q&A No. 2018-12. Had this provision been adopted, the Group assessed that the impact would have been as follows:

The mismatch between the POC of the real estate projects and right to an amount of consideration based on the schedule of payments provided for in the contract to sell might constitute a significant financing component. In case of the presence of significant financing component, the guidance should have been applied retrospectively and would have resulted in restatement of prior year financial statements. Adoption of this guidance would have impacted interest income, interest expense, revenue from real estate sales, installment contracts receivable, provision for deferred income tax, deferred tax asset or liability for all years presented, and the opening balance of retained earnings. These would have impacted the cash flows from operations and cash flows from financing activities for all years presented. The Group believes that the mismatch for its contract to sell does not constitute a significant financing component that is material to the Group based on the examples provided in the PIC letter dated November 11, 2020.

Current and Noncurrent Classification

The Group presents assets and liabilities in the consolidated statement of financial position based on current/noncurrent classification. An asset is current when it is:

- (a) Expected to be realized or intended to be sold or consumed in normal operating cycle;
- (b) Held primarily for the purpose of trading;
- (c) Expected to be realized within 12 months after reporting date; or
- (d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after reporting date.

All other assets are classified as noncurrent.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within 12 months after reporting date; or
- There is no unconditional right to defer the settlement of the liability for at least 12 months after reporting date.

The Group classifies all other liabilities as noncurrent.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities, respectively.

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuers are involved for valuation of significant assets, such as investment properties. Involvement of external valuers is decided upon annually by corporate finance after discussion with and approval by the Parent Company's audit committee. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

The Group, in conjunction with the external valuers, also compares each of the changes in the fair value of each asset with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Group has determined classes of assets on the basis of the nature, characteristics and risks of the asset and the level of the fair value hierarchy as explained above.

Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three (3) months or less from dates of placement and that are subject to an insignificant risk of change in value.

Financial Instruments

Date of recognition

The Group recognizes a financial asset or a financial liability in the consolidated statement of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the settlement date.

Financial assets

Initial recognition of financial instruments

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. The Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables, except for contracts with customers in residential, commercial and office development receivables, are measured at the transaction price determined under PFRS 15. Refer to the accounting policies on Revenue from contracts with customers.

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

Financial assets at amortized cost

This category is the most relevant to the Group. The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Interest income and impairment losses or reversals are recognized in the consolidated statement of comprehensive income. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

The Group's financial assets at amortized cost includes cash and cash equivalents, short-term investments and accounts and notes receivables.

Disposal of financial assets at amortized cost

When financial assets at amortized cost are disposed, these are assessed whether the Group is consistent with its objective of collecting contractual cash flows until maturity. In the event that disposals have been concluded as infrequent and insignificant, the financial assets continue to be accounted at amortized cost (see Note 7).

Financial assets at fair value through OCI (debt instruments)

The Group measures debt instruments at fair value through OCI if both of the following conditions are met:

- The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognized in the consolidated statement of income and computed in the same manner as for financial assets measured at amortized cost. The remaining fair value changes are recognized in OCI. Upon derecognition, the cumulative fair value change recognized in OCI is recycled to profit or loss.

This category includes investment in bonds classified as financial assets at fair value through OCI.

Financial assets designated at fair value through OCI (equity instruments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under PAS 32, *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these equity instruments are never recycled to profit or loss. Dividends are recognized as other income in the consolidated statement of income when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

The Group's financial assets at fair value through OCI includes investments in quoted and unquoted equity instruments.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortized cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the consolidated statement of financial position at fair value with net changes in fair value recognized in the consolidated statement of income.

Investments in Unit Investment Trust Fund (UITF), treasury bills and investment in ARCH Capital Asian Partners L.P. (ARCH Capital Fund) are held for trading and classified as financial assets at FVPL.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Modification of financial assets

The Group derecognizes a financial asset when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new asset, with the difference between its carrying amount and the fair value of the new asset recognized as a derecognition gain or loss in profit or loss, to the extent that an impairment loss has not already been recorded.

When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, the Group recalculates the gross carrying amount of the financial asset as the present value of the renegotiated or modified contractual cash flows discounted at the original EIR (or credit-adjusted EIR for purchased or originated credit-impaired financial assets) and recognizes a modification gain or loss in the consolidated statement of income.

Impairment of Financial Assets

The Group recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix for trade receivables and a vintage analysis for residential, commercial and office development receivables that is based on historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For other financial assets such as accrued receivable, receivable from related parties and advances to other companies, ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For cash and cash equivalents and short-term investments, the Group applies the low credit risk simplification. The probability of default and loss given defaults are publicly available and are considered to be low credit risk investments. It is the Group's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. The Group uses the ratings from Standard and Poor's (S&P), Moody's and Fitch to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs.

The Group considers a debt investment security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade'.

The key inputs in the model include the Group's definition of default and historical data of three years for the origination, maturity date and default date. The Group considers trade receivables in default when contractual payments are 90 days past due, except for certain circumstances when the reason for being past due is due to reconciliation with customers of payment records which are administrative in nature which may extend the definition of default to 90 days and beyond. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group.

Determining the stage for impairment

At each reporting date, the Group assesses whether there has been a significant increase in credit risk for financial assets since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Group considers reasonable and supportable information that is relevant and available without undue cost or effort for this purpose. This includes quantitative and qualitative information and forward-looking analysis.

The Group considers that there has been a significant increase in credit risk when contractual payments are more than 90 days past due.

An exposure will migrate through the ECL stages as asset quality deteriorates. If, in a subsequent period, asset quality improves and also reverses any previously assessed significant increase in credit risk since origination, then the loss allowance measurement reverts from lifetime ECL to 12-months ECL.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Directly attributable transaction costs are documentary stamp tax, underwriting and selling fees, regulatory filing fees and other fees.

The Group's financial liabilities include "Accounts and other payables" (other than "Taxes payable" which is covered by another accounting standard), "Short-term and long-term debts", "Deposits and Other Liabilities" and "Lease liabilities".

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by PFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the consolidated statement of income.

Only if the criteria in PFRS 9 are satisfied, the designation of financial liabilities at fair value through profit or loss at the initial date of recognition is allowed. The Group has not designated any financial liability as at fair value through profit or loss.

Loans and borrowings

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit or loss.

This category generally applies to short term and long term debt.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the consolidated statement of income.

Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position, if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Derivatives

The Group uses derivative financial instruments, such as non-deliverable forwards, cross currency swaps, interest rate swaps and principal only swaps contracts to hedge its foreign currency risks and interest rate risks. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Refundable Deposits

Refundable deposits are measured initially at fair value. After initial recognition, refundable deposits are subsequently measured at amortized cost using the effective interest method.

The difference between the cash received and its fair value is deferred and amortized using the straight-line method under the "Real estate revenue" account in the consolidated statement of income.

Non-refundable deposits that are applicable against costs of services incurred or goods delivered are measured at fair value.

Concession Receivable

The Group accounts for its concession arrangement with the DOTr under the Financial Asset model as it has an unconditional contractual right to receive cash or other financial asset for its construction services from or at the direction of the grantor. Under the concession arrangement, the Group is awarded the right to build and operate an integrated transport terminal for Metro Manila and its adjacent provinces. The legal title to these assets shall be transferred to the government at the end of the concession period.

The "Concession Financial Receivable" (shown as part of "Other Noncurrent Assets") pertains to the fair value of the Annual Grantor Payment related to the operating and maintenance services and recovery of construction costs of the terminal facility. These are amortized using the effective interest rate over the life of the related concession.

In addition, the Group recognizes and measures construction revenues and costs in accordance with 'percentage of completion method'. Contract revenue and costs from construction works are recognized as "Construction Revenue" and "Construction Costs", respectively, in profit or loss in the period in which the work is performed.

Inventories

Property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is held as inventory and is measured at the lower of cost and net realizable value (NRV).

Cost includes:

- Land cost
- Land improvement cost
- Amounts paid to contractors for construction and development
- Planning and design costs, costs of site preparation, professional fees, property transfer taxes, construction overheads and other related costs.

Inventories that are leased out at market rates to earn revenues to partly cover for expenses on the condition that the intent to sell in the ordinary course of business has not changed are accounted and presented as inventory. The rent income from inventories that are leased out is included in other income in the consolidated statement of comprehensive income.

NRV is the estimated selling price in the ordinary course of the business, based on market prices at the reporting date, less estimated costs of completion and the estimated costs of sale.

Prepaid Expenses

Prepaid expenses are carried at cost less the amortized portion. These typically comprise prepayments for commissions, marketing fees, advertising and promotions, taxes and licenses, and insurance.

With the exception of commission which is amortized using percentage of completion, other prepaid expenses are amortized as incurred.

Input Value-Added Tax (VAT)

Input VAT arises from the purchase of goods and services. These are applied against output VAT. The remaining balance is recoverable in future periods. These are carried at cost less allowance for impairment loss, if any. Impairment loss is recognized when input VAT can no longer be recovered.

Materials, Parts and Supplies

Materials, parts and supplies are valued at the lower of cost or NRV. Cost is determined using the moving average method. NRV is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

An allowance for inventory losses is provided for slow-moving, obsolete and defective materials, parts and supplies based on management's physical inspection and evaluation. When inventories are sold, the cost and related allowance is removed from the account and the difference is charged against operations.

Advances to Other Companies and Advances to Contractors and Suppliers

Advances to other companies and advances to contractors and suppliers are carried at cost less impairment losses, if any.

Investments in Associates and Joint Ventures

Investments in associates and joint ventures (investee companies) are accounted for under the equity method of accounting. An associate is an entity in which the Group has significant influence and which is neither a subsidiary nor a joint venture. A joint arrangement is a contractual arrangement

whereby two or more parties undertake an economic activity that is subject to joint control, and a joint venture is a joint arrangement that involves the establishment of a separate entity in which each venturer has an interest.

An investment is accounted for using the equity method from the day it becomes an associate or joint venture. On acquisition of investment, the excess of the cost of investment over the investor's share in the net fair value of the investee's identifiable assets, liabilities and contingent liabilities is accounted for as subsumed goodwill and included in the carrying amount of the investment and not amortized. Any excess of the investor's share of the net fair value of the investee's identifiable assets, liabilities and contingent liabilities over the cost of the investment is excluded from the carrying amount of the investment, and instead included in the determination of the share in the earnings of the investees.

Under the equity method, the investments in the investee companies are carried in the consolidated statement of financial position at cost plus post-acquisition changes in the Group's share in the net assets of the investee companies, less any impairment in values. The consolidated statement of income reflects the share of the results of the operations of the investee companies. The Group's share of post-acquisition movements in the investee's equity reserves is recognized directly in equity. Profits and losses resulting from transactions between the Group and the investee companies are eliminated to the extent of the interest in the investee companies and for unrealized losses to the extent that there is no evidence of impairment of the asset transferred. Dividends received are treated as a reduction of the carrying value of the investment.

The Group discontinues applying the equity method when their investments in investee companies are reduced to zero. Unless otherwise, additional losses are not recognized when the Group has guaranteed certain obligations of the investee companies. When the investee companies subsequently report net income, the Group will resume applying the equity method but only after its share of that net income equals the share of net losses not recognized during the period the equity method was suspended.

The reporting dates of the investee companies and the Group are identical and the investee companies' accounting policies conform to those used by the Group for like transactions and events in similar circumstances.

Upon loss of significant influence over the investee companies, the Group measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in the consolidated statement of income.

Interest in Joint Operation

Makati Development Corporation (MDC), a subsidiary of the Parent Company, has an interest in joint arrangement, whereby the parties have a contractual arrangement that establishes joint control. MDC recognizes its share of jointly held assets, liabilities, income and expenses of the joint operation with similar items, line by line, in its financial statements.

The financial statements of the joint operation are prepared for the same reporting period as the Group. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

Investment Properties

Investment properties comprise completed property and property under construction or under re-development that are held to earn rentals or capital appreciation or both and that are not occupied by the companies in the Group.

The Group uses the cost model in measuring investment properties since this represents the historical value of the properties subsequent to initial recognition. Investment properties, except for land, are carried at cost less accumulated depreciation and amortization and any impairment in residual value. Land is carried at cost less any impairment in value.

Expenditures incurred after the has been put in operation, such as repairs and maintenance costs, are normally charged against income in the period in which the costs are incurred.

Assets that are under construction are carried at cost (including borrowing costs) and transferred to the related investment property account when the construction and related activities to prepare the property for its intended use are complete, and the property is ready for occupation or under the condition as intended by the Group.

Depreciation of investment properties are computed using the straight-line method over the estimated useful lives of the assets. The estimated useful lives and the depreciation method are reviewed periodically to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of investment properties.

The estimated useful lives of investment properties which comprised of buildings, range from 20-40 years.

Investment properties are derecognized when either they have been disposed of, or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property is recognized in the consolidated statement of income in the year of retirement or disposal.

A transfer is made to investment property when there is a change in use, evidenced by ending of owner-occupation, commencement of an operating lease to another party or ending of construction or development. A transfer is made from investment property when and only when there is a change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale. A transfer between investment property, owner-occupied property and inventory does not change the carrying amount of the property transferred nor does it change the cost of that property for measurement or disclosure purposes.

The Group discloses the fair values of its investment properties in accordance with PAS 40. The Group engages independent valuation specialist to assess the fair values as at December 31, 2021 and 2020. The Group's investment properties consist of land and building pertaining to land properties, retail (malls) and office properties. These are valued by reference to market-based evidence using comparable prices adjusted for specific market factors such as nature, location and condition of the property and income approach by reference to the value of income, cash flow or cost saving generated by the asset.

Property and Equipment

Property and equipment, except for land, are carried at cost less accumulated depreciation and amortization and any impairment in value. Land is carried at cost less any impairment in value. The initial cost of property and equipment comprises its construction cost or purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use, including borrowing costs.

Major repairs are capitalized as part of property and equipment only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the items can be measured reliably. All other repairs and maintenance are charged against current operations as incurred.

Depreciation and amortization of property and equipment commences once the property and equipment are available for use and are computed on a straight-line basis over the estimated useful lives of the property and equipment as follows:

	Years
Buildings and improvements	20-40
Machinery and construction equipment	5
Furniture, fixtures and equipment	3-10
Transportation equipment	3-5
Hotel property and equipment	20-50

The assets' residual values, estimated useful lives and depreciation and amortization method are reviewed periodically to ensure that the amounts, periods and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

When property and equipment items are retired or otherwise disposed of, the cost and the related accumulated depreciation and amortization and accumulated provision for impairment losses, if any, are removed from the accounts and any resulting gain or loss is credited to or charged against current operations.

Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and expenditure is reflected in the consolidated statement of income in the year in which the expenditure is incurred.

Leasehold rights with finite lives are amortized using the straight-line method over the estimated useful life of 20 to 23 years and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the consolidated statement of income in the expense category consistent with the function of the intangible assets.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the consolidated statement of income.

As of December 31, 2021 and 2020 intangible asset pertaining to leasehold right is included under "Other noncurrent assets".

Buildings Classified as Held for Sale

Buildings classified as held for sale are stated at the lower of its carrying amount and fair value less costs to sell. These are classified as held for sale if their carrying amounts will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset or disposal group is available for immediate sale in its present condition. The Group must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Business Combinations and Goodwill

Business combinations are accounted for using the acquisition method which involves recognizing and measuring the identifiable assets acquired, the liabilities assumed and any non-controlling interests in the acquiree. The identifiable assets acquired and liabilities assumed of the acquiree are recognized as of the acquisition date and measured at fair value as at that date. For each business combination, the acquirer measures the non-controlling interest in the acquiree at fair value of the acquiree's identifiable net assets. Acquisition related costs are expensed in the period which the costs are incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability will be recognized in accordance with PFRS 9 either in profit or loss or as a change to other comprehensive income. If the contingent consideration is classified as equity, it should not be remeasured until it is finally settled within equity.

Goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in profit or loss as bargain purchase gain. The Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure amounts to be recognized at the acquisition date.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

If the initial accounting for a business combination can be determined only provisionally by the end of the period in which the combination is effected because either the fair values to be assigned to the acquiree's identifiable assets, liabilities or contingent liabilities or the cost of the combination can be determined only provisionally, the acquirer shall account for the combination using those provisional values. The acquirer shall recognize any adjustments to those provisional values as a result of completing the initial accounting within twelve (12) months of the acquisition date as follows: (i) the carrying amount of the identifiable asset, liability or contingent liability that is recognized or adjusted as a result of completing the initial accounting shall be calculated as if its fair value at the acquisition date had been recognized from that date; (ii) goodwill or any gain recognized shall be adjusted by an amount equal to the adjustment to the fair value at the acquisition date of the identifiable asset, liability or contingent liability being recognized or adjusted; and (iii) comparative information presented

for the period before the initial accounting for the combination is complete shall be presented as if the initial accounting has been completed from the acquisition date.

Combinations of entities under common control

Business combinations of entities under common control are accounted for using the pooling of interest method. The pooling of interest method is generally considered to involve the following:

- The assets and liabilities of the combining entities are reflected in the consolidated financial statements at their carrying amounts. No adjustments are made to reflect fair values, or recognize any new assets or liabilities, at the date of the combination. The only adjustments that are made are those adjustments to harmonize accounting policies.
- No new goodwill is recognized as a result of the combination. The only goodwill that is recognized is any existing goodwill relating to either of the combining entities. Any difference between the consideration paid or transferred and the equity acquired is reflected within equity.
- The consolidated statement of income reflects the results of the combining entities for the full year, irrespective of when the combination took place.
- Comparatives are presented as if the entities had always been combined.

The effects of intercompany transactions on current assets, current liabilities, revenues, and cost of sales for the current period presented and on retained earnings at the beginning of the current period presented are eliminated to the extent possible.

Asset Acquisitions

If the assets acquired and liabilities assumed in an acquisition transaction do not constitute a business as defined under PFRS 3, the transaction is accounted for as an asset acquisition. The Group identifies and recognizes the individual identifiable assets acquired (including those assets that meet the definition of, and recognition criteria for, intangible assets) and liabilities assumed. The acquisition cost is allocated to the individual identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. Such transaction or event does not give rise to goodwill. Where the Group acquires a controlling interest in an entity that is not a business, but obtains less than 100% of the entity, after it has allocated the cost to the individual assets acquired, it notionally grosses up those assets and recognizes the difference as non-controlling interests.

Impairment of Nonfinancial Assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired (e.g. investments in associates and joint ventures, investment properties, property and equipment and right-of-use assets). If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses of continuing operations are recognized in the consolidated statement of income in those expense categories consistent with the function of the impaired asset.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If any such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. If such is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal

is recognized in the consolidated statement of income unless the asset is carried at revalued amount, in which case, the reversal is treated as a revaluation increase. After such reversal, the depreciation and amortization charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

The following criteria are also applied in assessing impairment of specific assets:

Investments in associates and joint ventures

After application of the equity method, the Group determines whether it is necessary to recognize any additional impairment loss with respect to the Group's net investment in the investee companies. The Group determines at each reporting date whether there is any objective evidence that the investment in associates or joint ventures is impaired. If this is the case, the Group calculates the amount of impairment as being the difference between the recoverable amount and the carrying value of the investee company and recognizes the difference in the consolidated statement of income.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Where the Group expects a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Pension Cost

Pension cost is actuarially determined using the projected unit credit method. This method reflects services rendered by employees up to the date of valuation and incorporates assumptions concerning employees' projected salaries. Actuarial valuations are conducted with sufficient regularity, with option to accelerate when significant changes to underlying assumptions occur. Pension cost includes: a) service costs comprising current service costs, past-service costs, b) gains and losses on curtailments and non-routine settlements, and c) net interest cost on benefit obligation.

Remeasurements, comprising of actuarial gains or losses, the effect of the asset ceiling, excluding net interest cost and the return on plan assets (excluding net interest), are recognized immediately in the consolidated statement of financial position with a corresponding debit or credit to OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

The liability recognized in the consolidated statement of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the reporting date less fair value of the plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by using risk-free interest rates of long-term government bonds that have terms to maturity approximating the terms of the related pension liabilities or applying a single weighted average discount rate that reflects the estimated timing and amount of benefit payments.

Share-based Payments

The Group has equity-settled, share-based compensation plans with its employees.

PFRS 2 Options

For options granted after November 7, 2002 that have not vested on or before January 1, 2005, the cost of equity-settled transactions with employees is measured by reference to the fair value at the date on which they are granted. The fair value is determined using the Black-Scholes model, further details of which are given in Note 28.

The cost of equity-settled transactions is recognized, together with a corresponding increase in equity, over the period in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (vesting date). The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instrument that will ultimately vest. The income or expense for a period represents the movement in cumulative expense recognized as at the beginning and end of that period.

No expense is recognized for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition, which are treated as vesting irrespective of whether or not the market condition is satisfied, provided that all other performance conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum, an expense is recognized. In addition, an expense is recognized for any increase in the value of the transaction as a result of the modification, as measured at the date of modification. Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognized for the award is recognized immediately. However, if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

Pre-PFRS 2 Options

For options granted before November 7, 2002 that has vested before January 1, 2005, the intrinsic value of stock options determined as of grant date is recognized as expense over the vesting period.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share (see Note 28).

Employee Stock Ownership Plan

The Parent Company has an employee stock ownership plan (ESOWN) which allows the grantees to purchase the Parent Company's shares. The Parent Company recognizes stock compensation expense over the holding period. The Parent Company treats its ESOWN plan as option exercisable within a given period. These are accounted for similar to the PFRS 2 options. Dividends paid on the awards that have vested are deducted from equity and those paid on awards that are unvested are charged to profit or loss. For the unsubscribed shares where the employees still have the option to subscribe in the future, these are accounted for as options.

Equity

When the shares are sold at a premium, the difference between the proceeds and the par value is credited to "Additional paid-in capital" account. Direct costs incurred related to equity issuance are chargeable to "Additional paid-in capital" account. If additional paid-in capital is not sufficient, the excess is charged against retained earnings. When the Group issues more than one class of stock, a separate account is maintained for each class of stock and the number of shares issued.

Subscriptions receivable pertains to the uncollected portion of the subscribed shares.

Retained earnings represent accumulated earnings of the Group less dividends declared.

Equity reserves pertain to the excess of the cost of business combinations over the net carrying amounts of the assets and liabilities of the acquired companies. Changes in a parent's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions (i.e., transactions with owners in their capacity as owners). In such circumstances, the carrying amounts of the controlling and non-controlling interests shall be adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid shall be recognized

directly in equity and included under “Equity reserves” account in the equity section of the consolidated statement of financial position.

Own equity instruments which are reacquired (treasury shares) are recognized at cost and deducted from equity. No gain or loss is recognized in the profit or loss on the purchase, sale, issue or cancellation of the Parent Company’s own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized in additional paid-in capital. Voting rights related to treasury shares are nullified for the Group and no dividends are allocated to them respectively. When the shares are retired, the capital stock account is reduced by its par value and the excess of cost over par value upon retirement is debited to additional paid-in capital when the shares were issued and to retained earnings for the remaining balance.

Revenue from Contract with Customers

The Group primarily derives its real estate revenue from the sale of vertical and horizontal real estate projects. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. Except for the provisioning of water, electricity, air-conditioning and common use service area in its mall retail spaces, wherein it is acting as agent, the Group has generally concluded that it is the principal in its revenue arrangements.

The disclosures of significant accounting judgments, estimates and assumptions relating to revenue from contracts with customers are provided in Note 3.

Real estate sales

The Group derives its real estate revenue from sale of lots, house and lot and condominium units. Revenue from the sale of these real estate projects under pre-completion stage are recognized over time during the construction period (or percentage of completion) since based on the terms and conditions of its contract with the buyers, the Group’s performance does not create an asset with an alternative use and the Group has an enforceable right to payment for performance completed to date.

In measuring the progress of its performance obligation over time, the Group uses the output method. The Group recognizes revenue and the related trade receivables on the basis of direct measurements of the value to customers of the goods or services transferred to date, relative to the remaining goods or services promised under the contract. Progress is measured using survey of performance completed to date. This is based on the monthly project accomplishment report prepared by the third party surveyor as approved by the construction manager which integrates the surveys of performance to date of the construction activities for both sub-contracted and those that are fulfilled by the developer itself.

Any excess of progress of work over the right to an amount of consideration that is unconditional, is recognized as trade receivables under residential and office development receivables account. Any excess of collections over the total of recognized trade receivables is included in the “customer’s deposit” account in the liabilities section of the consolidated statement of financial position. The impact of the significant financing component on the transaction price has not been considered since the Group availed of the relief granted by the SEC under Memorandum Circular No. 34, which has been extended until December 31, 2023.

Cost recognition

The Group recognizes costs relating to satisfied performance obligations as these are incurred taking into consideration the contract fulfillment assets such as connection fees. These include costs of land, land development costs, building costs, professional fees, depreciation, permits and licenses. These costs are allocated to the saleable area, with the portion allocable to the sold area being recognized as costs of sales while the portion allocable to the unsold area being recognized as part of real estate inventories.

Contract costs include all direct materials and labor costs and those indirect costs related to contract performance. Expected losses on contracts are recognized immediately when it is probable that the total contract costs will exceed total contract revenue. Changes in contract performance, contract conditions and estimated profitability, including those arising from contract penalty provisions, and final contract settlements which may result in revisions to estimated costs and gross margins are recognized in the year in which the changes are determined.

Marketing fees, management fees from administration and property management are recognized as expense when services are incurred.

Hotel and resorts revenue (part of real estate sales in the consolidated statement of income)

The Group recognizes room accommodation services over time since the guest simultaneously receives and consumes the services provided by the Group. The Group considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. Revenue from banquets and other special events are recognized when the events take place.

Cost of hotel operations (part of cost of real estate sales in the consolidated statement of income)

Cost of hotel operations pertains to expenses incurred in relation to sale of goods and rendering of services. These are recognized when a decrease in future economic benefits related to a decrease in an asset or an increase of a liability has arisen than can be measured reliably. These are recognized when incurred and measured at the amount paid or payable.

Construction revenue (part of real estate sales in the consolidated statement of income) and cost

Revenue from fixed price construction contracts are recognized over time using the milestone-based revenue recognition which is in reference to the output method. The output method is determined based on the start and completion of a task of the contract work inclusive of uninstalled goods and materials delivered to the site.

Contract costs include all direct materials and labor costs and those indirect costs related to contract performance. Expected losses on contracts are recognized immediately when it is probable that the total contract costs will exceed total contract revenue. Changes in contract performance, contract conditions and estimated profitability, including those arising from contract penalty provisions, and final contract settlements which may result in revisions to estimated costs and gross margins are recognized in the year in which the changes are determined.

Rental income (part of real estate sales in the consolidated statement of income)

Rental income under noncancellable and cancellable leases on investment properties is recognized in the consolidated statement of income on a straight-line basis over the lease term and the terms of the lease, respectively, and/or based on a certain percentage of the gross revenue of the tenants, as provided under the terms of the lease contract.

No rental income is recognized when the Group waives its right to collect rent and other charges. This is recognized as a rent concession and reported as a variable payment (see Note 33).

Rooms revenue from hotel and resort operations is recognized when the services are rendered. Revenue from banquets and other special events are recognized when the events take place.

Interest income is recognized as it accrues using the effective interest method.

Dividend income is recognized when the Group's right to receive the payment is established.

Common usage service area (CUSA) charges

The contract for the commercial spaces leased out by the Group to its tenants includes the right to charge for the electricity usage, water usage, air-conditioning charges and CUSA like maintenance, janitorial and security services.

For the electricity and water usage, the Group determined that it is acting as an agent because the promise of the Group to the tenants is to arrange for the electricity and water supply to be provided by a utility company. The utility and service companies, and not the Group, are primarily responsible for the provisioning of the utilities while the Group administers the leased spaces and coordinates with the utility and service companies to ensure that tenants have access to these utilities.

For the provision of CUSA and air-conditioning of the Buildings, the Group acts as a principal because it retains the right to direct the service provider of air-conditioning, maintenance, janitorial and security to the leased premises. The right to the services mentioned never transfers to the tenant and the Group has the discretion on how to price the CUSA and air-conditioning charges.

Customers' deposit

Customers' deposit is a contract liability which is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a customers' deposit is recognized when the payment is made or the payment is due (whichever is earlier). Customers' deposit are recognized as revenue when the control of the goods or services are transferred to the customers by the Group which is essentially fulfillment of its performance obligation under the contract.

Customers' deposit also include payments received by the Group from the customers for which revenue recognition has not yet commenced.

Costs to obtain contract

The incremental costs of obtaining a contract with a customer are recognized as an asset if the Group expects to recover them. The Group has determined that commissions paid to brokers and marketing agents on the sale of pre-completed real estate units are deferred when recovery is reasonably expected and are charged to expense in the period in which the related revenue is recognized as earned. Commission expense is included in the "Real estate costs and expenses" account in the consolidated statement of income.

Costs incurred prior to obtaining contract with customer are not capitalized but are expensed as incurred.

Amortization, de-recognition and impairment of capitalized costs to obtain a contract

Following the pattern of real estate revenue recognition, the Group amortizes capitalized costs to obtain a contract to cost of sales over the expected construction period using percentage of completion. The amortization is included within cost of sales.

A capitalized cost to obtain a contract is derecognized either when it is disposed of or when no further economic benefits are expected to flow from its use or disposal.

At each reporting date, the Group determines whether there is an indication that cost to obtain a contract maybe impaired. If such indication exists, the Group makes an estimate by comparing the carrying amount of the assets to the remaining amount of consideration that the Group expects to receive less the costs that relate to providing services under the relevant contract. In determining the estimated amount of consideration, the Group uses the same principles as it does to determine the contract transaction price, except that any constraints used to reduce the transaction price is removed for the impairment test.

Where the relevant costs or specific performance obligations are demonstrating marginal profitability or other indicators of impairment, judgement is required in ascertaining whether or not the future economic benefits from these contracts are sufficient to recover these assets. In performing this impairment assessment, management is required to make an assessment of the costs to complete the contract. The ability to accurately forecast such costs involves estimates around cost savings to be achieved over time, anticipated profitability of the contract, as well as future performance against any contract-specific performance indicators that could trigger variable consideration, or service credits. Where a contract is anticipated to make a loss, these judgements are also relevant in determining whether or not an onerous contract provision is required and how this is to be measured.

Expense Recognition

Expenses are recognized in the consolidated statement of income when decrease in future economic benefit related to a decrease in an asset or an increase in a liability has arisen that can be measured reliably.

Expenses are recognized in the consolidated statement of income as follow:

- On the basis of a direct association between the costs incurred and the earning of specific items of income;
- On the basis of systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association can only be broadly or indirectly determined; or
- Immediately when expenditure has been assessed as no future economic benefits or when, and to the extent that future economic benefits do not qualify or cease to qualify, for recognition in the consolidated statement of financial position as an asset.

Direct operating expenses and general and administrative expenses are recognized as they are incurred.

Borrowing Costs

Borrowing costs directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets (included in "Investment properties" and "Property and equipment" accounts in the consolidated statement of financial position). All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

The interest capitalized is calculated using the Group's weighted average cost of borrowings after adjusting for borrowings associated with specific developments. Where borrowings are associated with specific developments, the amounts capitalized is the gross interest incurred on those borrowings less any investment income arising on their temporary investment. Interest is capitalized from the commencement of the development work until the date of practical completion. The capitalization of borrowing costs is suspended if there are prolonged periods when development activity is interrupted. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recorded.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

Except for short-term leases and leases of low-value assets, the Group applies a single recognition and measurement approach for all leases. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received and estimate of cost to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

	Years
Building	20-40
Aircraft	10
Others	5

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in Impairment of nonfinancial assets section.

ii) Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

iii) Short-term leases

The Group applies the short-term lease recognition exemption to its short-term leases of office space (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases are recognised as expense on a straight-line basis over the lease term.

Group as a lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Current Tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as at the end of the reporting period.

Deferred Tax

Deferred tax is provided, using the liability method, on all temporary differences, with certain exceptions, at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, with certain exceptions. Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of unused tax credits from excess of minimum corporate income tax (MCIT) over the regular corporate income tax and unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable income will be available against which the deductible temporary differences and carryforward benefits of unused tax credits and NOLCO can be utilized.

Deferred tax liabilities are not provided on nontaxable temporary differences associated with investments in domestic associates and interests in joint ventures.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable income will allow all or part of the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rate that is expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. Movements in the deferred income tax assets and liabilities arising from changes in tax rates are charged against or credited to income for the period (see Note 23).

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

Foreign Currency Transactions

Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Transactions in foreign currencies are initially recorded using the exchange rate at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies are restated using the closing exchange rate prevailing at the reporting date. Exchange gains or losses arising from foreign exchange transactions are credited to or charged against operations for the year.

As at reporting date, the assets and liabilities of subsidiaries whose functional currency is not the Philippines Peso are translated into the presentation currency of the Parent Company (the Philippine Peso) at the closing rate as at the reporting date, and the consolidated statement of income accounts are translated at monthly weighted average exchange rate. The exchange differences arising on the translation are taken directly to a separate component of equity under "Cumulative translation adjustments" account. Upon disposal of a foreign subsidiary, the deferred cumulative amount recognized in other comprehensive income relating to that particular foreign operation is recognized in the consolidated statement of income.

Investments in foreign associates are translated to Philippine Peso using the closing exchange rate prevailing at reporting date. The Group's share in the results of operations of the foreign investee is translated using the exchange rate at the dates of the transactions or, where practicable, the rate that approximates the exchange rates at the dates of the transactions, such as the average rate for the period. Any resulting exchange difference is recognized as a separate component of equity.

Earnings Per Share (EPS)

Basic EPS is computed by dividing net income for the year attributable to common equity holders of the Parent Company by the weighted average number of common shares issued and outstanding during the year adjusted for any subsequent stock dividends declared. Diluted EPS is computed by dividing net income for the year attributable to common equity holders of the Parent Company by the weighted average number of common shares issued and outstanding during the year plus the weighted average number of common shares that would be issued on conversion of all the dilutive potential common shares into common shares. Calculation of dilutive EPS considers the potential ordinary shares of subsidiaries, associates and joint ventures that have dilutive effect on the basic EPS of the Parent Company. The calculation of diluted earnings per share does not assume conversion, exercise, or other issue of potential common shares that would have an antidilutive effect on earnings per share.

Segment Reporting

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. Financial information on business segments is presented in Note 30 to the consolidated financial statements.

Contingencies

Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but disclosed when an inflow of economic benefits is probable.

Events after the Reporting Period

Post year-end events that provide additional information about the Group's position at the reporting date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the consolidated financial statements when material.

3. Significant Accounting Judgments and Estimates

The preparation of the accompanying consolidated financial statements in conformity with PFRSs, as modified by the application of the financial reporting reliefs issued and approved by the Securities and Exchange Commission in response to the COVID-19 pandemic, requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. The estimates and assumptions used in the accompanying consolidated financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of the consolidated financial statements. Actual results could differ from such estimates.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements:

Existence of a contract

The Group's primary document for a contract with a customer is a signed contract to sell. It has determined, however, that in cases wherein contract to sell are not signed by both parties, the combination of its other duly executed and signed documentation such as reservation agreement, official receipts, buyers' computation sheets and invoices, would contain all the criteria to qualify as contract with the customer under PFRS 15.

In addition, part of the assessment process of the Group before revenue recognition is to assess the probability that the Group will collect the consideration to which it will be entitled in exchange for the real estate property that will be transferred to the customer. In evaluating whether collectability of an amount of consideration is probable, an entity considers the significance of the customer's initial payments in relation to the total contract price. Collectability is also assessed by considering factors such as past history with the customer, age and pricing of the property. Management regularly evaluates the historical cancellations and back-outs if it would still support its current threshold of customers' equity before commencing revenue recognition.

Revenue recognition method and measure of progress

The Group concluded that revenue for real estate sales is to be recognized over time because:

(a) the Group's performance does not create an asset with an alternative use and; (b) the Group has an enforceable right for performance completed to date. The promised property is specifically identified in the contract and the contractual restriction on the Group's ability to direct the promised property for another use is substantive. This is because the property promised to the customer is not interchangeable with other properties without breaching the contract and without incurring significant costs that otherwise would not have been incurred in relation to that contract. In addition, under the current legal framework, the customer is contractually obliged to make payments to the developer up to the performance completed to date. In addition, the Group requires a certain percentage of buyer's payments of total selling price (buyer's equity), to be collected as one of the criteria in order to initiate revenue recognition. Reaching this level of collection is an indication of buyer's continuing commitment and the probability that economic benefits will flow to the Group. The Group considers that the initial and continuing investments by the buyer of about 10% would demonstrate the buyer's commitment to pay.

The Group has determined that the output method used in measuring the progress of the performance obligation (i.e. percentage of completion) faithfully depicts the Group's performance in transferring control of real estate development to the customers. As discussed in Note 2, Changes in Accounting Policies, the Group adopted the provision of PFRS 15 that covered the treatment of land in the determination of the POC as discussed in PIC Q&A 2018-12-E.

Distinction of land between real estate inventories and investment properties

The Group determines whether a property will be classified as real estate inventories or investment properties. In making this judgment, the Group considers whether the property will be sold in the normal operating cycle (real estate inventories) and even if the real estate inventories are leased out, the classification remains on the condition that the intent to sell remains. All other properties that are not yet determined to be sold in the normal operating cycle are classified as investment properties.

Consolidation of entities in which the Group holds only 50% or less than majority of voting rights

The Group considers that it controls the following entities even though it owns 50% or less than majority of the voting rights. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect that return through its power over the investee.

ACC

For ACC, ALI holds 50% of the voting rights, and is also the single largest shareholder and the remaining 50% of the equity shares are held by several shareholders. The second largest stockholder of ACC holds 8.3% share while the other shareholders' equity interest ranges from 2.1% to 8.3%. In addition, ALI has an existing management services agreement with ACC which gives ALI the exclusive control and decision over the relevant activities of ACC.

BG Entities (BGWest, BGNorth and BGSouth)

For the BG entities, wherein ALI and the other shareholder each own 50% of the voting rights, ALI controls the investee through exercise of its exclusive project development and marketing agreement as well as the ability to decide on the financing, operating and strategic policies of the investees. This enabled ALI to conclude that it has control.

AHI, RLC, ALI-CII and LAIP

ALI has an existing management services agreement with AHI, RLC, ALI-CII and LAIP which gives ALI the exclusive control and decision over the relevant activities of AHI, RLC, ALI-CII and LAIP.

Service concession agreement

The Group has made a judgment that the concession agreement with DOTr qualifies under Philippine Interpretation IFRIC 12, *Service Concession Arrangements* (see Note 36). Management has assessed that DOTr controls and regulates the service, determines to whom this service will be provided and controls the price. In addition, management has also determined that the DOTr has the significant control over the residual interest of the Terminal at the end of the term. Management has also made a judgment that the Terminal and commercial assets (mall facilities) are physically separable and are capable of being operated independently.

Management has further assessed that said concession agreement qualifies under the Financial Asset model as it has an unconditional contractual right to receive cash or other financial assets (i.e. the Annual Grantor Payment) for its construction, operating and maintenance services directly from DOTr.

Contingencies

The Group is currently involved in various legal proceedings. The estimate of the probable costs for the resolution of these claims has been developed in consultation with outside counsel handling the defense of these matters and is based upon an analysis of potential results. The Group currently does not believe that these proceedings will have a material effect on the Group's consolidated financial statements (see Note 35).

Sale of real estate receivables

The Group has entered into arrangements with banks wherein it discounted its real estate receivables without recourse. The Group believes that the sales transactions are not more than infrequent and that the receivables discounted is insignificant in value both individually and in aggregate. Accordingly, the Group continues to present trade receivables at amortized cost as it remains to hold trade receivables with the objective of collecting contractual cash flows until maturity.

Definition of default and credit-impaired financial assets

The Group defines a financial instrument as in default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

Quantitative criteria – for residential, commercial and office development receivables, the customer receives a notice of cancellation and does not continue the payments.

Qualitative criteria

The customer meets unlikeliness to pay criteria, which indicates the customer is in significant financial difficulty. These are instances where:

- a. The customer is experiencing financial difficulty or is insolvent
- b. The customer is in breach of financial covenant(s)
- c. An active market for that financial assets has disappeared because of financial difficulties
- d. Concessions or deferrals have been granted by the Group, for economic or contractual reasons relating to the customer's financial difficulty (e.g. Bayanihan Acts I and II considerations)
- e. It is becoming probable that the customer will enter bankruptcy or other financial reorganization

The criteria above have been applied to the financial instruments held by the Group and are consistent with the definition of default used for internal credit risk management purposes. The default definition has been applied consistently to model the Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD) throughout the Group's expected loss calculation.

Incorporation of forward-looking information

The Group incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL.

To do this, the Group considers a range of relevant forward-looking macro-economic assumptions for the determination of unbiased general industry adjustments and any related specific industry adjustments that support the calculation of ECLs. Based on the Group's evaluation and assessment and after taking into consideration external actual and forecast information, the Group formulates a 'base case' view of the future direction of relevant economic variables as well as a representative range of other possible forecast scenarios. This process involves developing two or more additional economic scenarios and considering the relative probabilities of each outcome. External information includes economic data and forecasts published by governmental bodies, monetary authorities and selected private-sector and academic institutions.

The base case represents a most-likely outcome and is aligned with information used by the Group for other purposes such as strategic planning and budgeting. The other scenarios represent more optimistic and more pessimistic outcomes. Periodically, the Group carries out stress testing of more extreme shocks to calibrate its determination of these other representative scenarios.

The Group has identified and documented key drivers of credit risk and credit losses of each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

Determination of lease term of contracts with renewal and termination options – Group as a lessee

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and termination options. The Group applies judgment in evaluating whether the provisions to renew or terminate the lease is enforceable. For leases where the Group has the unilateral option to renew or terminate, it then applies judgment on whether it is reasonably certain or not to exercise the option. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customization to the leased asset).

Assessment on whether lease concessions granted constitute a lease modification

In line with the rental relief framework implemented by the government to support businesses and the broader economy due to the impact of COVID-19, the Group waived its right to collect rent and other charges as part of various lease concessions it granted to lessees such as lease payment holidays or lease payment reductions.

The Group applies judgment when assessing whether the rent concessions granted is considered a lease modification under PFRS 16.

In making this judgment, the Group determines whether the rent concessions granted has changed the scope of the lease, or the consideration thereof, that was not part of the original terms and conditions of the lease. The Group assessed that the lease concessions it granted to lessees do not qualify as lease modifications since the terms and conditions under the corresponding lease contracts have not been modified by the waiver and therefore, is not a lease modification under PFRS 16.

The rent concessions granted by the Group for the year ended December 31, 2021 and 2020 amounted to ₱7.15 billion and ₱6.15 billion, respectively.

Judgements made in determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates applying paragraph 122 of PAS 1, Presentation of Financial Statements

Upon adoption of the Interpretation, the Group has assessed whether it has any uncertain tax position. The Group applies significant judgement in identifying uncertainties over its income tax treatments. The Group determined, based on its assessment, in consultation with its tax counsel, that it is probable that its uncertain income tax treatments (including those for the subsidiaries) will be accepted by the taxation authorities.

Management's Use of Estimates

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Revenue recognition on real estate projects

The Group's revenue recognition policy requires management to make use of estimates and assumptions that may affect the reported amounts of revenues. The Group's revenue from real estate is recognized based on the percentage of completion and this is measured principally on the basis of the estimated completion of a physical proportion of the contract work. Apart from involving significant estimates in determining the quantity of imports such as materials, labor and equipment needed, the assessment process for the POC is complex and the estimated project development costs requires technical determination by management's specialists (project engineers). Prior to 2021, the Group includes land in the calculation of POC since the Group availed the relief granted by the SEC under Memorandum Circular Nos. 14-2018 as of 2018 for the implementation issues of PFRS 15 affecting the real estate industry. In 2021, the Group did not avail of the relief provided by the SEC and adopted the provision on the treatment of land in the determination of POC. See Notes 20 and 22 for the related balances.

Following the pattern of real estate revenue recognition, the cost to obtain a contract (e.g. commission), is determined using the percentage of completion. In view of the continuing community quarantines and restricted mobility, the progress of the Group's performance obligation is adversely affected which resulted to lower percentage-of-completion in 2021 and 2020 as compared to previous years.

Evaluation of net realizable value of real estate inventories

The Group adjusts the cost of its real estate inventories to net realizable value based on its assessment of the recoverability of the inventories. NRV for completed real estate inventories is assessed with reference to market conditions and prices existing at the reporting date and is determined by the Group in the light of recent market transactions. NRV in respect of real estate inventories under construction is assessed with reference to market prices at the reporting date for similar completed property, less estimated costs to complete construction and less estimated costs to sell. The amount and timing of recorded expenses for any period would differ if different judgments were made or different estimates were utilized. In line with the impact of COVID-19, the Group experienced limited selling activities that resulted to lower sales in 2021 and 2020. In evaluating NRV, recent market conditions and current market prices have been considered. See Note 8 for the related balances.

Share-based payments

The expected life of the options is based on the expected exercise behavior of the stock option holders and is not necessarily indicative of the exercise patterns that may occur. The volatility is based on the average historical price volatility which may be different from the expected volatility of the shares of stock of the Group. See Note 28 for the related balances.

Estimating pension liabilities and other retirement benefits

The determination of the Group's obligation and cost for pension and other retirement benefits is dependent on selection of certain assumptions used by actuaries in calculating such amounts. These include the determination of the discount rates, future salary increases, mortality rates and future pension increases. Significant assumptions are disclosed in Note 26 and include among others, discount rate and salary increase rate.

In determining the appropriate discount rate, management considers the interest rates of government bonds that are denominated in the currency in which the benefits will be paid, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation.

The mortality rate is based on 1994 Group Annuity Mortality Table and is modified accordingly with estimates of mortality improvements. Future salary increases and pension increases are based on expected future inflation rates.

While the Group believes that the assumptions are reasonable and appropriate, significant differences in actual experience or significant changes in assumptions could materially affect retirement obligations. See Note 26 for the related balances.

Fair value of financial instruments

When the fair values of financial assets and financial liabilities recorded or disclosed in the consolidated statement of financial position cannot be derived from active markets, they are determined using internal valuation techniques using generally accepted market valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimates are used in establishing fair values. These estimates may include considerations of liquidity, volatility and correlation. Certain financial assets and liabilities were initially recorded at their fair values by using the discounted cash flow methodology. See Note 29 for the related balances.

Provision for expected credit losses of trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables other than residential, commercial and office development receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information such as inflation and GDP growth rates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

The Group uses vintage analysis approach to calculate ECLs for residential, commercial and office development receivables. The vintage analysis accounts for expected losses by calculating the cumulative loss rates of a given loan pool. It derives the probability of default from the historical data of a homogenous portfolio that share the same origination period. The information on the number of defaults during fixed time intervals of the accounts is utilized to create the PD model. It allows the evaluation of the loan activity from its origination period until the end of the contract period.

The assessment of the correlation between historical observed default rates, forecast economic conditions (inflation and interest rates) and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

The Group has considered the impact of COVID-19 pandemic and revised its assumptions in determining the macroeconomic variables and loss rates in the computation of ECL. The changes in the gross carrying amount of receivables from sale of real estate during the year and impact of COVID-19 pandemic did not materially affect the allowance for ECLs.

The information about the ECLs on the Group's trade receivables is disclosed in Notes 7 and 29.

Estimating the incremental borrowing rate for leases

The Group uses its incremental borrowing rate (IBR) to measure lease liabilities because the interest rate implicit in the lease is not readily determinable. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary's functional currency). The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary's stand-alone credit rating).

The Group's lease liabilities as of December 31, 2021 and 2020 amounted to ₱17,837.4 million and ₱17,755.8 million, respectively (see Note 33).

Evaluation of impairment of nonfinancial assets

The Group assesses whether there are any indicators of impairment for all nonfinancial assets (i.e., property and equipment, investment properties, right of use assets and other current assets) at each financial reporting date. These nonfinancial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable.

An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount of an asset is the higher of its fair value less cost to sell and value in use. Recoverable amounts are estimated for individual assets or, if it is not possible, for the CGU to which the asset belongs, while value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

In view of the continuing community quarantines and restricted travel, the Group's hotels and resorts segment continues to be adversely affected by the lower number of guests and reduced room rates, both of which have significantly impacted the revenues reported for this segment. Also, many restaurants remain closed or allowed limited operations which impacted the food and beverage revenues of the segment. In addition, because of the coronavirus pandemic, there is the heightened level of uncertainty on the future economic outlook and market forecast. These events and conditions are impairment indicators requiring the assessment of the recoverable amount of the property and equipment and right-of-use assets.

The carrying value of the property and equipment and right-of-use assets of the hotels and resorts segment amounted to ₱21,219.8 million and ₱1,360.0 million and ₱21,527.0 million and ₱1,034.9 million, respectively, as of December 31, 2021 and 2020. Impairment of investment properties in 2021 and 2020 amounted to ₱129.6 million and ₱225.2 million, respectively (Note 22).

The Group estimates the recoverable amount through value in use. In determining the present value of estimated future cash flows expected to be generated from the continued use of these assets of the hotels and resorts segment, the Group is required to make estimates and assumptions that may affect the nonfinancial assets. The significant assumptions used in the valuation are discount rates of 5.00% to 13.00% with an average growth rate of 3.00%. The Group also considered in its assumptions the impact of the pandemic on the occupancy rate, room rates and gross margin which are not expected to normalize until 2024. No impairment loss was recognized in 2021 and 2020.

4. Cash and Cash Equivalents

This account consists of:

	2021	2020
	(In Thousands)	
Cash on hand	₱66,575	₱64,303
Cash in banks	11,745,823	13,678,488
Cash equivalents	2,159,039	3,294,556
	₱13,971,437	₱17,037,347

Cash in banks earn interest at the respective bank deposit rates. Cash equivalents are short-term, highly liquid investments that are made for varying periods of up to three (3) months depending on the immediate cash requirements of the Group, and earn interest at the respective short-term rates.

The annual interest rates of the cash equivalents are as follows:

	2021	2020
Philippine Peso	0.35% to 1.2%	0.5% to 1.8%
US Dollar	–	0.1% to 0.25%

There is no restriction on the Group's cash and cash equivalents balances as of December 31, 2021 and 2020.

5. Short-term Investments

Short-term investments consist of money market placements made for varying periods of more than three (3) months and up to one (1) year and earn interest at the respective short-term investment rates.

The annual interest rates of the short-term investments are as follows:

	2021	2020
Philippine Peso	–	0.75%
US Dollar	–	0.05% to 0.10%
Malaysian Ringgit	1.00% to 1.80%	0.85% to 1.80%

6. Financial Assets at FVTPL

Investment in Unit Investment Trust Funds (UITF)	₱407,025	₱378,066
Investment in ARCH Capital Fund	293,778	327,953
Investment in Treasury Bills	–	259,152
	₱700,803	₱965,171

The Group invests in money market UITF which aims to generate liquidity and stable income by investing in a diversified portfolio of primarily short-term fixed income instruments and with no minimum holding period requirement.

The Group's investment in UITF includes investment in BPI (Note 25).

As of December 31, 2021, the Group invested in UITF with a fair value of ₱179 million for BPI Money Market Fund, ₱9.6 million for BPI USD Short Term Funds. The Funds' Net Asset Value (NAV) was at ₱61,969.7 million with duration of 241 days and ₱45,783.84 million with duration of 267 days, respectively.

As of December 31, 2020, the Group invested in UITF with a fair value of ₱209 million for BPI Money Market Fund and ₱95 million for BPI USD Short Term Funds. The Funds' Net Asset Value (NAV) was at ₱61,961.9 million with duration of 255 days and ₱41,101.9 million with duration of 307 days, respectively.

Investment in ARCH Capital Fund pertains to monetary interest in a fund in which the management takes the view that these are held for trading and it is a portfolio of identified property funds invested and managed by professional managers.

In 2020, the Group also invested in Treasury Bills which are short-term secure investments issued by the Philippine government through the Bureau of Treasury (BTr) and these are held for trading. These all matured in 2021.

The following table provides the fair value hierarchy of the Group's financial assets at FVTPL which are measured at fair value as of December 31, 2021 and 2020:

The fair value of the investment in UITF is based on net asset values as of reporting dates.

The fair value of the investment in ARCH Capital Fund is determined using the discounted cash flow (DCF) method. Under the DCF method in fund fair valuation, it is estimated using assumptions regarding the benefits and liabilities of ownership over the underlying asset's life including an exit or terminal value. This method involves the projection of a series of cash flows on a real property interest. To this projected cash flow series, a market-derived discount rate is applied to establish the present value of the income stream, associated with the underlying asset. The exit yield is normally separately determined and differs from the discount rate. Significant inputs considered were rental, growth and discount rates. The higher the rental and growth rates, the higher the fair value. The higher the discount rates, the lower the fair value.

The fair value of investment in treasury bills is based on BVAL reference rates on government securities. For the year ended December 31, 2020, the BVAL reference rates range from 1.002% to 3.953%.

	₱100,097,451	₱101,145,909

The classes of trade receivables of the Group are as follows:

- Residential, commercial and office development - pertain to receivables from the sale of high-end, upper middle-income and affordable residential lots and units; economic and socialized housing units and sale of commercial lots; sale of office units; and leisure community developments.
- Shopping centers - pertain to lease receivables from retail spaces
- Corporate business - pertain to lease receivables from office and factory buildings and receivables from sale of industrial lots
- Construction contracts - pertain to receivables from third party construction projects
- Management fees - pertain to receivables from facilities management services
- Others - pertain to receivables from hotel operations and other support services

Residential, commercial and office development receivables are collectible in monthly installments over a period of one (1) to ten (10) years. These are carried at amortized cost using the effective interest rate method with annual interest rates ranging from 5.50% to 18.00%. Titles to real estate properties are transferred to the buyers only once full payment has been made.

Corporate business receivables are collectible on a monthly or quarterly basis depending on the terms of the lease contracts.

Receivables from shopping centers, construction contracts and management fees are due within 30 days upon billing.

Receivables from hotel operations and other support services included under other trade receivables are normally due within 30 to 90 days upon billing.

Advances to other companies includes advances made to joint venture partners that have been made in consideration of project costs and purchases of land that are still subject to completion. The documentation for these advances provides that these will be payable over a fixed term or on demand in order to allow for repayment of the advances when closing does not occur or not settled. The advances are liquidated when proceeds from the sale of the related projects are applied.

Advances to other companies also includes receivables from MRT Development Corporation (MRTDC) shareholders which pertains to interest-bearing advances made by NTDCC to MRTDC equivalent to the Pre-2006 Development Rights Payment (DRP) Payables and the Residual Depot DRP which is due more than one year, in relation to the funding and repayment agreement. As of December 31, 2021 and 2020, receivables including interest from MRTDC shareholders amounted to ₱467.9 million and ₱441.1 million, respectively.

On December 17, 2014, NTDCC and MRTDC shareholders executed a “funding and repayment agreement” wherein the latter agrees to repay NTDCC, for the account of MRTDC, its respective pro rata share in the Total Depot DRP Advances (the Pre-2006 DRP Payables and the Residual Depot DRP, including 15% interest rate accrued on such DRP payables).

Commencing on January 1, 2015, the MRTDC Shareholders shall effect the repayment of their respective pro rata share in the Total Depot DRP Payables, through a set-off against their respective share in the commercial center royalties to be received from the Group.

Set off shall be effective as of the beginning of every calendar month, commencing January 30, 2015 and shall result in the settlement of the portion of the Total DRP Payables to the extent of the amount of the commercial center royalties then the balance will fall due to the relevant MRTDC Shareholders.

Accrued receivables and receivables from related parties are due and demandable. Receivables from employees pertain to housing, car, salary and other loans granted to the Group's employees which are collectible through salary deduction, are interest-bearing (6.0% per annum) and payable on various maturity dates.

Receivables amounting to ₱2,294.2 million and ₱1,945.5 million as of December 31, 2021 and 2020, respectively, were impaired and fully provided for. Movements in the allowance for impairment losses follow:

On March 25, 2020, Republic Act No. 11469, otherwise known as the Bayanihan to Heal as One Act ("Bayanihan 1 Act") was enacted. Bayanihan 1 Act provides that all covered institutions shall implement a 30-day grace period for all loans with principal and/or interest and lease amortization falling due within the ECQ Period without incurring interest on interest, penalties, fees and other charges. Subsequently, on September 11, 2020, Republic Act No. 11494, otherwise known as the Bayanihan to Recover as One Act ("Bayanihan 2 Act"), was enacted. Under Bayanihan 2 Act, a one-time sixty (60)-day grace period is granted for the payment of all existing, current and outstanding loans falling due, or any part thereof, on or before December 31, 2020, without incurring interest on interests, penalties, fees, or other charges and thereby extending the maturity of the said loans. Furthermore, a minimum 30-day grace period shall also be granted by covered institutions to all payments due within the period of community quarantine on rent and utility-related expenditures without incurring penalties, interest and other charges.

In 2020, the Group, provided reliefs under Bayanihan 1 Act and Bayanihan 2 Act, which offered financial reliefs to its borrowers/counterparties as a response to the effect of the COVID-19 pandemic. These relief measures included the restructuring of existing receivables including extension of payment terms.

Based on the Group's assessment, the modifications in the contractual cash flows as a result of the above reliefs are not substantial and therefore do not result in the derecognition of the affected financial assets.

As of December 31, 2021 and 2020, nominal amounts of trade receivables from residential, commercial and office development totaling ₱106,936.8 million and ₱115,407.8 million, respectively, were recorded initially at fair value. The fair values of the receivables were obtained by discounting future cash flows using the applicable rates of similar types of instruments.

Movements in the unamortized discount of the Group's receivables as of December 31, 2021 and 2020 follow:

	2021	2020
	(In Thousands)	
Balance at beginning of year	₱14,079,688	₱17,997,007

The Group entered into agreements with BPI Asset Management and Trust Corporation for the assignment of interest-bearing employee receivables amounting to ₱43.7 million and ₱16.1 million in 2021 and 2020, respectively. The transactions were without recourse and did not result to any gain or loss.

The Group sold residential receivables on a without recourse basis to partner mortgage banks, which include BPI Family Savings Bank, a related party, amounting to ₱21,884.5 million and ₱20,458.0 million in 2021 and 2020. These were sold at a discount with total proceeds of ₱19,794.7 million and ₱18,431.9 million, respectively. The Group recognized loss on sale (under "Other expenses") amounting to ₱2,089.8 million and ₱2,064.0 million in 2021 and 2020, respectively (see Note 22).

Others	1,189,113	543,008
	₱65,300,897	₱58,020,962

Advances to contractors and suppliers represents prepayments for the construction of inventories. These are recouped from billings which are expected to occur in a short period of time.

Prepaid expenses consist of prepayments for commissions, marketing fees, advertising and promotions, taxes and licenses, rentals and insurance. The cost to obtain contracts which includes prepaid commissions and advances to brokers amounted to ₱2,866.4 million and ₱3,281.1 million in 2021 and 2020, respectively. In line with the Group's accounting policy, as set out in Note 2, if a contract or specific performance obligation exhibited marginal profitability or other indicators of impairment, judgment was applied to ascertain whether or not the future economic benefits from these contracts were sufficient to recover these assets. In performing this impairment assessment, management is required to make an assessment of the costs to complete the contract. The ability to accurately forecast such costs involves estimates around cost savings to be achieved over time, anticipated profitability of the contract, as well as future performance against any contract-specific key performance indicators that could trigger variable consideration, or service credits (Note 14).

Value-added input tax is applied against value-added output tax. The remaining balance is recoverable in future periods.

Creditable withholding taxes are applied against income tax payable.

Materials, parts and supplies pertain to inventories to be used in the construction and maintenance of projects.

Buildings classified as held for sale in 2020 include Qualimed Hospitals in Iloilo City, Santa Rosa and San Jose del Monte City which were sold in 2021 in a move to transfer healthcare-related properties to AC Healthcare Holdings, Inc.

Others include deferred charges and letters of credit. Deferred charges pertain to project-related costs already paid but not yet consumed in the actual construction activities.

The following are the significant transactions affecting the Group's investments in associates and joint ventures:

Investments in BLC, ECHI, and BHI

As of December 31, 2021 and 2020, the Group's effective interest in BLC is 45.1%. The Parent Company's 5.3% direct investment in BLC and 4.8% through Regent Time are accounted for using the equity method because the Parent Company has significant influence over BLC.

On April 17, 2003, the following transactions were consummated pursuant to the terms and conditions of the Assignment Agreement (Agreement), dated February 8, 2003, among the Parent Company, Evergreen Holdings, Inc. (EHI), Greenfield Development Corporation and Larouge, B.V. (Larouge), as amended, and the Agreement, dated November 23, 2002, among the Company, EHI and Neo Oracle Holdings, Inc. [formerly Metro Pacific Corporation (MPC)] as amended:

- (a) The assignment to the Parent Company and EHI of the rights and obligations of Larouge under the loan agreement between Larouge and MPC, pursuant to which, Larouge extended MPC a loan in the principal amount of US\$90.0 million, together with all the rights, title and interests of Larouge in the pledge constituted on 50.4% of the outstanding shares in BLC. The consideration paid by the Company and EHI for such assignment was approximately US\$90.0 million, subject in part to foreign exchange adjustment.
- (b) The assignment to the Parent Company and EHI, acting in this instance through the joint venture corporation, Columbus Holdings, Inc. (Columbus), of the controlling interest in BLC representing 50.4% of BLC's outstanding capital stock. This assignment was effected by MPC under a dacion en pago arrangement, and included an assignment of payables of BLC in the principal amount of ₱655.0 million together with its underlying security in the form of shares in Fort Bonifacio Development Corporation (FBDC) representing 5.6% of its outstanding capital stock.

The Agreement, as amended, also provides for the constitution of a pledge over 5.0% of BLC's unencumbered shares as security for contingent liabilities and breach of representation and warranties. The pledge lien over the 5.0% BLC shares shall continue to subsist until the third anniversary of the closing date.

The Parent Company and EHI jointly hold the 50.4% equity interest in BLC through ECHI and BHI. The Parent Company and EHI assigned the notes receivable from MPC to ECHI and BHI, which acquired the shares of stock of Columbus. Columbus directly owns the 50.4% interest in BLC. BLC owns 55.0% interest in FBDC, the primary developer of certain areas in Fort Bonifacio Global City for residential, commercial and business development. Columbus accounted for the acquisition of the 50.4% interest in BLC using the purchase method.

Subsequent to this, the Parent Company and EHI acquired additional shares of BLC through a combination of direct acquisition and through its associates at varying dates:

On July 31, 2008, the Group acquired, through the Parent Company, Regent Time and Columbus, additional 4,360,178 shares of BLC from FBDC amounting to ₱689.0 million, equivalent to 7.7% ownership in BLC. In January and October 2009, a total of 2,295,207 BLC shares were acquired from Development Bank of the Philippines and MPC, pertaining to the pledged shares, through Columbus amounting to ₱362.6 million. This resulted in an increase in Group's effective interest in BLC to 45.1% and unchanged thereafter.

Investment in Rize-Ayalaland

Rize-Ayalaland (Kingsway) GP, Inc. was incorporated on January 25, 2013 under the laws of British Columbia, Canada. The Company's effective ownership is 49.0% through its Vancouver-based subsidiary, AyalaLand Real Estate Investments, Inc.

Investment in Tianjin Eco-City

Tianjin Eco-City is a registered Sino-foreign equity joint venture between RWIL and Sino-Singapore Tianjin Eco-City Investment & Development Co. (SSTEC) under the law of the People's Republic of China to operate for 50 years until 2060. The agreement was entered into to develop a 19-tower residential complex in China, marking its initially foray into the growing China market. Its principal activities include property development rental, management property and parking lot management.

In 2020, Tianjin Eco-City reduced its registered capital from RMB292.75 million to RMB176.25 million, with each shareholder getting back capital in proportion to its current share of ownership. After the capital reduction, the shareholders' share of ownership remain unchanged. The Group's share in the capital reduction amounted to ₱326.60 million.

Investment in Cebu District Property Enterprise, Inc.

Cebu District Property Enterprise, Inc. (CDPEI) was incorporated on February 20, 2014 and is a 50:50 joint venture between the Company and Aboitiz Land, Inc. CDPEI's main purpose is to create a mixed-use commercial and residential district with the 15.4 hectare property in Subangdaku, Mandaue. In 2021, the Group made additional equity infusions to CDPEI amounting to ₱217.0 million.

Investment in Alveo-Federal Land Communities, Inc.

Alveo Land Corp. signed a Joint Venture Agreement (JVA) with Federal Land, Inc. last April 29, 2015 for equal ownership over AFLCI. The JV is for the development of Venido and Aveia projects located in Laguna near Nuvali.

Investment in ALI-ETON Property Development Corporation

ALI-ETON Property Development Corporation was incorporated on March 13, 2016. The company is a joint venture between Ayala Land, Inc. and LT Group, Inc. ALI and LT Group, Inc. entered into an agreement on January 21, 2016 to jointly develop a project along the C5 corridor. The project is envisioned to be a township development that spans portions of Pasig City and Quezon City.

In 2021 and 2020, the Parent Company and LT Group, Inc. made additional equity infusions to ALI-Eton to fund the development requirements of Parklinks amounting to ₱527.0 million and ₱1,083.5 million as of December 31, 2021 and 2020, respectively.

Investment in BYMCW, Inc.

On August 2, 2017, Bouygues Travaux Publics Philippines Inc. (BYTPPI) incorporated BYMCW Inc. (BYMCW) to engage in general building and contracting business. BYMCW's registered office address is at 2nd floor, Welfare Building, LRTA Compound, Aurora Blvd., Barangay 189, Pasay City, Metro Manila.

Investment in AyaGold Retailers, Inc.

AyaGold Retailers, Inc., a joint venture between Entenso Equities Incorporated (EEI, a wholly owned subsidiary of Puregold Price Club, Inc.) and ALI Capital Corp. (a wholly owned subsidiary of the Company and the holding company for its retail-related initiatives), was incorporated on October 2, 2013. It is organized primarily to finance, build and operate mid-market supermarkets for some of Company's new integrated and mixed-use developments. The mid-market supermarkets will be carried under a new brand to be jointly developed by both ALI Capital Corp. and EEI. The partnership with EEI will enable the Company to support its mixed-use developments and, at the same time, grow its recurring income portfolio.

Investment in SIAL Specialty

SIAL Specialty was incorporated on September 27, 2012 as a joint venture between ALI Capital Corp. and Store Specialist, Inc. (SSI). ALICap is a wholly owned subsidiary of the Parent Company. SSI is one of the largest specialty retail companies in the Philippines with the exclusive distribution rights to a variety of brands from around the world.

The partnership, which combines the ALI Capital Corp.'s expertise in developing mixed-use developments and SSI's proven track record in retail, is aimed at pursuing retail solutions to address the growing and changing lifestyle needs of the market.

SIAL Specialty was organized primarily for the investment and operation of mid-market department stores and to pursue other investment opportunities in the Philippine retail sector.

Investment in MGHI

In July 2013, the Parent Company entered into an agreement with the Mercado Family to acquire Whiteknight Holdings, Inc. (WHI), a 33% equity stockholder of MGHI. Its acquisition of WHI will allow the Parent Company to build a strategic partnership with the Mercado Group and support MGHI's future growth. This partnership also enhances the potential of Ayala Land's development of mixed-use communities by offering the critical component of medical services to complement the residential, shopping centers, office and hotel developments therein.

On February 26, 2021, White Knight Holdings Inc., a wholly-owned subsidiary of ALI completed the sale of its 39.20% share in the outstanding capital stock of Mercado General Hospital, Inc., the holding company for the Qualimed network of hospital and clinics to Healthway Philippines Inc., a wholly-owned subsidiary of Ayala Healthcare Holdings, Inc. The original cost of the investment amounted to ₱365.9 million and the sale resulted to a gain of ₱807.6 million recorded under other income account (see Note 21).

Investment in AKL

In 2018, the Parent Company invested ₱1,959.7 million in AKL, which is a 50:50 joint venture between the Parent Company and Royal Asia Land, Inc. (RALI), and is organized primarily for future mixed-use development in South Luzon area.

On June 26, 2019, the Parent Company approved the equity call to fund the advance payment to Manila Jockey Club, Inc. (MJCI) upon signing the Memorandum of Agreement (MOA) for the 60 hectares. property in Carmona, Cavite between AKL and MJCI. Certain parcels of land are leased to several individuals and corporations. Some of the lease contracts provide, among others, that within a certain period from the expiration of the contracts, the lessee will have to demolish and remove any and all improvements (such as buildings) introduced or built within the leased properties. Otherwise, the lessor will cause the demolition and removal thereof and charge the cost to the lessee unless the lessor occupies and appropriates the same for its use and benefit.

Construction in progress pertain to buildings under construction to be leased as retail and office spaces upon completion. The development and construction period normally range from three years to five years and depends heavily on the size of the assets.

The aggregate fair value of the Group's investment properties amounted to ₱485,358.7 million and ₱458,146.2 million as of December 31, 2021, and 2020, respectively.

The fair values of the investment properties were determined by independent professionally qualified appraisers.

The following table provides the fair value hierarchy of the Group's investment properties as of December 31, 2021 and 2020:

The values of the land were arrived using the Market Data Approach. Market Data Approach provides an indication of value by comparing the subject asset with identical or similar assets for which price information is available. This approach was used for the land as it is commonly used in the property market since inputs and data for this approach are available. For Market Data Approach, the higher the price per sqm., the higher the fair value.

The values of the buildings (retail, office, hospital) were arrived using the Income Approach. Income Approach provides an indication of value by converting future cash flow to a single current value. Under the income approach, the value of an asset is determined by reference to the value of income, cash flow or cost saving generated by the asset.

The significant unobservable inputs to valuation of investment properties ranges from ₱1,500-₱278,000 per sqm.

In 2021, the Group started capitalizing borrowing costs to its investment properties under construction. Interest capitalized amounted to ₱574.1 million. For the years 2020, 2019 and 2018, total capitalized interest aggregated to ₱1,993 million (included in additions). The capitalization rates are 3.84% - 4.17% (see Note 16).

Consolidated rental income from investment properties amounted to ₱17,797.7 million, ₱18,468.9 million and ₱31,687.1 million in 2021, 2020 and 2019, respectively (see Note 20). Consolidated direct operating expenses arising from the investment properties in 2021, 2020 and 2019 amounted to ₱7,663.1 million, ₱7,467.0 million and ₱6,822.3 million, respectively (see Note 22).

Depreciation and amortization expense pertaining to investment properties amounted to ₱3,645.3 million, ₱5,590.1 million and ₱4,404.5 million in 2021, 2020 and 2019, respectively (see Note 22).

The Group has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

Certain short-term and long-term debt are secured by real estate mortgages dated September 2, 2014 and March 14, 2016 covering both land and building of the Greenbelt Mall. Net book value of the investment property amounted to ₱2,907.2 million and ₱2,288.3 million as of December 31, 2021 and 2020, respectively (see Note 16).

The depreciation and amortization of property and equipment (included under various consolidated statements of income accounts) amounted to ₱4,443.8 million, ₱3,050.0 million and ₱3,851.0 million in 2021, 2020 and 2019, respectively. No interest was capitalized in 2021 and 2020 (see Note 16).

The Group has no restrictions on its property and equipment and none of these have been pledged as security for its obligations. Capital expenditures for hotel buildings in the course of construction amounted to ₱1,133.59 and ₱3,103.80 million as of December 31, 2021 and 2020, respectively, and are included in property and equipment. The total contractual commitments arising from awarded contracts for the acquisition, development and construction of property and equipment amounted to ₱368.71 million in 2021.

The Group performed impairment testing on its hotel property and equipment with a carrying value of ₱21,219.8 million and ₱21,527.0 million as of December 31, 2021 and 2020, by assessing its recoverable amount through estimation of its value in use (VIU). VIU is the present value of the future cash flows expected to be derived from an asset. The significant assumptions used in the valuation are discount rates of 5.00% to 13.00% with an average growth rate of 3.00%. The Group also considered in its assumptions the impact of the pandemic on the occupancy rate and room rates which are not expected to normalize until 2024. Based on the impairment testing, there is no impairment loss on the Group's hotel property and equipment (see Note 3).

Philippine Rating Services Corporation (PhilRatings) rated the Parent Company's 2021 bond issue "PRS Aaa" with a stable outlook, and maintained the "PRS Aaa" rating with a stable outlook for all other outstanding bonds. PRS Aaa is the highest rating assigned by PhilRatings, indicating that obligor's capacity to meet its financial commitment on the obligation is extremely strong and that it has the smallest degree of investment risk. On the other hand, an Outlook is an indication as to the possible direction of any rating change within a one year period and serves as a further refinement to the assigned credit rating for the guidance of investors, regulators, and the general public. A Stable Outlook indicates that the rating is likely to be maintained or to remain unchanged in the next twelve months

	(In Thousands)	
Current portion of customers' deposits	₱23,858,675	₱19,760,584
Security deposits	3,372,817	5,311,506
Others	239,823	245,156
	₱27,471,315	₱25,317,246

Customers' deposits consist of collections from real estate customers which have not reached the 10% threshold to qualify for revenue recognition and excess of collections over the recognized receivables based on percentage of completion.

The amount of revenue recognized from amounts included in customers' deposits at the beginning of the year amounted to ₱30,239.3 million, ₱21,087.9 million and ₱22,826.6 million in 2021, 2020 and 2019, respectively.

Security deposits are equivalent to three (3) to six (6) months' rent of tenants with cancellable lease contracts and whose lease term will end in the succeeding year. This will be refunded to the lessees at the end of the lease term or be applied to the last months' rentals on the related contracts.

Other current liabilities mostly pertain to accrued project costs and unearned income.

18. Deposits and Other Noncurrent Liabilities

This account consists of:

	2021	2020
	(In Thousands)	
Deposits	₱21,682,003	₱19,712,684
Customers' deposit - noncurrent portion	17,032,950	13,708,188

	₱60,735,602	₱50,040,170

Deposits include security deposits from tenants of retail and office spaces and deferred credits arising from sale of real estate properties. Security deposits are equivalent to three (3) to six (6) months' rent of long-term tenants with noncancellable leases. This will be refunded to the lessees at the end of the lease term or applied to the last months' rentals on the related contracts. Deferred credits pertain to advances from buyers of real estate properties to cover various processing fees including, but not limited to, fees related to transfer of title such as registration fees, documentary taxes and transfer taxes. Payments made by the Group for the processing of title are charged to this account.

Customers' deposits consist of collections from real estate customers which have not reached the 10% threshold to qualify for revenue recognition and excess of collections over the recognized receivables based on percentage of completion.

Retentions payable pertains to the amount withheld by the Group on contractor's billings to be released after the guarantee period, usually one (1) year after the completion of the project or upon demand. The retention serves as a security from the contractor when there are claims for defects in projects requiring rework.

Contractors payable represents accrued costs incurred for property development that are not yet billed.

Liability for purchased land pertains to the portion of unpaid unsubdivided land acquired during the year. These are normally payable in quarterly or annual installment payments within three (3) or five (5) years.

Deferred output VAT pertains to output VAT on receivables for which sales recognition has been deferred based on sales collection threshold for VAT recognition purposes.

The Group's subscription payable pertains to ALLHC's investment in Cyber Bay.

On April 25, 1995, Central Bay, a wholly owned subsidiary of Cyber Bay, entered into a Joint Venture Agreement with the Philippine Reclamation Authority (PRA; formerly Public Estates Authority) for the complete and entire reclamation and horizontal development of a portion of the Manila-Cavite Coastal Road and Reclamation Project (the Project) consisting of three partially reclaimed and substantially eroded islands (the Three Islands) along Emilio Aguinaldo Boulevard in Parañaque and Las Piñas, Metro Manila with a combined total area of 157.8 hectares, another area of 242.2 hectares contiguous to the Three Islands and, at Central Bay's option as approved by the PRA, an additional 350 hectares more or less to regularize the configuration of the reclaimed area.

On March 30, 1999, the PRA and Central Bay executed an Amended Joint Venture Agreement (AJVA) to enhance the Philippine Government's share and benefits from the Project which was approved by the Office of the President of the Philippines on May 28, 1999.

On July 9, 2002, the Supreme Court (SC) (in the case entitled "Francisco Chavez vs. Amari Coastal Bay and Reclamation Corp.") issued a ruling declaring the AJVA null and void. Accordingly, PRA and Central Bay were permanently enjoined from implementing the AJVA.

On July 26, 2002, Central Bay filed a Motion for Reconsideration (MR) of said SC decision. On May 6, 2003, the SC En Banc denied with finality Central Bay's MR. On May 15, 2003, Central Bay filed a Motion for Leave to Admit Second MR. In an En Banc Resolution of the SC dated July 8, 2003, the SC resolved to admit the Second MR of Central Bay.

On November 11, 2003, the SC rendered a 7-7 split decision on Central Bay's Second MR. Because of the new issues raised in the SC's latest resolution that were never tried or heard in the case, Central Bay was constrained to file on December 5, 2003 a Motion for Re-deliberation of the SC's latest resolution which motion was denied with finality by the SC.

With the nullification of the AJVA, Central Bay has suspended all Project operations. On August 10, 2007, in view of the failure by the PRA to comply with its obligations and representations under the AJVA, Cyber Bay and Central Bay have filed their claims for reimbursement of Project expenses in the amount of ₱10,200.0 million with the PRA. Cyber Bay and Central Bay provided the PRA with the summary and details of their claims on September 5, 2007. On July 15, 2008, Cyber Bay sent a follow-up letter to the PRA. The PRA, in its letter dated July 18, 2008, informed Cyber Bay that its claim is still being evaluated by the PRA.

As at December 31, 2021 and 2020, the Group has unpaid subscription in Cyber Bay amounting to ₱481.7 million. The investment in Cyber Bay under "financial assets through FVOCI" amounted to ₱472.0 million as of December 31, 2020 (nil in 2021) (see Note 10).

Other liabilities include nontrade payables, accrued payables and warranty payables.

Preferred Shares (₱0.10 par value per share)

The Parent Company's preferred shares prior to 2012 were subscribed and issued through a stock rights offer with the following features: (a) non-voting; (b) dividend rate of 4.6% p.a., payable annually, noncumulative; (c) nonparticipating; (d) convertible at the option of the holder at a ratio of one (1) preferred share to one (1) common share commencing on the 10th year from issue date at an exercise price equivalent to the higher of (i) the 30-day average closing price or (ii) closing price of common shares immediately preceding the exercise date, less the par value of the preferred shares; (e) no pre-emptive rights; (f) non-redeemable; (g) non-listed; and, (h) preferred in liquidation to the extent of par value.

The dividends for preferred shares are declared upon the sole discretion of the Parent Company's BOD.

On February 20, 2012, the BOD approved the following restructuring exercise in order to comply with the regulatory requirement on Filipino-ownership following the Supreme Court's ruling that nonvoting shares do not count as equity when computing for a Parent Company's Filipino-ownership level:

- Redemption and retirement of the 13.0 billion outstanding preferred shares with par value of ₱0.10.
- Reclassification of the 1,970.0 million unissued preferred shares to voting preferred shares through an amendment of Article Seventh of the Articles of Incorporation.
- Increase in authorized capital stock by ₱1,300.0 million creating new voting preferred shares and a stock rights offer of 13,000 million voting preferred shares from the increase in the authorized capital stock.

On April 18, 2012, the stockholders ratified the BOD resolution on the capital restructuring. The voting preferred shares shall have the following features, rights, and privileges: (a) voting; (b) dividend rate of 4.7% per annum, equivalent to 90.0% of the 10-year PDST R2 (repriced every ten (10) years from issue date), payable annually, non-cumulative; (c) convertible at the option of the holder at a ratio of one (1) voting preferred share to one (1) common share commencing on the 10th year from issue date at an exercise price equivalent to the higher of (i) the 30-day average closing price or (ii) closing price of common shares immediately preceding the exercise date, less the par value of the preferred shares; (d) no pre-emptive rights; (e) redeemable at par at the sole option of the corporation; (f) non-listed; and, (g) preferred in liquidation to the extent of par value.

The SEC approved on January 31, 2013 the following:

- a. The decrease in authorized capital stock by ₱1,303.5 million, the aggregate par value of the 13,034.6 million preferred shares which have been redeemed and retired, from ₱22,803.5 million to ₱21,500.0 million, and
- b. The amendments to Articles of Incorporation reflecting the decrease in capital stock.

As of December 31, 2021 and 2020 the Parent Company's authorized and outstanding preferred shares amounted to ₱1,500.0 million and ₱1,306.6 million, respectively at ₱0.10 par value per share.

Common Shares (₱1.00 par value per share)

On April 7, 2014, the stockholders resolved to approve the amendment of the Seventh Article of the Articles of Incorporation exempting from pre-emptive rights (1) the issuance of 1 billion common shares for properties or assets needed for the business of the Parent Company or for cash to acquire properties or assets needed for the business of the Parent Company or in payment of a debt contracted prior to the issuance of such shares, and (2) the issuance of common shares covered by the Parent Company's Stock Option Plans for members of the management committees of the Parent Company's subsidiaries or affiliates.

Likewise, the stockholders resolved to approve the amendment of the Stock Option Plan of the Parent Company to include the members of the Management Committees of the Parent Company's subsidiaries and affiliates as eligible grantees of stock options.

Equity Reserves

On December 16, 2021, the SEC has approved the merger of CHI, AiO, ASCVC and CBDI with and into ALI, with ALI as the surviving entity (the "Merger"). ALI shall be the surviving entity in the Merger and shall possess all the rights, privileges and immunities of CHI, AiO, ASCVC and CBDI (the "Absorbed Corporations"), and all properties and liabilities, and all and every other interest of or belonging to the Absorbed Corporations shall be taken and deemed transferred to ALI without further act or deed. The impact to equity reserve as a result of the merger amounted to ₱276.8 million.

On October 8, 2021, Ayala Land, Inc. and AREIT, Inc. received the approval from the SEC of the property-for-share swap, specifically the subscription of ALI and its subsidiaries namely, Westview Commercial Ventures Corp. and Glensworth Development, Inc. (collectively referred to as Subsidiaries) to 483,254,375 shares of AREIT in exchange for identified properties owned by ALI and the Subsidiaries, under the Deed of Exchange dated June 8, 2021. This resulted in ALI's interest in AREIT from 54% to 66%. The impact to equity reserve amounted to ₱981.1 million.

On August 13, 2020, ALI sold through a public listing its 49.0% effective noncontrolling interest in AREIT, Inc. at ₱27.0 per share. Subsequently during a one-month stabilization process, BPI Capital Corporation acquired a 3.4% interest in AREIT at an average price of ₱26.0/share and redelivered this to ALI. As a result of the sale and buy-back transactions, ALI's ownership interest in AREIT was diluted from 100.00% to 54.4%. In relation to the dilution without loss of control, the impact to ALI's net equity reserve amounted to ₱7,641.7 million. ALI's non-controlling interest increased by ₱4,701.7 million, as a result of the public offering of AREIT Inc. The difference between the consideration and carrying value of the non-controlling interest was credited to equity reserve as shown below:

		2020	
	Consideration received	Carrying value of Non-controlling interests deemed disposed (In Thousands)	Difference recognized within Equity as Equity Reserve
45.6% in AREIT	₱12,343,461	₱4,701,746	₱7,641,715

On April 30, 2018, ALI and ALLHC executed a Deed of Exchange where ALI will subscribe to 1,225,370,620 common shares of ALLHC for an aggregate subscription price of ₱3.0 billion in exchange for 30,186 common shares of LTI. The subscription and exchange shall be subject to and deemed effective only upon the issuance by the SEC of the confirmation of valuation of the shares. The SEC issued its approval on February 28, 2019. This increased ALI's ownership to 69.50%. This resulted in a decrease in equity reserve amounting to ₱664.9 million.

On February 4, 2019, The Executive Committee of Ayala Land, Inc. (ALI) approved the purchase of a 20% equity interest owned by Mitsubishi Corporation in Laguna Technopark, Inc. (LTI), equivalent to 8,051 common shares, with a total value of ₱800 million. Subsequently, ALI will exchange the 20% equity interest in LTI for additional shares of stock in Prime Orion Philippines, Inc. (POPI), equivalent to 323,886,640 common shares, subject to conditions to be fulfilled by POPI. On May 10, 2019, Prime Orion Philippines, Inc., changed its corporate name to Ayalaland Logistics Holdings Corp. (ALLHC). On June 10, 2019, ALI sold its 20% equity interest or 8,051 common shares in LTI to ALLHC for a consideration of ₱800 million resulting to increase in ALI's ownership from 69.5% to 70.36%.

On September 9, 2019, OLI sold through a special block sale, 215,090,031 common shares of ALLHC to Avida Land Corporation, a wholly-owned subsidiary of ALI, for a total consideration of ₱628.1 million. Subsequently, these shares were acquired by ALI through a special block sale for a total consideration of ₱628.1 million. This resulted to ALI's effective ownership in ALLHC from 70.36% to 71.46%.

The transactions were accounted for as an equity transaction since there were no changes in control. The movements within equity are accounted for as follows:

Capital Management

The primary objective of the Group's capital management policy is to ensure that debt and equity capital are mobilized efficiently to support business objectives and maximize shareholder value. The Group establishes the appropriate capital structure for each business line that properly reflects its premier credit rating and allows it the financial flexibility, while providing it sufficient cushion to absorb cyclical industry risks.

The Group considers debt as a stable source of funding. The Group lengthened the maturity profile of its debt portfolio and makes it a point to spread out its debt maturities by not having a significant percentage of its total debt maturing in a single year.

The Group manages its capital structure and makes adjustments to it, in the light of changes in economic conditions. It monitors capital using leverage ratios on both a gross debt and net debt basis. As of December 31, 2021 and 2020, the Group had the following ratios:

	2021	2020
Debt to equity	0.82:1	0.81:1
Net debt to equity	0.77:1	0.74:1

Debt consists of short-term and long-term debts. Net debt includes short-term and long-term debt less cash and cash equivalents, short-term investments and financial assets at FVPL. Equity, which the Group considers as capital, pertains to the total equity. The Group excludes the "Fair value reserve of financial assets at FVOCI" attributable to the equity holders of the Company in computing the debt to equity ratio.

The Group is subject to externally imposed capital requirements due to loan covenants (see Note 16). No changes were made in the objectives, policies or processes for managing capital during the years ended December 31, 2021 and 2020.

Financial risk assessment

The Group's financial condition and operating results would not be materially affected by the current changes in interest, currency, credit, liquidity and market conditions.

Exposure to changes in interest rates is reduced by a debt portfolio mix of both fixed and floating interest rates. The Group's ratio of fixed to floating rate debt stood at 91:9 and 95:5 as of December 31, 2021 and 2020, respectively. As a result, any adverse movement in interest rates is mitigated.

Exposure to foreign currency holdings is at MYR127.3 million and US\$102 million as of December 31, 2021, and MYR193.7 million and US\$18.0 million as of December 31, 2020, respectively.

Credit risks continue to be managed through defined credit policies and continuing monitoring of exposure to credit risks. The Group's base of counterparties remains diverse. As such, it is not exposed to large concentration of credit risk.

Liquidity risk is addressed with long term funding already locked in, while funds are placed on cash equivalents, short term investment and financial assets at FVTPL.

20. Revenue

This account consists of:

	2021	2020	2019
	(In Thousand)		
Revenue from contracts with customers			
Residential development	₱75,939,410	₱66,461,372	₱117,580,972
Hotels and resorts	2,833,075	3,388,190	7,624,159
Construction	3,909,051	3,278,557	3,394,744
Others	2,466,666	2,971,238	5,452,595
Rental income (Notes 12 and 33)	17,797,660	18,468,871	31,687,075
Equity in net earnings of associates and joint venture	842,565	586,502	965,787
Total Revenue	₱103,788,427	₱95,154,730	₱166,705,332

The Group derives revenue from the transfer of goods and services over time and at a point in time in different product types. The Group's disaggregation of each sources of revenue from contracts with customers are presented below:

Residential development

	2021	2020	2019
	(In thousands)		
Type of Product			
Middle income housing	₱24,101,342	₱21,239,940	₱36,023,183
Coremid	19,789,427	20,445,730	34,813,550
Condominium	23,733,274	18,231,721	29,326,334
Lot only	8,315,367	6,543,981	17,417,905
	₱75,939,410	₱66,461,372	₱117,580,972

All of the Group's real estate sales from residential development are revenue from contracts with customers recognized over time.

Hotels and resorts

	2021	2020	2019
	(In thousands)		
Type of Product			
Rooms	₱1,581,171	₱1,775,632	₱4,447,172
Food and beverage	816,326	731,812	2,090,953
Others	213,465	273,424	324,322
Other operated department	222,113	607,322	761,712
	₱2,833,075	₱3,388,190	₱7,624,159

The Group's revenue from hotels and resorts is attributed to the operations from the development and management of hotels and resorts/serviced apartments. In view of the continuing community quarantines and restricted travel, the Group's hotels and resorts segment continues to be adversely affected by the lower number of guests and reduced room rates, both of which have significantly impacted the revenues reported under this segment. Also, many restaurants remain closed or allowed limited operations which impacted the food and beverage revenues of the segment.

The Group's construction revenue pertains to transactions with related parties such as joint ventures and associates.

Others are mainly composed of property management facilities of the Group and third party projects.

In line with the rental relief framework implemented by the government to support businesses and the broader economy due to the impact of COVID-19, the Group waived its right to collect rent and other charges as part of various lease concessions it granted to lessees such as lease payment holidays or lease payment reductions. Rent discounts and concessions given vary for merchants that are (1) forced to close and those that are still (2) operational. Rental fees and common charges of merchants who were forced to close during the quarantine period were waived with 50% discount in their common area usage expenses.

As of December 31, 2021 and 2020 deferred tax liabilities have not been recognized on the undistributed earnings and cumulative translation adjustment of foreign subsidiaries since the timing of the reversal of the temporary difference can be controlled by the Group and management does not expect the reversal of the temporary differences in the foreseeable future.

Certain subsidiaries of the Parent Company have NOLCO amounting to ₱5,732.7 million and ₱4,683.8 million as of December 31, 2021 and 2020, respectively, and MCIT amounting to ₱26.0 million and ₱142.7 million as of December 31, 2021 and 2020, respectively. Deferred tax assets are recognized only to the extent that taxable income will be available against which the deferred tax assets can be used. As of December 31, 2021 and 2020, total unrecognized NOLCO amounted to ₱212.1 million and ₱317.7 million, respectively. As of December 31, 2021 and 2020, total unrecognized MCIT amounted to ₱14.3 million and ₱126.4 million, respectively. The subsidiaries will recognize a previously unrecognized deferred tax asset to the extent that it has become probable that future taxable income will allow the deferred tax asset to be recovered.

On September 30, 2020, the BIR issued Revenue Regulations No. 25-2020 implementing Section 4(bbbb) of "Bayanihan to Recover As One Act" which states that the NOLCO incurred for taxable years 2020 and 2021 can be carried over and claimed as a deduction from gross income for the next five (5) consecutive taxable years immediately following the year of such loss.

As of December 31, 2021, the Group has incurred NOLCO which can be claimed as deduction from the regular taxable income for the next three (3) consecutive taxable years, as follows:

Deferred tax related to remeasurement gain on defined benefit plans recognized in OCI amounted to ₱274.9 million and ₱206.1 million in 2021 and 2020, respectively.

Republic Act (RA) No.10963 or the Tax Reform for Acceleration and Inclusion Act (TRAIN) was signed into law on December 19, 2017 and took effect January 1, 2018, making the new tax law enacted as of the reporting date. Although the TRAIN changes existing tax law and includes several provisions that will generally affect businesses on a prospective basis, the management assessed that the same will not have any significant impact on the financial statement balances as of the reporting date.

Corporate Recovery and Tax Incentives for Enterprises Act” or “CREATE”

President Rodrigo Duterte signed into law on March 26, 2021 the Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act to attract more investments and maintain fiscal prudence and stability in the Philippines. Republic Act (RA) 11534 or the CREATE Act introduces reforms to the corporate income tax and incentives systems. It takes effect 15 days after its complete publication in the Official Gazette or in a newspaper of general circulation or April 11, 2021.

The following are the key changes to the Philippine tax law pursuant to the CREATE Act which have an impact on the Group:

Effective July 1, 2020, regular corporate income tax (RCIT) rate is reduced from 30% to 25% for domestic and resident foreign corporation. For domestic corporation with net taxable income not exceeding ₱5.00 million and with total assets not exceeding ₱100.00 million (excluding land on which the business entity’s office, plant and equipment are situated) during the taxable year, the RCIT rate is reduced to 20%.

Minimum corporate income tax (MCIT) rate reduced from 2% to 1% of gross income effective July 1, 2020 to June 30, 2023.

Imposition of improperly accumulated earnings tax (IAET) is repealed.

Board of Investments (BOI) Incentives

26. Retirement Plan

The Group has funded, noncontributory tax-qualified defined benefit type of retirement plans (the Plan) covering substantially all of their employees. The benefits are based on a defined benefit formula.

The Plan aims to maintain a full funding, i.e., the Plan's assets fully covered the Plan's liabilities, as measured through generally accepted actuarial methodologies. Such will provide a higher level of assurance that all promised benefits can be paid from existing assets and expected investment returns. The target funded status is within the range of 80% to 100%.

The Group's fund is in the form of a trust fund being maintained by the trustee banks such as BPI Asset Management and Trust Corporation (collectively the "Retirement Fund"). The primary objective of the Retirement Fund is to achieve the highest total rate of return possible, consistent with a prudent level of risk. The investment strategy articulated in the asset allocation policy has been developed in the context of long-term capital market expectations, as well as multi-year projections of actuarial liabilities. Accordingly, the investment objectives and strategies emphasize a long-term outlook, and interim performance fluctuations will be viewed with the corresponding perspective.

Funds invested in debt securities include government securities, corporate notes and bonds and money market placements. Investments in equity securities consist of investments in PSE listed stocks and unit investment trust funds. Others were in the form of cash and cash equivalents.

The Group's transactions with the funds mainly pertain to contributions, benefit payments and settlements.

As of December 31, 2021 and 2020, the funds include investment in securities of its related parties (see Note 25). Details of the investment per type of security are as follows:

	December 31, 2021			December 31, 2020
	Carrying Value	Fair Value	Unrealized (Gain) Loss	Fair Value
	(In Thousands)			
Investments in debt securities	₱39,533	₱41,796	(₱2,264)	₱916,337
Investments in equity securities	289,591	290,310	(719)	624,975

The plan assets include shares of stock of the Parent Company with fair value amounting to ₱54.03 million and 40.58 million as of December 31, 2021 and 2020, respectively. The Parent Company gives the trustee bank the discretion to exercise voting rights over the shares. The plan assets include debt securities of the Parent Company amounting to ₱31.93 million and ₱68.42 million as of December 31, 2021 and 2020, respectively. The gain of the fund arising from investment in debt and equity securities of the Parent Company is ₱0.89 million.

The cost of defined benefit pension plans and other post-employment medical benefits as well as the present value of the pension liabilities are determined using actuarial valuations. The actuarial valuation involves making various assumptions. The principal assumptions used in determining pension and post-employment medical benefit obligations for the defined benefit plans are shown below:

	2021	2020
Discount rates	3.65 to 5.83%	3.73 to 5.50%
Future salary increases	3.00 to 8.00%	3.00 to 8.00%

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the defined benefit obligation as of the end of the reporting period, assuming all other assumptions were held constant:

2021

	Effect on income before income tax Increase (decrease)	
Change in basis points	+ 100 basis points	- 100 basis points
	(In Thousands)	
Discount rate	(₱980,588)	(₱45,965)
Salary increase rate	(79,648)	(970,101)

2020

	Effect on income before income tax Increase (decrease)	
Change in basis points	+ 100 basis points	- 100 basis points
	(In Thousands)	
Discount rate	(₱335,855)	₱508,470
Salary increase rate	489,491	(320,960)

Shown below is the maturity analysis of the undiscounted benefit payments:

Year ending:	2021	2020
	(In Thousands)	
1 year and less	₱104,456	₱191,339
more than 1 years to 5 years	722,390	980,921
more than 5 years to 10 years	3,503,290	2,877,953
more than 10 years to 15 years	9,497,759	7,263,178
more than 15 years to 20 years	10,522,147	8,418,881
more than 20 years	18,841,385	14,802,379

The average duration of the defined benefit obligation is 6.0 to 24.0 years and 7.0 to 24.0 years in 2021 and 2020, respectively.

27. Earnings Per Share

The following tables present information necessary to compute EPS (amounts in thousands except EPS):

EPS on net income attributable to equity holders of Ayala Land, Inc. are as follows:

	2021	2020	2019
	(In Thousands)		
Net income attributable to equity holders of Ayala Land, Inc.	₱12,228,148	₱8,727,155	₱33,188,399
Less: dividends on preferred stock	(62,038)	(62,038)	(62,038)
Net income attributable to equity holders of the Parent			
Company for basic and diluted earnings per share	₱12,166,110	₱8,665,117	₱33,126,361
Weighted average number of common shares for basic EPS	14,724,716	14,721,234	14,742,690
Add: dilutive shares arising from stock options	(2,143)	2,296	3,783
Adjusted weighted average number of common shares for diluted EPS	14,722,573	14,723,530	14,746,473
Basic and diluted EPS	₱0.83	₱0.59	₱2.25

Basic EPS is computed by dividing net income for the year attributable to common equity holders of the Parent Company by the weighted average number of common shares issued and outstanding during the year adjusted for any subsequent stock dividends declared.

Diluted EPS is computed by dividing net income for the year attributable to common equity holders of the Parent Company by the weighted average number of common shares issued and outstanding during the year plus the weighted average number of common shares that would be issued on conversion of all the dilutive potential common shares into common shares. The calculation of diluted earnings per share does not assume conversion, exercise, or other issue of potential common shares that would have an antidilutive effect on earnings per share.

The convertibility of the preferred shares will start on the 10th year from the issue date which was in 2012. This has an antidilutive effect on the computation of diluted EPS.

28. Stock Options and Ownership Plans

The Parent Company has stock option plans for key employees covering 2.5% of the Parent Company's authorized capital stock. The grantee is selected based on certain criteria like outstanding performance over a three-year period.

ESOP

The ESOP grantees may exercise in whole or in part the vested allocation in accordance with the vesting percentage and vesting schedule stated in the ESOP. Also, the grantee must be an employee of the Parent Company or any of its subsidiaries during the 10-year option period. In case the grantee retires, he is given 3 years to exercise his vested and unvested options. In case the grantee resigns, he is given 90 days to exercise his vested options.

The Parent Company has no ESOP grant and availment during 2021, 2020 and 2019.

ESOWN

In November 2001, the Parent Company offered all its ESOWN subscribers with outstanding ESOWN subscriptions the option to cancel the subscriptions within the 5-year holding period. In December 2001, the program for ESOWN was indefinitely suspended.

In 2005, the Parent Company introduced a revised ESOWN Plan (the Plan) wherein grantees may subscribe in whole or in part to the shares awarded to them based on a discounted market price that was determined by the Compensation Committee as the offer price set at grant date. The grantees paid for the shares subscribed through installments over a maximum period of ten (10) years. The subscription is subject to a holding period stated in the plan. To subscribe, the grantee must be an employee of the Parent Company or any of its subsidiaries during the ten (10)-year payment period. In case the grantee resigns, unsubscribed shares are cancelled, while the subscription may be paid up to the percent of holding period completed and payments may be converted into the equivalent number of shares. In case the grantee is separated, not for cause, but through retrenchment and redundancy, subscribed shares may be paid in full, unsubscribed shares may be subscribed, or payments may be converted into the equivalent number of shares. In case the grantee retires, the grantee may subscribe to the unsubscribed shares anytime within the ten (10)-year period. The plan does not allow sale or assignment of the shares. All shares acquired through the Plan are subject to the Parent Company's right to repurchase.

The subscribed shares are effectively treated as options exercisable within a given period which is the same time as the grantee's payment schedule. The fair values of stock options granted are estimated on the date of grant using the Black-Scholes Merton (BSM) Formula and Binomial Tree Model (BTM), taking into account the terms and conditions upon which the options were granted. The BSM Formula and BTM Model requires six inputs to produce an option stock value namely; market value of the share, book value of the share, time to maturity, volatility rate, dividend yield, and risk free rate. The expected volatility was determined based on an independent valuation.

Movements in the number of options outstanding and weighted average exercise prices (WAEP) under ESOWN follow:

	2021	WAEP	2020	WAEP
At January 1	-	P-	305,415	P35.94
Granted	14,683,519	-	18,194,618	-

Total expense (included under "General and administrative expenses") recognized in 2021, 2020 and 2019 in the consolidated statements of income arising from share-based payments amounted to P150.07 million, P111.92 million, and P142.86 million, respectively (see Note 22).

ALLHC

ALLHC introduced the ESOWN Plan (the Plan) wherein grantees (employees within ALLHC Group) may subscribe in whole or in part to the shares awarded to them based on a discounted market price, but in no case lower than the par value, that was determined at grant date. The grantees paid for the shares subscribed through installments over a maximum period of ten (10) years. To subscribe, the grantee must be an employee, officer or director of ALLHC as of June 30, 2015. In case the grantee resigns, unsubscribed shares are cancelled and returned to the plan pool, while the subscription payments may be converted into the equivalent number of shares. In case the grantee is separated, not for cause, but through retrenchment and redundancy, subscribed shares may be paid in full, unsubscribed shares may be subscribed, or payments may be converted into the equivalent number of shares. In case the grantee retires, the grantee may subscribe to the unsubscribed shares anytime within the ten (10)-year period. The plan does not allow sale or assignment of the shares.

The BOD of ALLHC approved the allocation of 32 million shares (first tranche) for ESOWN plan which will be taken from the remaining unissued shares (with grant date in 2016) and the increase in authorized of stock of ALLHC, which was approved by the SEC in July 2016. In 2017, notice of grant for the 218 million shares (second tranche of ESOWN plan) was issued to employees for the right to subscribe to the common shares of ALLHC at P1.68 per share which were fully availed as of December 31, 2018. In 2021 and 2020, ALLHC has no ESOWN grant.

29. Financial Assets and Liabilities

Fair Value Information

The following tables set forth the carrying values and estimated fair values of the Group's financial assets and liabilities recognized as of December 31, 2021 and 2020:

	₱266,001,226	₱246,948,953	₱251,402,352	₱247,476,773

The methods and assumptions used by the Group in estimating the fair value of the financial instruments are as follows:

Cash and cash equivalents, short-term investments and current receivables, accounts and other payables and short term debt - Carrying amounts approximate fair values due to the relatively short-term maturities of these financial instruments.

Financial assets at FVPL - These are investments in fund and treasury bills. Fair value of the funds is based on net asset values as of reporting dates.

Financial assets at FVOCI quoted equity securities - fair values are based on quoted prices published in markets.

Financial assets at FVOCI unquoted equity securities – fair values are based on the latest selling price available.

Noncurrent accounts and notes receivables - The fair values of residential, commercial and office development accounts and notes receivable, and receivable from employees, are based on the discounted value of future cash flows using the applicable rates for similar types of instruments. The discount rates used ranged from 5.50% to 18.00% and 5.75% to 16.00% as of December 31, 2021 and 2020.

Financial assets at FVOCI quoted equity securities - fair values are based on quoted prices published in markets.

Financial assets at FVOCI unquoted equity securities – fair values are based on the latest selling price available.

Liabilities - The fair value of noncurrent unquoted instruments (long-term debt and deposits) are estimated using the discounted cash flow methodology using the Group's current incremental borrowing rates for similar borrowings with maturities consistent with those remaining for the liability being valued. The discount rates used ranged 1.00% to 5.25% and 1.84% to 7.50% as of December 31, 2021 and 2020, respectively. The fair value of noncurrent unquoted debt instruments with floating rates are estimated using discounted cash flow - last repricing method.

Fair Value Hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of the financial instruments by valuation technique:

Level 1: quoted (unadjusted prices) in active markets for identical assets and liabilities

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data

The Group categorizes trade receivable, receivable from employees, long-term debt and deposits and other noncurrent liabilities under Level 3. The fair value of these financial instruments is determined by discounting future cash flows using the applicable rates of similar types of instruments plus a certain spread. This spread is the unobservable input and the effect of changes to this is that the higher the spread, the lower the fair value.

Investment in Arch Capital Fund amounting to ₱293.8 million and ₱328.0 million as of December 31, 2021, and 2020, respectively, were classified under Level 3 (see Note 6).

Investment in Unit Investment Trust Fund (UITF) amounting to ₱407.0 million and ₱378.1 million as of December 31, 2021, and 2020, respectively, were classified under Level 2 (see Note 6).

Investment in Treasury bills amounting to ₱259.2 million as of December 31, 2020 (nil in 2021), were classified under Level 2 (see Note 6).

Quoted FVOCI financial assets amounting to ₱397.7 million and ₱844.5 million as of December 31, 2021, and 2020, respectively, were classified under Level 1 (see Note 10).

Unquoted FVOCI financial assets amounting to ₱583.5 million and ₱667.0 million as of December 31, 2021 and 2020, respectively, were classified under Level 3 (see Note 10).

There have been no reclassifications to and from Level 1, Level 2 and Level 3 categories in 2021 and 2020 for financial assets at FVTPL and FVOCI.

Financial Risk Management Objectives and Policies

The Group's principal financial instruments comprise of cash and cash equivalents, short-term investment, financial assets at FVPL, AFS quoted and unquoted equity securities, investments in bonds, bank loans, corporate notes and bonds. The financial debt instruments were issued primarily to raise financing for the Group's operations. The Group has various financial assets such as trade receivables and trade payables which arise directly from the conduct of its operations.

Exposure to liquidity, credit, interest rate, currency and equity risks arise in the normal course of the Group's business activities. The main objectives of the Group's financial risk management are as follows:

- to identify and monitor such risks on an ongoing basis;
- to minimize and mitigate such risks; and
- to provide a degree of certainty about costs.

The use of derivative financial instruments, if any, is solely for management of the Group's financial risk exposures. It is the Group's policy not to enter into derivative transactions for speculative purposes.

The Group's financing and treasury function operates as a centralized service for managing financial risks and activities as well as providing optimum investment yield and cost-efficient funding for the Group.

There were no changes in the Group's financial risk management objectives and policies in 2021 and 2020.

Liquidity risk

Liquidity risk is defined by the Group as the risk of losses arising from funding difficulties due to deterioration in market conditions and/or the financial position of the Group that make it difficult for the Group to raise the necessary funds or that forces the Group to raise funds at significantly higher interest rates than usual.

This is also the possibility of experiencing losses due to the inability to sell or convert marketable securities into cash immediately or in instances where conversion to cash is possible but at a loss due to wider than normal bid-offer spreads.

The Group employs scenario analysis and contingency planning to actively manage its liquidity position and guarantee that all operating, investing and financing needs are met. The Group has come up with a three-layered approach to liquidity through the prudent management of sufficient cash and cash equivalents, the potential sale of accounts receivables and the maintenance of short-term revolving credit facilities.

Cash and cash equivalents are maintained at a level that will enable it to fund its general and administrative expenses as well as to have additional funds as buffer for any opportunities or emergencies that may arise. Management develops viable funding alternatives through a continuous program for the sale of its receivables and ensures the availability of ample unused short-term revolving credit facilities from both local and foreign banks as back-up liquidity.

The Group ascertains that its cash is invested in short-term bank placements and special deposit accounts, as well as in high-quality and marketable government and corporate securities.

Credit line

The Group has a total short term credit line up to ₱100.8 billion and ₱84.43 billion with various local banks, of which ₱58.9 billion and ₱58.3 billion remain undrawn as of December 31, 2021 and 2020, respectively.

Cash and cash equivalents, short-term investments and financial assets at FVTPL are used for the Group's liquidity requirements. Please refer to the terms and maturity profiles of these financial assets shown on the maturity profile of the interest-bearing financial assets and liabilities disclosed in

the interest rate risk section. There are no undrawn loan commitments from long-term credit facilities as of December 31, 2021 and 2020.

Credit risk

Credit risk is a risk that a counterparty will not meet its obligation under its financial instrument or customer contract leading to a financial loss.

The Group's credit risks are primarily attributable to installments receivable, rental receivables and other financial assets. To manage credit risks, the Group maintains defined credit policies and monitors its exposure to credit risks on a continuous basis.

In respect of installments receivable from the sale of properties, credit risk is managed primarily through credit reviews and an analysis of receivables on a continuous basis. The Group also undertakes supplemental credit review procedures for certain installment payment structures. The Group's stringent customer requirements and policies in place contribute to lower customer default than its competitors. Customer payments are facilitated through various collection modes including the use of postdated checks and auto-debit arrangements. Exposure to bad debts is not significant as title to real estate properties are not transferred to the buyers until full payment has been made and the requirement for remedial procedures is minimal given the profile of buyers. Also, to the extent allowed by regulations, certain payments are not returned which minimizes exposure to bad debts.

Credit risk arising from rental income from leasing properties is primarily managed through a tenant selection process. Prospective tenants are evaluated on the basis of payment track record and other credit information. In accordance with the provisions of the lease contracts, the lessees are required to deposit with the Group security deposits and advance rentals which helps reduce the Group's credit risk exposure in case of defaults by the tenants. For existing tenants, the Group has put in place a monitoring and follow-up system. Receivables are aged and analyzed on a continuous basis to minimize credit risk associated with these receivables. Regular meetings with tenants are also undertaken to provide opportunities for counseling and further assessment of paying capacity. The amount of exposure from bad debts is minimized to the extent of the advance rentals and security deposits from the tenants.

Other financial assets are comprised of cash and cash equivalents excluding cash on hand, short-term investments, financial assets at FVTPL and financial assets at FVOCI. The Group adheres to fixed limits and guidelines in its dealings with counterparty banks and its investment in financial instruments. Bank limits are established on the basis of an internal rating system that principally covers the areas of liquidity, capital adequacy and financial stability. The rating system likewise makes use of available international credit ratings. Given the high credit standing of its accredited counterparty banks, management does not expect any of these financial institutions to fail in meeting their obligations. Nevertheless, the Group closely monitors developments over counterparty banks and adjusts its exposure accordingly while adhering to pre-set limits.

The Group's maximum exposure to credit risk as of December 31, 2021 and 2020 is equal to the carrying values of its financial assets.

Given the Group's diverse base of counterparties, it is not exposed to large concentrations of credit risk.

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rate based on days past due of all customers as they have similar loss patterns. Generally, trade receivables are written off if past due for more than one year and are not subject to enforcement activity. The security deposits and advance rental from tenants are considered in the calculation of impairment as recoveries. As of December 31, 2021 and 2020, the exposure at default amounts to ₱25,010.7 million and ₱12,400.1 million, respectively. The expected credit loss rate is 7.2% and 5.3% that resulted in the ECL of ₱2,294.2 million and ₱1,945.5 million as of December 31, 2021 and December 31, 2020, respectively.

As of December 31, 2021 and 2020, the aging analysis of past due but not impaired trade receivables presented per class follow:

The credit quality of the financial assets was determined as follows:

Cash and cash equivalents, short-term investments, financial assets at FVTPL, financial assets at FVOCI quoted securities - based on the nature of the counterparty and the Group's internal rating system;

Receivables - high grade pertains to receivables with no default in payment; medium grade pertains to receivables with up to 3 defaults in payment; and low grade pertains to receivables with more than 3 defaults in payment;

The unquoted financial assets at FVOCI are unrated.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's interest rate risk management policy centers on reducing the overall interest expense and exposure to changes in interest rates. Changes in market interest rates relate primarily to the Group's interest-bearing debt obligations with floating interest rate as it can cause a change in the amount of interest payments.

The Group manages its interest rate risk by leveraging on its premier credit rating and increasing the fixed interest component of its debt portfolio. The Company's ratio of fixed to floating rate debt stood at around 91:9 and 95:5 as of December 31, 2021 and 2020, respectively.

The following tables demonstrate the sensitivity of the Group's profit before tax and equity to a reasonably possible change in interest rates on December 31, 2021 and 2020, with all variables held constant, (through the impact on floating rate borrowings):

December 31, 2021

	Effect on income before income tax	
	Increase (decrease)	
Change in basis points	+ 100 basis points	- 100 basis points
	(In Thousands)	
Floating rate borrowings	(P194,117)	P194,117

December 31, 2020

	Effect on income before income tax	
	Increase (decrease)	
Change in basis points	+ 100 basis points	- 100 basis points
	(In Thousands)	
Floating rate borrowings	(P116,402)	P116,402

The assumed change in rate is based on the currently observable market environment. There is no other impact on the Group's equity other than those already affecting the net income.

The terms and maturity profile of the interest-bearing financial assets and liabilities, together with their corresponding nominal amounts and carrying values are shown in the following table (in thousands):

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Financial assets and credit facilities of the Group, as well as major contracts entered into for the purchase of raw materials, are mainly denominated in Philippine Peso. The Group's placements in foreign currencies amounted to US\$30.73 million and MYR 647.69 million as of December 31, 2021 and US\$140.98 million and MYR 838.17 million as of December 31, 2020. The amount of the Group's foreign currency-denominated debt amounting to US\$132.8 million and MYR 775.08 million as of December 31, 2021 and \$158.68 million and MYR 1,031.9 million as of December 31, 2020. The Group expected a decrease in financial assets due to the impact of COVID-19 outbreak and imposition of community quarantines by the government throughout the Philippines in March 2020, until 2nd and 3rd quarter of 2021. Considering that the Group is in the hospitality sector, the operations of the company were greatly affected. Aside from the aforementioned finding, the Group's foreign currency risk is minimal.

The following table shows the Group's consolidated foreign currency-denominated monetary assets and liabilities and their peso equivalents as of December 31, 2021 and December 31, 2020:

There is no other impact on the Group's equity other than those already affecting the net income.

Equity price risk

Quoted financial assets at FVOCI are acquired at a certain price in the market. Such investment securities are subject to price risk due to changes in market values of instruments arising either from factors specific to individual instruments or their issuers or factors affecting all instruments traded in the market. Depending on several factors such as interest rate movements, country's economic performance, political stability, domestic inflation rates, these prices change, reflecting how market participants view the developments.

The Group's market risk policy requires it to manage such risks by setting and monitoring objectives and constraints on investments; diversification plan; limits on investment in each country, sector and market.

The analysis below demonstrates the sensitivity to a reasonably possible change of market index with all other variables held constant, of the Group's equity.

Change in PSEi index	Effect on equity Increase (decrease)	
	2021	2020
	(In Thousands)	
+5%	₱—	₱27,247
-5%	—	(27,247)

Quoted financial assets at FVTPL pertain to investment in UITF (Fund). The Fund, which is structured as a money market UITF, aims to generate liquidity and stable income by investing in a diversified portfolio of primarily short-term fixed income instruments.

As of December 31, 2021 and 2020, the fair value, net income and equity of the Group's investment in the Fund where all other variables held constant, will increase or decrease by ₱1.7 million with a duration of 0.66 year and ₱2.6 million with a duration of 0.70 year, respectively, for a 100 basis points decrease or increase in interest rates.

30. Segment Information

The industry segments where the Group and its associates and joint ventures operate follows:

- Property developments - sale of high-end and upper middle-income residential lots and units, affordable housing units and lots, economic housing and leisure community developments; lease of residential developments under joint venture; acquisition, development and sale of large-scale, mixed-use, master-planned communities; sale of override units or the Company's share in properties made available to subsidiaries for development
- International – development and sale of residential lots and units in MCT Berhad
- Shopping centers - development of shopping centers and lease to third parties of retail space and land therein; operation of movie theaters, food courts, entertainment facilities, gas stations and carparks in these shopping centers; management and operation of malls which are co-owned with partners
- Offices - development and lease or sale of office buildings; sale of industrial lots and lease of factory building
- Hotels and Resorts - development and management of hotels and resorts/serviced apartments and lease of land to hotel tenants
- Construction - land development and construction of the Group and third-party projects
- Property management and others - facilities management of the Group and third-party projects

Assets, liabilities, revenues and expenses of the Strategic Landbank Management and Visayas-Mindanao segment were reallocated to other business segments namely, shopping centers, corporate businesses and residential developments according to the nature of the products and services provided.

The Company and its subsidiaries generally account for inter-segment sales and transfers as if the sales and transfers were to third parties at current market prices.

Management committee monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment.

For the years ended December 31, 2021, 2020 and 2019, there were no revenue transactions with a single external customer which accounted for 10% or more of the consolidated revenue from external customers.

31. Performance Obligations

Information about the Group's performance obligations are summarized below:

Real estate sales

The Group entered into contracts to sell with one identified performance obligation which is the sale of the real estate unit together with the services to transfer the title to the buyer upon full payment of contract price. The amount of consideration indicated in the contract to sell is fixed and has no variable consideration.

The sale of real estate unit may cover the contract for either the (i) serviced lot; (ii) service lot and house, and (iii) condominium unit and the Group concluded that there is one performance obligation in each of these contracts. The Group recognizes revenue from the sale of these real estate projects under pre-completed contract over time during the course of the construction.

Payment commences upon signing of the contract to sell and the consideration is payable in cash or under various financing schemes entered with the customer. The financing scheme would include payment of 10% of the contract price spread over a certain period (e.g., one to two years) at a fixed monthly payment with the remaining balance payable (a) in full at the end of the period either through cash or external financing; or (b) through in-house financing which ranges from two (2) to ten (10) years with fixed monthly payment. The amount due for collection under the amortization schedule from each of the customer does not necessarily coincide with the progress of construction, which results to either an unbilled receivable or customers' deposit.

After the delivery of the completed real estate unit, the Group provides one year warranty to repair minor defects on the delivered serviced lot and house and condominium unit. This is assessed by the Group as a quality assurance warranty and not treated as a separate performance obligation.

Hotels and resorts

Rooms revenue from hotel and resort operations is recognized when the services are rendered. Revenue from banquets and other special events are recognized when the events take place.

Construction

Revenue from fixed price construction contracts are recognized overtime using the milestone-based revenue recognition which is in reference to output method. The output method is determined based on the start and completion of a task of the contract work inclusive of uninstalled goods and materials delivered to the site.

The transaction price allocated to the remaining performance obligations (unsatisfied or partially satisfied) as at December 31, 2021 and 2020 are as follows:

	2021	2020
	(In Thousands)	
Within one year	₱45,005,469	₱31,535,337
More than one year	55,587,158	62,554,555
	₱100,592,627	₱94,089,892

The remaining performance obligations expected to be recognized within one year and in more than one year relate to the continuous development of the Group's real estate projects. The Group's condominium units are completed within three to five years from start of construction while serviced lots and serviced lots and house are expected to be completed within two to three years from start of development.

Based on the impairment testing, there is no impairment loss on the Group's hotel and resorts right-of-use assets (see Note 3).

34. Interest in Joint Operation

MDC has a 51.0% interest in Makati Development Corporation - First Balfour, Inc. Joint Venture (the Joint Venture), a joint operation whose purpose is to design and build St. Luke's Medical Center (the Project) in Fort Bonifacio Global City, Taguig. The application of PFRS 11 does not have significant impact on the Group's accounting of its interest in joint operation since it already reported its share in interest in joint operation using proportionate consolidation.

The Project, which started on January 31, 2007, is a world-class medical facility comprising, more or less, of a 611-bed hospital and a 378-unit medical office building, with an approximate gross floor area of 154,000 sqm, which meets international standards, and all standards and guidelines of applicable regulatory codes of the Philippines and complies with the criteria of the Environment of Care of the Joint Commission International Accreditation. The project was completed on October 30, 2009. Activities in 2011 to 2021 mainly pertain to winding down operations.

MDC classified its joint arrangement with First Balfour, Inc. as “Joint Operation” since the joint arrangement’s legal form does not confer separation between the parties and separate vehicle, the parties have the rights to the assets and obligations for the liabilities in proportion to the interests agreed by parties and there is an indication that the parties have no rights to the net assets of the Joint Operation.

The share of MDC in the net assets and liabilities of the Joint Operation as at December 31, 2021 and 2020 which are included in the consolidated financial statements follow:

	2021	2020
	(In Thousands)	
Current assets:		
Cash and cash equivalents	₱7,123	₱7,078
Other current assets	37,368	37,368
Total assets	₱44,491	₱44,446
Total liabilities	₱-	₱-

The following is the share of the MDC on the net income of the Joint Operation:

	2021	2020
	(In Thousands)	
Construction costs	₱-	(₱7)
Interest and other income (charges)	46	(14)
Income before income tax	46	(21)
Provision for final tax	(1)	(1)
Net income	₱45	₱45

There were no dividends declared in 2021 and 2020. Provision for income tax pertains to the final tax on interest income.

35. Long-term Commitments and Contingencies

Commitments

- On December 8, 2017, ALI assigned to NTDCC development rights on certain portions of the North Triangle lot pads covered by a Deed of Assignment and Encroachment Settlement Agreement amounting to ₱631.2 million.
- ALI and LT Group, Inc. (LTG) entered into an agreement on January 21, 2016 to jointly develop a project along the C5 corridor. The project is envisioned to be an estate development that spans portions of Pasig City and Quezon City. A new company named, ALI-ETON Property Development Corporation, was incorporated on May 13, 2016.

On January 15, 2018, the estate, named Parklinks was launched and is the greenest urban estate of Ayala Land in partnership with Eton Properties Inc. The first residential project of Ayala Land Premier, Parklinks North Tower was launched on the same year, while the Parklinks lifestyle mall broke ground as well, expected to provide a new destination for residents and office workers within the area when it opens in 2025. With the brisk residential sales of ALP’s first project, the Parklinks South tower was launched in 2019, together with Alveo’s first residential development “The Lattice”.

Also set to rise within the estate will be an iconic bridge that will conveniently connect the QC and Pasig parcels, offering a new route that can help ease vehicular traffic in the north eastern and eastern portions of Metro Manila. The bridge is expected to be completed by Q2 of 2022.

- c. On August 11, 2015, the Group won the bid for the Integrated Transport System Project – South Terminal (“ITS South Project”). The Company was awarded by the Department of Transportation and Communications (“DOTC”) with a 35-year concession agreement to build and operate the ITS South Project and will likewise have the right to develop and operate commercial leasing facilities on the same 5.57 hectare former Food Terminal Inc. property on which the future transport terminal will be built. The site of the ITS South Project is right next to ARCA South, where the Company is developing an integrated mixed-use estate.
- d. On June 30, 2015, the Parent Company, through SM-ALI Group Consortium (the Consortium), participated and won in the bidding for Lot No. 8-B-1, containing an area of 263,384 sqm, which is portion of Cebu City-owned lot located at the South Road Properties, Cebu City covered by Transfer Certificate of Title No. 107-2011000963. The Consortium is a consortium among SMPHI, the Company and CHI (together with the Company collectively referred to as the “ALI Group”). Consistent with the agreed payment schedule in the Deed of Absolute Sale, as of August 1, 2018 the ALI Group has fully paid ₱4.56 billion, excluding taxes. The SM-ALI Group finished the joint masterplan and secured the development permit last November 2019 from the Cebu City Council.

On January 29, 2020, SM-ALI Group broke ground the 263,384 sqm development and the construction of road networks and underground utilities commence on February 18, 2020.

As of December 2021, the construction completion is at 80% and is forecasted to be finished in June 2022.

The development is positioned to be the Entertainment Capital of the Region which are the epicenter of fun, strategically located and accessible and celebrated Cebu experience.

It is envisioned to create a commercially viable mixed-use development and to create a living, vibrant community with world-class facilities, a well-designed urban setting, and lush, extensive landscaping.

- e. On August 8, 1997, an “Assignment Agreement” was executed between Department of Transportation and Communications (DOTC), Metro Rail and MRTDC whereby MRTDC agreed to be bound by all obligations in respect of the Development Rights and make payments to DOTC.
- f. On June 4, 2014, AHRC, a wholly owned subsidiary of the Parent Company has signed a long-term management agreement with the Mandarin Oriental Hotel Group to develop and operate luxury hotel in Makati City. Set to open its doors by 2023, the new Mandarin Oriental Manila will be featuring 276 spacious rooms complemented by an extensive range of modern amenities including premium selection of restaurants and a signature spa. AHRC is committed to pay US\$5 million (₱223.6 million) to Manila Mandarin Hotel, Inc. upon the opening of the New Hotel or June 30, 2017, whichever is earlier. In 2017, the Group fully paid the said amount.
- g. On May 12, 2014, ALI has signed the terms of reference with Sureste Properties, Inc. (SPI), a wholly owned subsidiary of Bloomberry Resorts Corp. (BLOOM) for the retail area to be opened in the new Phase 1-A of Solaire Resort & Casino. The Company will be the leasing and marketing agent of the said area with gross leasable area of more than 5,000 sqm.

Contingencies

The Group has various contingent liabilities arising in the ordinary conduct of business including a case related to property restriction violation. The estimate of the probable cost for the resolution of this claim has been developed in consultation with outside counsel handling the defense in this matter and is based upon an analysis of potential results. In the opinion of management and its legal counsel the eventual liability under these lawsuits or claims, if any, will not have a material or adverse effect on the Group's financial position and results of operations. Accordingly, no provision for any liability has been made in the consolidated financial statements.

Disclosures required by PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, were not provided as it may prejudice the Group's position in ongoing claims and it can jeopardize the outcome of the claims and contingencies.

36. Concession Agreement with Department of Transportation (DOTr)

On January 26, 2016, the Group through ASITI entered into a Concession Agreement (CA) with the Department of Transportation (DOTr). The CA sets forth the rights and obligations of ASITI as concessionaire, including the construction and operation of the South Integrated Transport System Project (the Project) of DOTr. During the concession period, DOTr will monitor and review the performance of the concessionaire.

The concession will run for a period of 35 years from the start of the construction of the Project. Under the terms of the concession agreement, ASITI will design, engineer, construct, operate and maintain a mass transportation intermodal terminal at the outskirts of Metro Manila. The operation of the Project includes the collection and remittance of terminal fees to DOTr of the concessionaire during the concession period. In addition, ASITI will be permitted to develop and operate commercial leasing facilities.

Upon the start of the construction of the Project, DOTr will give ASITI the full, exclusive and uninterrupted use and possession of a 5.57 hectare property known as the Project Land. Ownership of the Project Land shall remain with DOTr at all times while the possession, custody and risk of loss or deterioration of the Project and commercial assets shall vest in the concessionaire during the concession period. ASITI shall transfer the Project and the related assets, free from any liens or encumbrances, to DOTr at the end of the concession period. ASITI will be entitled to annual payments from DOTr amounting to ₱277.9 million during the 35-year concession period, subject to meeting benchmarks set for certain key performance indicators enumerated in the CA.

As of December 31, 2021, construction of the Project has not yet commenced.

- The raising of up to ₱45 billion in debt capital to refinance maturing debt and partially finance general corporate requirements through the issuance of retail bonds and/or corporate notes for listing on the Philippine Dealing and Exchange Corporation and/or execution of bilateral term loans.
- The 2022 stock option program under our Employee Stock Ownership Plan (the “Plan”) which authorizes the grant to qualified executives, in accordance with the terms of the Plan, of stock options covering up to a total of 17,250,890 common shares at a subscription price of ₱30.29 per share, which is the average price of our common shares at the Philippine Stock Exchange over the last 30-day trading period as of February 14, 2022, less a 15% discount.
- The declaration of cash dividends of ₱0.1352 per outstanding common share payable on March 25, 2022 to stockholders of common shares as of record date March 11, 2022. This reflects a 49% decrease from the cash dividends declared in the first half of 2020 amounting to ₱0.268 per share.

39. Other Matters

The declaration of COVID-19 by the World Health Organization (WHO) as a pandemic and declaration of nationwide state of calamity and implementation of community quarantine measures throughout the country starting March 16, 2020 have caused disruptions in the Group's business activities. While there are recent signs of increased market activity with the easing of quarantine measures in key areas in the Philippines, management believes that the impact of COVID-19 situation remains fluid and evolving and the pace of recovery remains uncertain.

As of reporting date, all shopping malls have reopened at adjusted operating hours and construction works for commercial and residential projects have resumed while following the safety protocols mandated by the national government. Most hotels remained open throughout the community quarantine period, catering mostly to business process outsourcing employees and returning overseas Filipino workers.
